Introduction to Management Accounting, Chap. 1-14 Charles T. Horngren, Gary L. Sundem, William O. Stratton, 2005 Make the right decisions with Horngren/Sundem/Stratton! Horngren/Sundem/Stratton's best-selling texts emphasize decision-making throughout each chapter. Decision-making is introduced in the early text chapters and also appears in many of the text features: Making Managerial Decisions boxes, critical thinking exercises, and more. As always, students develop a solid understanding of costs and cost behavior and the use of cost information for planning and control decisions, not just inventory valuation. Two text versions enable faculty to select a text that only covers management accounting concepts (Chs. 1-14) or one that includes three chapters of financial accounting review (Chs. 1-17). New OneKey provides the convenience of having all text resources in a single location and available in your choice of course management platform: BlackBoard, WebCT, and CourseCompass. OneKey also includes PH Grade Assist on-line homework with automatic grading and infinite practice for students).

Medición y Control en la Gestión y Resultados Diofante Acevedo Gamboa,2021-09-20 Mucho tiempo ha transcurrido desde el desarrollo de la contabilidad gerencial y costos a partir de 1850. Entre 1974-1992, se desarrolló la medición multidimensional y a partir del 2000 surge la medición centrada en variables de diversa categoría tales como: físicas, cronológicas y las de juicios de valor (intangibles), lo cual trasciende lo económico-financiero y presupuestario. Esta transición nos obliga a diferenciar la medición operativa de la estratégica en el marco de nuevos enfoques de control. En este sentido, se pone de manifiesto la necesidad de obtener información valiosa, regular conductas no éticas, considerar el entorno externo y asumir el pasado, presente y futuro mediante indicadores que midan lo correcto correctamente con sistemas automatizados. De esta manera, se identificarán oportunidades de mejorar el conocimiento de gerentes y planificadores a partir de la ejecución de la estrategia que impulsarán mejores resultados que hagan sostenible el desempeño de la organización. Con base en lo anterior, el autor resalta los siguientes aspectos: 1. Gerencia de desempeño con soporte de medición y control desde el acto de planificación hasta la rendición de cuentas. 2. Propuestas para revertir la concepción actual del control en la evidencia de logros operativos y estratégicos. 3. Sugerencias para revertir la concepción actual del control como criterio de anticipación, para reducir cultura de control correctivo. 4. Instrumentos para identificar oportunidades que mejoren la práctica de medición y control más allá de lo financiero. 5. Ejemplos demostrativos que guían la correcta integración de indicadores, medición y comunicación en la ejecución del plan. 6. Eslabones explicativos que dan perspectiva teórica innovadora de la función de control en la organización. 7. Vinculación de la medición y control con una estrategia anticorrupción en lo público, de aplicación al campo privado.
