You Are an Artist Sarah Urist Green, 2020-04-14 "There are more than 50 creative prompts for the artist (or artist at heart) to explore. Take the title of this book as affirmation, and get started." —Fast Company More than 50 assignments, ideas, and prompts to expand your world and help you make outstanding new things to put into it Curator Sarah Urist Green left her office in the basement of an art museum to travel and visit a diverse range of artists, asking them to share prompts that relate to their own ways of working. The result is *You Are an Artist*, a journey of creation through which you'll invent imaginary friends, sort books, declare a cause, construct a landscape, find your band, and become someone else (or at least try). Your challenge is to filter these assignments through the lens of your own experience and make art that reflects the world as you see it. You don't have to know how to draw well, stretch a canvas, or mix a paint color that perfectly matches that of a mountain stream. This book is for anyone who wants to make art, regardless of experience level. The only materials you'll need are what you already have on hand or can source for free. Full of insights, techniques, and inspiration from art history, this book opens up the processes and practices of artists and proves that you, too, have what it takes to call yourself one. *You Are an Artist* brings together more than 50 assignments gathered from some of the most innovative creators working today, including Sonya Clark, Michelle Grabner, The Guerrilla Girls, Fritz Haeg, Pablo Helguera, Nina Katchadourian, Toyin Ojih Odutola, J. Morgan Puett, Dread Scott, Alec Soth, Gillian Wearing, and many others.

**The Universal Force** Louis Girifalco, 2008 This book describes the growth of our understanding of gravity and the science on which it is based, from the early Greeks to Einstein's grand insights of curved space-time. Showing that science searches for the ultimate roots of natural phenomena and therefore pursues a kind of mysticism, the mysteries it unfolds are strange and enthralling.

The Aspiring Adept Lawrence Principe,2018-06-05 The Aspiring Adept presents a provocative new view of Robert Boyle (1627-1691), one of the leading figures of the Scientific Revolution, by revealing for the first time his avid and lifelong pursuit of alchemy. Boyle has traditionally been considered, along with Newton, a founder of modern science because of his mechanical philosophy and his experimentation with the air-pump and other early scientific apparatus. However, Lawrence Principe shows that his alchemical quest--hidden first by Boyle's own codes and secrecy, and later suppressed or ignored--positions him more accurately in the intellectual and cultural crossroads of the seventeenth century. Principe radically reinterprets Boyle's most famous work, *The Sceptical Chymist*, to show that it criticizes not alchemists, as has been thought, but unphilosophical pharmacists and textbook writers. He then shows Boyle's unambiguous enthusiasm for alchemy in his lost *Dialogue on the Transmutation and Melioration of Metals*, now reconstructed from scattered fragments and presented here in full for the first time. Intriguingly, Boyle believed that the goal of his quest, the Philosopher's Stone, could not only transmute base metals into gold, but could also attract angels. Alchemy could thus act both as a source of knowledge and as a defense against the growing tide of atheism that tormented him. In seeking to integrate the seemingly contradictory facets of Boyle's work, Principe also illuminates how alchemy and other unscientific pursuits had a far greater impact on early modern science than has previously been thought.

Alchemy Maureen Duffy,2004 A compelling mystery which combines rich historical narrative with the story of a woman entangled in a 21st-century witch hunt. Jade Green is a solicitor with her own practice, Lost Causes, that she runs from her London flat. She struggles to keep her business afloat, and supplements her income by delivering for the local Chinese takeaway. Her life changes with a single phonecall. Dr Gilbert has been dismissed from his post teaching the history of science at the University of Wessex. Allegations have been made that he was corrupting the students with satanism; the professor himself suspects the university to be controlled by a fundamentalist christian sect. As Jade delves into this bizarre case, she finds herself drawn into a seventeenth-century manuscript, the original of which has been stolen from the Professor's briefcase at the university. It is *The Memorial of Amyntas Boston*, a young woman -- raised as a boy -- who is awaiting trial for dabbling in the black arts and in alchemy. Taken into service by Mary Sidney, she had fallen in love with her mistress and ultimately found herself betrayed by her. The two stories intertwine as Jade feels her life mysteriously resonate with Am
