Quotes to Inspire Great Reading Teachers Cathy Collins Block, Susan E. Israel, 2006-05-12 A year's worth of thought-provoking quotations will inspire you to reflect on the way you teach and provide you with tools to inspire your students, too!

Emotions During Times of Disruption Ashlea C. Troth, Neal M. Ashkanasy, Ronald H. Humphrey, 2023-01-20 Volume 18 of *Research on Emotion in Organizations* follows the theme of *Emotions during Times of Disruption*, contending that emotions and other affect related concepts represent keys to understanding the phenomena of disruption in organizations more fully.

Students with Intellectual Disabilities Poulomee Datta, 2014-03-31 This book investigates the self-concept of the students with intellectual disabilities who were placed in specialist and mainstream educational settings in South Australia. It gains insights into what students with intellectual disabilities felt about themselves and their achievements across the different dimensions of self-concept. It is divided into two stages of execution. In Stage 1, the Tennessee Self-Concept questionnaire was administered to students with intellectual disabilities. In Stage 2, interviews were conducted with students with intellectual disabilities, their parents and teachers. These data reflected a range of viewpoints from which to examine the research questions. These findings have implications for teachers, special educators, policy makers and a range of professionals in the education and special education sector in enabling greater understanding of the problems experienced by these students and pointing to modifications and improvements in the services for these students.

Advances in Global Leadership Joyce S. Osland, Mark E. Mendenhall, Ming Li, 2018-12-03 This volume of *Advances in Global Leadership* updates researchers and practitioners on the state of the field and research gaps. Part 1 presents new empirical studies; Part II features papers on global leadership development programs offered by universities. Contributors range from well-known voices to new scholars with fresh perspectives.

The Handbook of Work Based Learning Ian Cunningham, Graham Dawes, Ben Bennett, 2004 Organizational leaders, governments and trade unions all agree that learning is fundamental to organizational and economic success. The question is how it should best be supported. *The Handbook of Work Based Learning* delivers a compelling answer to this question. Learning needs to be based in the realities of organizational life. This unique, groundbreaking handbook provides a definitive guide to the set of strategies, tactics and methods for supporting work based learning. The three main parts of the Handbook, which focus in turn on strategies, tactics and methods, are written for both the learner and the professional

developer alike. Each includes a description of the process (strategy, tactic or method), provides examples of what it looks like in action, explains the benefits and the likely limitations and provides a set of operating hints for applying the process. Nothing has been neglected, so alongside detailed descriptions of what to do and how to do it, the authors have included the Declaration on Learning, created by thirteen of the major figures in the field of organizational learning, a section guiding you towards routes for gaining qualifications, along with a well-researched set of references and further reading.

Coaching Better Every Season Gilbert, Wade, 2016-11-17 Presents the best coaching methods and practices for each season on the sport calendar – pre-season, in-season, post-season, and off-season – and offers specific actions, tools, and guidelines for coaches to create a cycle of continuous improvement for themselves, their athletes, and their teams.

Collaborative Learning in Practice Ronnie Verneoy, 2010 This book presents novel approaches to collaborative learning by drawing on research and practical experiences from China, South Asia, and Southeast Asia. The case studies show how local communities address and learn from challenges in managing natural resources through joint efforts with researchers and other actors. They demonstrate the merits of learning strategies that use a variety of methods. These methods are grounded in the local context that involves facilitators monitored from the outset. It creates a strong environment of collaboration and dynamic process management. The book shows that learning strategies that are both innovative and collaborative can lead to sounder rural development. *Collaborative Learning in Practice: Examples from Natural Resource Management in Asia* will be of interest to academics, researchers, and postgraduate students in development studies, practitioners and development professionals, particularly in the fields of capacity building and participatory action methodologies as well as programme managers and decision-makers in donor organizations and development agencies worldwide.

Comparative Capitalism and the Transitional Periphery Mehmet Demirbag, Geoffrey Wood, 2018-10-26 An original and insightful book, this work focuses on domestic and overseas firms operating in those Central Asian and Eastern European countries considered to be the transitional economic periphery. Chapters shed light on their distinct forms of capitalism, and how it influences and adapts the firms located there. The eminent authors show how, in a post-state socialist world, there are several implications for both domestic and overseas firms functioning successfully in the transitional periphery. With the complex mix of political and market mediation and informal personal ties, chapters explore the delicate balance of liberalisation in transitional economies. Detailed examples from specific countries in Eurasia and Central Asia such as Belarus, Turkey, Azerbaijan, Mongolia, Uzbekistan, Armenia and Georgia are discussed alongside broader thematic issues of economic and social change, labour relations and human resource management. Most importantly, it is shown that liberalisation has little connection to short-term business growth. To succeed in such contexts, international firms need to be both pragmatic and creative, in coping with malleable yet durable forms of institutional mediation. Providing a unique

perspective on the transitional economic periphery and much-needed insights from international business, this book is essential reading for researchers and graduate students studying transitional economies, non-traditional business models, institutional persistence and change, political and economic development and management in economically transitioning countries.

Culture Renovation: 18 Leadership Actions to Build an Unshakeable Company Kevin Oakes, 2021-01-12 Seize and expand the competitive edge with a smart, well-managed culture “renovation” Most business leaders understand the power of a dynamic, positive culture—but almost every effort to change culture fails. Why? The approach is often all wrong. Rather than attempt to “transform” a new culture from the ground up, leaders need to instead spearhead a culture renovation. It’s all about keeping what works, changing what needs to be changed, and ensuring proper care and maintenance—much like refurbishing and living in a beautiful historic home and improving its overall value. In *Culture Renovation*, the head of the world’s leading HR research firm—the Institute for Corporate Productivity (i4cp)—Kevin Oakes provides tangible, tactical insights drawn from a robust data set and informed by CEOs and HR leaders at many of the world’s top companies. You’ll find everything you need to rebuild your corporate culture with care and expertise, including: Three phases and detailed action steps for architecting the change you want to see Practical insights and examples from T-Mobile, Microsoft, 3M, and other top companies The traits of a healthy corporate culture Proven talent practices to maintain your new culture for long-term success Oakes identifies 18 proven leadership actions for turning any culture into an agile, resilient, and innovative high-performance organization. You’ll learn how to best understand the culture in place today and set a new cultural path for decades to come; develop a co-creation mindset; identify influencers and blockers; ferret out skeptics and non-believers; measure, monitor, and report progress; and implement “next practices” in talent strategies to sustain the renovation. *Culture Renovation* delivers everything you need to plan, build, and maintain a corporate culture that drives profits, growth, and business sustainability now and well into the future.
