Eminem: In My Skin Barnaby Legg, Jim McCarthy, "Flameboy", 2004-10-11 A new Graphic Novel from the creative team behind the best-selling *Godspeed: The Kurt Cobain Graphic*. This is a story about the world's one and only true crossover rap superstar, one that is as profound and profane as the man himself. From Government housing slums in Detroit to the bling-bling penthouses of the Hip-Hop monarchy, Marshall Mathers has had quite a journey. *In My Skin* documents a life that is angry, vivid and shockingly honest. Using the stories, characters and rantings from his albums, a dramatic, operatic and highly comedic adventure is told. In addition to biographical events, the authors draw on the self-created characters that exist in Eminem's music.

Mental Jaime Lowe, 2017-10-03 A riveting memoir and a fascinating investigation of the history, uses, and controversies behind lithium, an essential medication for millions of people struggling with bipolar disorder. It began in Los Angeles in 1993, when Jaime Lowe was just sixteen. She stopped sleeping and eating, and began to hallucinate—demonically cackling Muppets, faces lurking in windows, Michael Jackson delivering messages from the Neverland Underground. Lowe wrote manifestos and math equations in her diary, and drew infographics on her bedroom wall. Eventually, hospitalized and diagnosed as bipolar, she was prescribed a medication that came in the form of three pink pills—lithium. In *Mental*, Lowe shares and investigates her story of episodic madness, as well as the stability she found while on lithium. She interviews scientists, psychiatrists, and patients to examine how effective lithium really is and how its side effects can be dangerous for long-term users—including Lowe, who after twenty years on the medication suffers from severe kidney damage. *Mental* is eye-opening and powerful, tackling an illness and drug that has touched millions of lives and yet remains shrouded in social stigma. Now, while she adjusts to a new drug, her pursuit of a stable life continues as does her curiosity about the history and science of the mysterious element that shaped the way she sees the world and allowed her decades of sanity. Lowe travels to the Bolivian salt flats that hold more than half of the world's lithium reserves, rural America where lithium is mined for batteries, and to lithium spas that are still touted as a tonic to cure all ills. With unflinching honesty and humor, Lowe allows a clear-eyed view into her life, and an arresting inquiry into one of mankind's oldest medical mysteries.

Reading Eminem Glenn Fosbraey, 2022-08-24 This book critically analyses Eminem's studio album releases from his first commercial album release *The Slim Shady LP* in 1999, to 2020's *Music To Be Murdered By*, through the lens of storytelling, truth and rhetoric, narrative structure, rhyme scheme and type, perspective, and celebrity culture. In terms of lyrical content, no area has been off-limits to Eminem, and he has written about domestic violence, murder, rape, child abuse, incest, drug addiction, and torture during his career. But whilst he will always be associated with these dark subjects, Mathers has also explored fatherhood, bereavement, mental illness, poverty, friendship, and love within his lyrics, and the juxtaposition between these very different themes (sometimes within the same song), make his lyrics complex, deep, and deserving of proper critical discussion. The first full-length monograph concerning Eminem's lyrics, this book affords the same rigorous analysis to a hip-hop artist as would be applied to any great writer's body of work; such analysis of 'popular' music is often overlooked. In addition to his rich exploration of Eminem's lyrics, Fosbraey furthermore delves into a variety of different aspects within popular music including extra-verbal elements, image, video, and surrounding culture. This critical study of his work will be an invaluable resource to academics working in the fields of Popular Music, English Literature, or Cultural Studies.

Stardom in Contemporary Hindi Cinema Aysha Iqbal Viswamohan, Clare M. Wilkinson, 2020-01-03 In this book, film scholars, anthropologists, and critics discuss star-making in the contemporary Hindi-language film industry in India, also known as "Bollywood." Drawing on theories of stardom, globalization, transnationalism, gender, and new media studies, the chapters explore contemporary Hindi film celebrity. With the rise of social media and India's increased engagement in the global economy, Hindi film stars are forging their identities not just through their on-screen images and magazine and advertising appearances, but also through an array of media platforms, product endorsements, setting fashion trends, and involvement in social causes. Focusing on some of the best-known Indian stars since the late 1990s, the book discusses the multiplying avenues for forging a star identity, the strategies industry outsiders adopt to become stars, and the contradictions and conflicts that such star-making produces. It addresses questions such as: What traits of contemporary stars have contributed most to longevity and success in the industry? How has filmmaking technology and practice altered the nature of stardom? How has the manufacture of celebrity altered with the recent appearance of commodity culture in India and the rise of a hyper-connected global economy? By doing so, it describes a distinct moment in India and in the world in which stars and stardom are drawn more closely than ever into the vital events of global culture. Hindi films and their stars are part of the national and global entertainment circuits that are bigger and more competitive than ever. As such, this is a timely book creates opportunities for examining stardom in other industries and provides fruitful cross-cultural

perspectives on star identities today. Grounded in rigorous scholarship as well as a palpable love of Hindi cinema, this collection of 19 essays on a dizzying array of contemporary Hindi film stars makes for an informative, thought-provoking, illuminating, and most of all, a joyful read. Pushing boundaries of not only global Star Studies but also film theory as a whole, this de-colonised and de-colonising volume is a must read for film scholars, students and cinephiles! Dr. Sunny Singh, Senior Lecturer - Creative Writing and English Literature, Sir John Cass School of Art, Architecture & Design, London Metropolitan University "A wide-ranging overview of Hindi cinema's filmi firmament today, focussing on its most intriguing and brightest-burning stars. The variety of approaches to stardom and celebrity by both established and upcoming scholars reveals a web of interconnecting stories and concerns that provide fascinating new insights into the workings of today's Hindi film industry, while shining fresh light on contemporary India and the world we live in." Dead Precedents Roy Christopher, 2019-03-19 The story of how hip-hop created, and came to dominate, the twenty-first century. In *Dead Precedents*, Roy Christopher traces the story of how hip-hop invented the twenty-first century. Emerging alongside cyberpunk in the 1980s, the hallmarks of hip-hop - allusion, self-reference, the use of new technologies, sampling, the cutting and splicing of language and sound - would come to define the culture of the new millennium. Taking in the groundbreaking work of DJs and MCs, alongside writers like Dick and Gibson, as well as graffiti and DIY culture, *Dead Precedents* is a counter-culture history of the twentieth century, showcasing hip-hop's role in the creation of the world we now live in.
