The Druze and Their Faith in Tawhid Anis Obeid, 2006-07-06 As a small sect that emerged from Islam over a thousand years ago, the Druze religion and society has long been cloaked in a tradition of secrecy. Veiled from the outside world, the religious tenets have been vulnerable to distortion, misunderstanding, and misrepresentation. In this book Dr. Anis Obeid, a Druze layman, provides a penetrating analysis of Druze scriptures and beliefs (Tawhid). Presenting a chronological narrative of the foundation and development of the faith, he explains the historical conditions and religious rationale behind this closed religion. The Druze faith is the product of Abrahamic monotheism as it coalesced with other philosophies, belief systems, and political structures of the West and the East and, as Obeid maintains, should be recognized for its core monotheism, and not fundamentally different from Judaism, Christianity, or Islam. He argues convincingly, with examples and translations from the Druze scriptures, only now accessible to a non-initiate public, that Tawhid is a progressive and dynamic spiritual process based on freedom of choice. This rich exploration of their faith, the author's appeal for a sincere cultural dialogue will resonate with a wide audience in the West and in the Middle East.

With Reverence for the Word Jane Dammen McAuliffe, Barry D. Walfish, Joseph W. Goering, 2010-09-14 This volume represents the first trilateral exploration of medieval scriptural interpretation. During the medieval period the three exegetical traditions of Judaism, Christianity, and Islam produced a vast literature, one of great diversity but also one of numerous cross-cultural similarities.

Arab Society in Revolt Cesare Merlini, Olivier Roy, 2013-06-20 For every pithy conceptualization of complex events, there are additional lenses through which to examine them. One of the several virtues of this book is precisely that it brings different perspectives to bear on the complexity, diversity, and uncertainty of recent and current events in the Arab world. The thirteen authors concentrate on the critical social forces shaping the region demography, religion, gender, telecommunication connectivity, and economic structures and they are painstakingly analyzed and evaluated. from the foreword by Strobe Talbott, president of the Brookings Institution The Arab Spring will be remembered as a period of great change for the Arab states of North Africa and the eastern Mediterranean. Facing fundamental transitions in governance,

these countries are also undergoing profound social, cultural, and religious changes. The European Union and the United States, caught unprepared by the uprisings, now must address the inescapable challenges of those changes. How will the West respond to these new realities, particularly in light of international economic uncertainty, EU ambivalence toward a cohesive foreign policy, and declining U.S. influence abroad? *Arab Society in Revolt* explains and interprets the societal transformations occurring in the Arab Muslim world, their ramifications for the West, and possible policy options for dealing with this new world. *Arab Society in Revolt* examines areas of change particularly relevant in the southern Mediterranean: demography and migration, Islamic revival and democracy, rapidly changing roles of women in Arab society, the Internet in Arab societies, commercial and social entrepreneurship as change factors, and the economics of Arab transitions. The book then looks at those cultural and religious as well as political and economic factors that have influenced the Western response, or lack of it, to the Arab Spring as well as the policy options that remain open.

Doctrine and Debate in the East Christian World, 300-1500 Averil Cameron, Robert Hoyland, 2017-05-15 The reign of Constantine (306-37), the starting point for the series in which this volume appears, saw Christianity begin its journey from being just one of a number of competing cults to being the official religion of the Roman/Byzantine Empire. The involvement of emperors had the, perhaps inevitable, result of a preoccupation with producing, promoting and enforcing a single agreed version of the Christian creed. Under this pressure Christianity in the East fragmented into different sects, disagreeing over the nature of Christ, but also, in some measure, seeking to resist imperial interference and to elaborate Christianities more reflective of and sensitive to local concerns and cultures. This volume presents an introduction to, and a selection of the key studies on, the ways in which and means by which these Eastern Christianities debated with one another and with their competitors: pagans, Jews, Muslims and Latin Christians. It also includes the iconoclast controversy, which divided parts of the East Christian world in the seventh to ninth centuries, and devotes space both to the methodological tools that evolved in the process of debate and the promulgation of doctrine, and to the literary genres through which the debates were expressed.

The Islamic Struggle in Syria Umar F. Abd-Allah,1983 Syria has always played a pivotal role in Middle Eastern affairs, but most Westerners have never had a very clear understanding of the prevailing conditions there. The Islamic Struggle in Syria is a pioneering work that seeks to illuminate some important aspects on contemporary Syrian reality. It focuses on the bitter struggle between the Syrian Islamic Front and the repressive Ba'thist regime of Late Hafiz Asad. Dr. Abd-Allah provides valuable information on the leaders, ideology, and program of the Syrian Islamic Front as well as a history of the Muslim Brotherhood in Syria and sketches of some its leaders, including Mustafa as-Sibai, Isam al-Attar, and Marwan Hadid. At the same time, he touches on a number of important topics: the continuing nature of superpower intrigue and intervention in the Middle East, the importance of the sectarian factor in Syrian politics, the origins and antecedents of the Ba'thist regime, the ambiguous role played by Hafiz Asad vis-a-vis Israel and the Palestinian cause, the role Syrian has played in Lebanese affairs, and Syria's relations with other countries in the region.
