The Age of Identity Dennis Shirley, Andy Hargreaves, 2023-10-30 There's more to all of us than what meets the eye A perfect storm is upon us and educators are in the middle of it. Identity issues often incite and divide us, but they are actually our way out of the storm. No one should be oppressed or have to hide who they are, and young people need to be prepared for a future where they can learn to live together and help others belong. In their beautifully written book, Dennis Shirley and Andy Hargreaves brilliantly show how we can and must engage with young people's identities in their fullness and complexity. Rooted in classical and contemporary theories of identity, extensive research, and in sheer common sense, their book takes us from bitterness to belonging and includes: Examples of how schools seek to address identity and belonging

Strategies to deal with the raging identity controversies in our schools and societies Charts and graphics to help build inclusive professional communities Constant invitations to readers to apply ideas to their own work

Coaching and Mentoring Bob Garvey,Paul Stokes,David Megginson,2008-11-18 Coaching and mentoring are fast becoming essential aspects of modern managerial practice. With this growth comes an increasing number of students embarking on mentoring and coaching courses. The authors (well respected and trusted scholars in the field) provide an authoritative text with a comprehensive overview and critical grounding in the key concepts, models and research studies in coaching and mentoring and answer important questions such as 'What does coaching and mentoring involve?', 'What is its value?' and 'How can the added value of mentoring and coaching be demonstrated?' Examples are drawn from a variety of sectors, including private businesses, public and voluntary organizations and schools. Contemporary debates are explained and chapters include features such as case studies, research questions and helpful tips to support the reader. To gain a wider perspective, there is a chapter which provides critical comment on the state of the art in the US, while the final chapter offers the first attempt at developing a unified theory of coaching and mentoring by drawing on their respective antecedents.
