**The Search for Meaning** David Dye, The Fig The FIG Project, 2019-02-08 The most thought-provoking thing in our thought-provoking time is that we are still not thinking. Martin Heidegger What is a therapeutic journal? You have probably used the terms diary and journal interchangeably. But, there is a difference. Whereas a diary can be used to record the daily events and happenings of a person, a journal is more introspective in nature. A diary could, for most intents and purposes, be written by someone following you around during the day, recording where you went, who you spoke with, what you did and said. It's a recounting of the facts. A journal, on the other hand, gets at what's inside you. How did you feel about who you spoke with? What was the meaning behind the experience you had earlier in the day? A journal tells the deeper story. It tells about your experience, which is more than just the observable facts. So, a therapeutic journal is one that not only recounts the observable events, but also the non-observable thoughts and feelings about these events, with the intent of you learning from them and being more intentional in using this to live your life on purpose. So often we react to life rather than act. The therapeutic journal is a tool that can be used to help you take charge. And by doing this, your freedom will increase. Freedom from going from one crisis to another, from living from paycheck to paycheck. Freedom from stress, worry, depression. In journal writing, the internal and external experiences, thoughts, and feelings are captured. But with the therapeutic journal, these are not only captured, but then an intentional and purposeful direction is decided upon by you, and executed. It is not an uncommon occurrence for a person writing in a TJ to have a dialogue with herself. The purpose of this dialogue is to choose a new direction, through analyzing the red flags, issues, and concerns. The intentional life will come about. Meaning, that you will learn to live with intent. You create it, rather than have it create you. How to Journal. For some, writing isn't their forte. And that's OK. Because this is only one way to use this journal. It is a powerful way, to be sure. But in addition to writing, folks have found success by using: Photographs Drawings Writing letters Making lists Writing a fictional dialogue Writing longer fictional entries Timed entries - limiting the time you spend writing What will you find in this journal that is more than just blank pages! About 90 pages, with a quote on each page Self-Knowledge pages Vision page The most important story in the world -- is yours!

Transcending the Matrix of the Imposter Gods Lark Aleta Batey, 2023-02-23 The Heart's abilities and power are the new frontier of spiritual exploration in humanities' search for self-understanding. This book offers leading-edge information about

the Models of Existence which provides a significant contribution to the body of work about the Power of the Heart. Beginning with an origin myth rooted in ancient history drawn from the works of Sitchin and others and expanded upon with recently revealed revelations from the WingMakers Materials, we learn a little-known story of imposter gods that initially created humanity as slave labor. Through a synthesis of myth, history, psychology, science, religion, and social issues, a picture emerges illustrating how the world of separation and oppression has been maintained to deceive humanity. Heart-centered archetypes are introduced to equip humanity with the tools necessary to transcend the programming of the imposter gods and contribute to an appreciation of why this is so important. A Source-Centered model of existence is offered to assist in our transformation.

**How to Write** Richard Rhodes,2009-10-13 An essential helpful guide, "How to Write is as useful a study of craft, or the professional conduct of a writing career, as I've seen (Los Angeles Times). Uniquely fusing practical advice on writing with his own insights into the craft, Pulitzer Prize-winning author Richard Rhodes constructs beautiful prose about the issues would-be writers are most afraid to articulate: \* How do I dare write? \* Where do I begin? \* What do I do with this story I have to tell that fills and breaks my heart? Rich with personal vignettes about Rhodes's sources of inspiration, How to Write is also a memoir of one of the most original and celebrated writers of our day. "A remarkable work of self-revelation . . . How generous [Rhodes] is with his mind and his heart. Buy this book, buy it. It's a handbook on how to live." —The Washington Post "The author offers worthy encouragement for fighting psychological barriers, and useful advice on tools and research." —Publishers Weekly
