**Elena dell'Agnese**

**Animal's People** Indra Sinha, 2009-03-17 Shortlisted for the Booker Prize, *Animal's People* is by turns a profane, scathingly funny, and piercingly honest tale of a boy so badly damaged by the poisons released during a chemical plant leak that he walks on all fours.

**Animal's People** Indra Sinha, 2009-11-24 Ever since he can remember, Animal has gone on all fours, the catastrophic result of what happened on That Night when, thanks to an American chemical company, the Apocalypse visited his slum. Now not quite twenty, he leads a hand-to-mouth existence with his dog Jara and a crazy old nun called Ma Franci, and spends his nights fantasising about Nisha, the daughter of a local musician, and wondering what it must be like to get laid. When a young American doctor, Elli Barber, comes to town to open a free clinic for the still suffering townsfolk - only to find herself struggling to convince them that she isn't there to do the dirty work of the 'Kampani' - Animal plunges into a web of intrigues, scams and plots with the unabashed aim of turning events to his own advantage. Compellingly honest, entertaining and entirely without self-pity, *Animal's* account lights our way into his dark world with flashes of pure joy - from the very first page all the way to the story's explosive ending. *ANIMAL'S PEOPLE* is a stunningly humane work of storytelling that takes us right to the heart of contemporary India.

**Elusive Kinship** Christopher Krentz, 2022-04-22 This volume analyzes the figure and representation of disability in postcolonial literature, unpacking how depictions of disability both reflected and directly impacted the growth of disability human rights in the latter half of the twentieth century--

Other Animals in Twenty-First Century Fiction Catherine Parry, 2017-07-19 This book is about ordinary animals and how they are imagined in twenty-first century fiction. Examining contemporary animal representations and the fraught and potent distinctions humans fashion between themselves and all other animals, it asks how a range of novels make, re-make or un-make traditional conceptions of the creatures we love, admire, eat, vilify and abuse. *Other Animals'* detailed readings of horses, an animalised human, a donkey, ants, chickens and chimpanzees develop new critical practices in Literary Animal Studies. They explore the connections between fictional animal representation, narrative form, ethics, and the lives and warm bodies of the real-world creatures that precede and exceed our imagination. Human-animal relationships are conditioned by our imaginative shapings of other animals, and by our sense of distinction from them, and *Other Animals*

opens out how fictional animal forms and tropes respond to, participate in, or challenge the ways animals' lives are lived out in consequence of human imaginings of them.

*Five Analogies for Fiction Writing* Sam North, 2012 This book is aimed at writers seeking to move beyond the initial stages of writing to the completion of stories and novels. It includes 18 writing exercises suitable for all styles of writing and for all levels of experience.

*Encyclopedia of Technological Hazards and Disasters in the Social Sciences* Duane A. Gill, Liesel A. Ritchie, Nnenia M. Campbell, 2024-11-08 The Encyclopedia of Technological Hazards and Disasters in the Social Sciences brings together an array of global experts to investigate, explore and analyse human-caused disaster events. Providing insights into both the origins and aftermaths of disaster events, it offers advanced understanding of a broad range of disaster events facing society during the Anthropocene.

*New Approaches to the Twenty-First-Century Anglophone Novel* Sibylle Baumbach, Birgit Neumann, 2019-12-20 This book discusses the complex ways in which the novel offers a vibrant arena for critically engaging with our contemporary world and scrutinises the genre's political, ethical, and aesthetic value. Far-reaching cultural, political, and technological changes during the past two decades have created new contexts for the novel, which have yet to be accounted for in literary studies. Addressing the need for fresh transdisciplinary approaches that explore these developments, the book focuses on the multifaceted responses of the novel to key global challenges, including migration and cosmopolitanism, posthumanism and ecosickness, human and animal rights, affect and biopolitics, human cognition and anxieties of inattention, and the transculturality of terror. By doing so, it testifies to the ongoing cultural relevance of the genre. Lastly, it examines a range of 21st-century Anglophone novels to encourage new critical discourses in literary studies.

**The Routledge Companion to Literature and Social Justice** Masood Ashraf Raja, Nick T. C. Lu, 2023-11-20 The Routledge Companion to Literature and Social Justice is a comprehensive and multi-purpose collection on this important topic. With contributors working in various fields, the Companion provides in-depth analyses of both the cumulative and emergent issues, obstacles, praxes, propositions, and theories of social justice. The first section offers a historical overview of major developments and debates in the field, while the following sections look in more detail at the key traditions and show how literature and theory can be applied as analytical tools to real-world inequalities and the impact of doing so. The contributors provide reviews of major theoretical traditions, including Marxism, feminism, Critical Race Theory, disability studies, and queer studies. They also share literary analyses of influential authors including W. E. B. Du Bois, Yang Kui, Edwidge Danticat, Octavia Butler, and Rivers Solomon amongst others. The final section considers future possibilities for theory and action of justice, drawing specifically from theories and knowledges in decolonial, Indigenous, environmental, and

posthumanist studies. This authoritative volume draws on the intersections between literary studies and social movements in order to provide scholars, students, and activists alike with a complete collection of the most up- to- date information on both canonical and emerging texts and case studies globally.

*Ecocritical Geopolitics* Elena dell'Agnese, 2021-05-26 What is the role of popular culture in shaping our discourse about the multifaceted system of material things, subjects and causal agents that we call environment? Ecocritical Geopolitics offers a new theoretical perspective and approach to the analysis of environmental discourse in popular culture. It combines ecocritical and critical geopolitical approaches to explore three main themes: dystopian visions, the relationship between the human, post-human, and nature and speciesism and carnism. The importance of popular culture in the construction of geopolitical discourse is widely recognized. From ecocriticism, we also appreciate that literature, cinema, or theatre can offer a mirror of what the individual author wants to communicate about the relationship between the human being and what can be defined as non-human. This book provides an analysis of environmental discourses with the theoretical tools of critical geopolitics and the analytical methodology of ecocriticism. It develops and disseminates a new scientific approach, defined as ecocritical geopolitics, to offer an idea of the power of popular culture in the realization of environmental discourse. Referencing sources as diverse as *The Road*, *The Shape of Water*, *Lady and the Tramp*, and TV cooking shows, this book will be of great interest to students and scholars of geography, environmental studies, film studies, and environmental humanities.
