Library Service to Tweens Melanie A. Lyttle, Shawn D. Walsh, 2017-02-03 This comprehensive guide to tween library services begins with a developmental description of this ever-changing group and offers practical advice about materials and programming. Criteria are provided for categorizing books, music, movies and magazines as appropriate for tweens, with special attention given to the reluctant reader. The authors discuss how to determine where tween services fit within the broader spectrum of youth services, and how to provide support for them. Information on marketing and outreach to tweens and their adults completes this essential guide.

Reading the World's Stories Annette Y. Goldsmith, Theo Heras, Susan Corapi, 2016-08-11 Reading the World's Stories is volume 5 in the Bridges to Understanding series of annotated international youth literature bibliographies sponsored by the United States Board on Books for Young People. USBBY is the United States chapter of the International Board on Books for Young People (IBBY), a Switzerland-based nonprofit whose mission is bring books and children together. The series promotes sharing international children's books as a way to facilitate intercultural understanding and meet new literary voices. This volume follows Children's Books from Other Countries (1998), The World through Children's Books (2002), Crossing

Boundaries with Children's Books (2006), and Bridges to Understanding: Envisioning the World through Children's Books (2011) and acts as a companion book to the earlier titles. Centered around the theme of the importance of stories, the guide is a resource for discovering more recent global books that fit many reading tastes and educational needs for readers aged 0-18 years. Essays by storyteller Anne Pellowski, author Beverley Naidoo, and academic Marianne Martens offer a variety of perspectives on international youth literature. This latest installment in the series covers books published from 2010-2014 and includes English-language imports as well as translations of children's and young adult literature first published outside of the United States. These books are supplemented by a smaller number of culturally appropriate books from the US to help fill in gaps from underrepresented countries. The organization of the guide is geographic by region and country. All of the more than 800 entries are recommended, and many of the books have won awards or achieved other recognition in their home countries. Forty children's book experts wrote the annotations. The entries are indexed by author, translator, illustrator, title, and subject. Back matter also includes international book awards, important organizations and research collections, and a selected directory of publishers known for publishing books from other countries.

Tally Tuttle Turns into a Turtle (Class Critters #1) Kathryn Holmes, 2021-08-31 Now in paperback, the start of a humorous and heartfelt new chapter book series about a second-grade class where each kid turns into an animal for a day. It's Tally Tuttle's first day of second grade, and she's so nervous that she feels like she ate butterflies for breakfast! On top of moving to a new town and new school where she doesn't know anyone, everyone starts teasing her when her full name, Tallulah, is revealed during roll call. She just wishes she could retreat into a shell . . . Then all of a sudden, the desks and her classmates around her seem enormous, and Tally is shell-shocked to discover that she's actually turned into a turtle! She'd heard that Mrs. Norrell's class was special, but she hadn't expected this. Tally likes having a shell to hide in, but there are other parts of turtle life—like the fear of being stepped on—that aren't exactly ideal. And once she's tired of hiding, how can she change back into a girl? Tally will have to forge her own transformation back to herself and come out of her shell—both literally and figuratively! In this new chapter book series, Mrs. Norrell's second grade classroom has magic that allows kids to transform into animals to learn important life lessons. Each book will follow a different kid and their animal transformation, and will include fun natural science facts about the featured animal in the back matter.
