M Mark

Aprender en la Universidad en un mundo volátil, incierto, cambiante y ambiguo Fernando Hernandez-Hernández, Judit Onsès Segarra, 2024-06-21 APRENDER EN LA UNIVERSIDAD EN UN MUNDO VOLÁTIL... VICA, el acrónimo de Volátil, Incierto, Complejo y Ambiguo es un término surgido de la teoría de la gestión empresarial en la década de los años 80 muy utilizado en la actualidad en todos los sectores para definir los nuevos estados de la vida social y política. La Universidad, todo su ecosistema y las condiciones de aprendizaje, no es ajena a la velocidad con la que se suceden los cambios en direcciones cambiantes, a la dificultad para predecir el futuro incierto, a la complejidad de las fuerzas que nos afectan, y al significado cada vez más ambiguo de los sucesos que vivimos. Por eso los autores de esta obra se proponen que, docentes, gestores, familias y medios de comunicación, conozcan cómo los estudiantes se relacionan hoy en día con la enseñanza y el aprendizaje en la Universidad y cómo lo hacen desde sus posiciones, experiencias y expectativas. Es hora de que hablemos sobre cómo aprenden los estudiantes universitarios es el título del simposio del que han salido los capítulos de este libro. No como una recopilación de comunicaciones, sino como cruce de experiencias, saberes e investigaciones, que posibilitan la producción de saberes en el enredo entre diferentes temas de estudio, propuestas y experiencias.

Monográfico Innovación UMH 2017 A. M. Mayoral, J. Morales, J. A. Pérez Juan, P. Robles, 2018-11-06 Cada año la Universidad Miguel Hernández promueve convocatorias en las que apoya a profesores y proyectos de innovación educativa que se desarrollan en nuestra universidad. Desde el curso 2016-17 este llamamiento se concreta en los Programas PIEU (Programa de Innovación Educativa Universitaria) y ÓSMOSIS. PIEU está dirigido a profesorado universitario para desarrollar proyectos innovadores y de mejora en grados y másteres oficiales. ÓSMOSIS está dirigido a docentes no universitarios en centros educativos de financiación pública, para desarrollar proyectos innovadores en niveles preuniversitarios, contando para ello con la colaboración de la UMH, y en particular de profesores y estudiantes UMH que, por su línea de trabajo, pueden aportar algo en cada uno de los proyectos financiados. Este monográfico ha pretendido recopilar las mejores experiencias PIEU y ÓSMOSIS de este curso académico 2016-17, y así mismo acompañarlas de experiencias previas en convocatorias anteriores de la UMH. El objetivo de este monográfico es el de mostrar las experiencias desarrolladas, con el fin de servir de motor creativo para la generación de nuevas ideas y proyectos de innovación que podamos desarrollar en cualquier ámbito educativo, y en particular de proyectos de colaboración internivel

entre la Universidad, Secundaria y Primaria. Este monográfico ha contado con la revisión dedicada de un comité editorial constituido por José Antonio Pérez Juan (Director del Dpto. de Ciencia Jurídica), Pedro Robles Ramos (Decano de la Facultad de CC.Experimentales), Javier Morales Socuéllamos (Director del Máster U. en Formación del Profesorado de ESO, BACH, FP y EI) y M^a Asunción Martínez Mayoral (Vicerrectora Adjunta para la Innovación Tecnológica).

Documentos de las sesiones del Consejo de Coordinación Universitaria 2002 Consejo de Coordinación Universitaria (España),2003 Herramienta destinada a los miembros del Consejo de Coordinación Universitaria que recoge la documentación del año 2002 utilizada en las sesiones del pleno, y de las Comisiones Académica y de Coordinación.

Arte y educación en contextos multidisciplinares Begoña Yañez-Martínez,2023-12-07

Gliptodonte FUENTES, José,2014-04-02 Gliptodonte ha tenido como finalidad profundizar en el proceso creativo de la imagen y hemos partido de relacionar tres aspectos que intervienen en la creación artística. En primer lugar, se ha planteado trabajar con un método de estimulación del pensamiento creador, el método Roukes, basado en los principios de la sinéctica aplicada a la creación artística. En segundo lugar, se ha propuesto la realización de una serie de imágenes a un nutrido grupo de artistas que se han comprometido con los objetivos de esta investigación. Y por último, este proyecto ha implicado aplicar el proceso de la serigrafía digital para la ejecución de las imágenes finales. La integración de cada una de estas variables ha aportado al proyecto una singularidad, una variedad y unas consecuencias visuales y conceptuales que no eran previsibles en sus inicios. El método Roukes ha proporcionado las pautas iniciales de creación para que partiendo de la escena inicial de un gliptodonte, común para todos los artistas, se fueran generando unos resultados de naturaleza conceptual y gráfica muy diferenciada y singular. La condición de proporcionar a cada artista tres acciones verbales que debía proyectar sobre esa escena fotográfica en blanco y negro, ha conseguido producir unos resultados que son reflejo de la estimulación creativa llevada a cabo por cada artista y evidencian la efectividad del método propuesto. El segundo aspecto clave de esta investigación ha sido el poder contar con un amplio grupo de artistas de varias nacionalidades y que trabajan en diversos contextos artísticos y educativos. Este grupo de investigación en serigrafía artística digital nos ofrece una variedad de miradas y propuestas innovadoras, generadas por inquietudes y personalidades muy distintas, que ha sido determinante en la aportación de la riqueza e interés de los resultados que se presentan en esta publicación. El empleo de la técnica de la serigrafía digital como medio para dar forma final a todas las ideas planteadas, ha sido el tercer factor de referencia para este proyecto. Este campo técnico de representación se enmarca dentro de los procesos de edición de obra múltiple, lo que ha permitido una mayor flexibilidad de ensayos con la imagen hasta su fase final, destacando sobre todo las relaciones cromáticas y unas peculiares características de ejecución a través del manejo de los lenguajes digitales a partir de imagen fotográfica. Programas como photoshop, fireworks o inkscape han sido herramientas esenciales o de partida para las intervenciones que los distintos artistas han realizado sobre la escena de origen, así como su adaptación al lenguaje

específico de la serigrafía digital. La producción de las obras ha sido financiada por el Instituto de Investigación en Arte y Tecnología de la Animación de la Universidad de Salamanca y agradecemos a todas las Instituciones aquí representadas su colaboración en la difusión editorial y expositiva de este proyecto. Podemos concluir que presentamos aquí unas experiencias de gran interés para el campo de la creación artística y esperamos poder seguir ofreciendo a la sociedad nuevas propuestas que enriquezcan la actitud reflexiva en el arte y estimulen el pensamiento creador. José Fuentes Investigador responsable del proyecto

Cuéntame qué haces en ciencia José Vicente Segura Heras, 2004-11-21 *La investigación constituye una función esencial de la Universidad Miguel Hernández (UMH), como base del proceso de creación de conocimiento, como condición para el ejercicio de una actividad docente y formativa de calidad, y como medio para contribuir al progreso social y facilitar la transferencia tecnológica. La UMH asume, como misiones fundamentales, incentivar y desarrollar una investigación científica, técnica y artística de excelencia y formar investigadores a través de los estudios de postgrado y doctorado y los programas de especialización. Estimulará la movilidad del personal investigador, el trabajo pluridisciplinario y la difusión y transferencia a la sociedad de los resultados de investigación.*

(Estatutos de la Universidad Miguel Hernández de Elche. Capítulo Segundo, Art. 111, apartado primero)

La UMH fomentará tanto la investigación básica, enfocada a la generación de nuevos conocimientos, como la aplicada, dirigida fundamentalmente hacia la obtención de objetivos prácticos o específicos. Igualmente, la UMH promoverá la realización de actividades de difusión social y de divulgación de la investigación que desarrolla.

(Estatutos de la Universidad Miguel Hernández de Elche. Capítulo Segundo, Art. 111, apartado tercero)

El Vicerrectorado de Investigación y Desarrollo Tecnológico, mediante este compendio de breves relatos, quiere hacer llegar a la Sociedad una muestra del saber científico de nuestros investigadores.

I Congreso internacional sobre masculinidades e igualdad Joan Sanfélix Albelda, Rosario Carmona Paredes, 2019-11-27 El recorrido de la senda de la igualdad requiere de la participación activa de los hombres. Haciéndose eco de esta realidad, nuestro agradecimiento a la Dra. Anastasia Téllez por prender la ilusión que ha generado un encuentro de investigación interdisciplinar e internacional con el fin de abordar las masculinidades igualitarias en el ámbito de la Universidad. Necesario también el agradecimiento a la incansable e incondicional dedicación del Comité Organizador, respaldado siempre por el reconocida calidad investigadora del Comité Científico. No es menos obligado el reconocimiento al impulso y cooperación de Universidades, Organismos y Entidades públicas y privadas que se embarcaron en esta aventura. Todas las personas que han participado de esta travesía lo han hecho con una sola idea convertida en lema: “La igualdad también es

cosa de Hombres”.
