El libro de la vida Santa Teresa de Jesús, 2015-02-12 Uno de los libros de memorias más intensos, apasionados y reveladores que jamás se haya escrito en castellano. Una obra fundamental de la literatura mística. Editado por fray Luis de León en 1565, Libro de la vida recoge la historia de una voz, de una intimidad y de una vocación que crecen como iluminadas por una luz interior. En este libro, definido por Unamuno como una autobiografía psicológica, santa Teresa de Jesús narra, en un estilo sencillo y preciso, el proceso interior y los externos avatares que la llevaron a la mística y a la fundación de la Orden de las Carmelitas Descalzas. La profesora Elisenda Lobato ha preparado esta nueva edición con notas que ayudan a disfrutar mejor que nunca de uno de los grandes clásicos de la literatura autobiográfica universal. La crítica ha dicho: «Santa Teresa me enseñó muchísimo, me sentí literalmente conmovido. Sigue siendo para mí una de las personas más atractivas. En una época hice el ridículo porque, dondequiera que fuese, no hablaba nada más que de ella.» E.M. Cioran «Teresa, que siempre tuvo que cargar sobre sí con la aparatosa losa del silencio y la censura, con un cuerpo y una escritura cercenados, también se retorcería ante delirios castrantes y miradas unívocas y nos recordaría que su escritura siempre fue, y siempre será, campo de lucha y espacio de resistencia.» Ana Garriga y Carmen Urbita (Las hijas de Felipe), CTXT

Text as Topos in Religious Literature of the Spanish Golden Age M. Louise Salstad,1995 The central component of this study is an index of the numerous motifs through which topoi of the text as symbol are articulated in the religious poetry, sermons, and sacramental plays of Golden Age Spain. Paired with the index is an anthology of the texts on which the book is based. In her introduction, Louise Salstad discusses the transmission and transformation of the topoi as they appear in the Old and New Testaments, classical literature, church writings, and medieval texts, and she considers the influence of the contemporary milieu on the shaping of these motifs. The book also includes an explanatory introduction to the index, biographical notes on authors, a chronology of works, a bibliography, and key word indexes of motifs in English and Spanish. The most extensive investigation of specific topoi undertaken in Spanish studies, this book will also be of interest to art historians and cultural historians whose focus is theology, the history of spirituality, or the history of the book.
