**Anurag Sundarka**

**Rich Ponds** Anurag Sundarka,2020-09-03 Fish where the Fishes are. - Charlie Munger. Why do most companies in textiles struggle? Why most automakers struggle? Why most IT firms in Bangalore thrive? Why most media companies struggle? The answer - Industry Structure. Just before you are getting into something, whether that be as an investor or an entrepreneur, you need to take an informed decision. This book is exactly that - a hands-on guide to help you take an informed decision about which industries to select. With the 'Industry Sheets' created in 4+ years of research, the chances of being in right industries at right time, in investing as well as entrepreneurship go up significantly. Reviews - Portfolio construction is not an easy task, neither for the novice students of the financial markets nor for the seasoned professionals, or the entrepreneurs wishing to deploy capital. Rich Ponds, by Anurag Sundarka, breaks down the process of studying industries and identifying the most promising among them in such a clear and consistent way that makes it very valuable to everyone involved in the investment process. Highly recommended. - Dimitrios Nousias, CFA CIO, Whitetip Investments “An important aspect of the investment profession is understanding a business. Numbers and balance sheet provide a good perspective on the past, but understanding qualitative drivers of a business is crucial in evaluating the future potential of any business. This book is an impressive attempt at providing a structured framework of evaluating not only any business (and its competition) but also evaluating industries.” - Samit Vartak Chief Investment Officer, SageOne Investments First rule of investing is to know where to look for investments. Rich Ponds provides an interesting take on identifying these industries. Leveraging Industry Sheet of Rich Ponds can help us in getting up to speed faster. - Rajeev Agrawal Founder and Managing Partner, DoorDarshi Advisors

Electronic Commerce 2018 Efraim Turban, Jon Outland, David King, Jae Kyu Lee, Ting-Peng Liang, Deborah C.

Turban, 2017-10-12 This new Edition of Electronic Commerce is a complete update of the leading graduate level/advanced undergraduate level textbook on the subject. Electronic commerce (EC) describes the manner in which transactions take place over electronic networks, mostly the Internet. It is the process of electronically buying and selling goods, services, and information. Certain EC applications, such as buying and selling stocks and airline tickets online, are reaching maturity, some even exceeding non-Internet trades. However, EC is not just about buying and selling; it also is about electronically communicating, collaborating, and discovering information. It is about e-learning, e-government, social networks, and much more. EC is having an impact on a significant portion of the world, affecting businesses, professions, trade, and of course, people. The most important developments in EC since 2014 are the continuous phenomenal growth of social networks, especially Facebook, LinkedIn and Instagram, and the trend toward conducting EC with mobile devices. Other major developments are the expansion of EC globally, especially in China where you can find the world's largest EC company. Much attention is lately being given to smart commerce and the use of AI-based analytics and big data to enhance the field. Finally, some emerging EC business models are changing industries (e.g., the shared economy models of Uber and Airbnb). The 2018 (9th) edition, brings forth the latest trends in e-commerce, including smart commerce, social commerce, social collaboration, shared economy, innovations, and mobility.

Excellence in Execution Robin Speculand, 2017-04-18 Excellence in Execution is about how to execute strategy. Leaders today recognize that they need to have the ability to craft strategy and that they require the skills to execute it. But almost all books, blogs, talks, articles and other material discuss “why” execution is important, not how to achieve excellence in execution. Excellence in Execution aims to start where almost all leave off. It takes the reader on the implementation journey and is in two parts. Part One addresses Transforming the Approach. It focuses on changing the current thinking and attitude of leaders. Two thirds of strategy execution still fail and a different approach is required. A new language and terms are introduced such as, Strategy Cadence, Execution Juxtaposition, Decoding the Execution Challenge, Mavericks Network, Review Rhythm and the Three Themes Broad of Execution. Part Two is about Making It Your Own and explains how to do this by providing the required mindset, skillset and toolset. It explains in detail what is required to:
