Make a Big Impact @ Your School Board Meeting Margaux DelGuidice-Calemmo, Rose M. Luna, 2012-05-15 This book details effective strategies for promoting a library beyond the building level in order to make an impact with the influential individuals who make the key decisions that directly affect the school district and library program. *Make a Big Impact @ Your School Board Meeting* was inspired by the authors' experiences speaking at local and national library conferences on the topic of making presentations to school boards and forging relationships with key administrators. It became clear that many librarians are unsure how to create a comprehensive marketing plan, and are simply too busy with their day-to-day tasks to tackle this daunting project. This book is written specifically for K-12 librarians in the field. It can also serve as an instructional tool for school library certification programs. It spotlights the importance of ongoing advocacy and leadership, teaches school librarians how to demonstrate the tremendous value of their library programs and how they directly impact student achievement, and showcases library-specific marketing techniques that can be used during good and poor economic times. By using the straightforward methods and tools provided, librarians will greatly improve their ability to avoid detrimental budget cuts to their programs.

Building Social Problem-Solving Skills Maurice J. Elias, John F. Clabby, 1992-05 Social decision-making and problem-solving skills are essential to sound growth and development. This practical procedural guide shows how school-based social competence programs can improve children's self-control, social awareness, group participation and interpersonal decision-

making skills and help prepare them for their role as socially competent, responsible, and productive citizens. Based on more than 12 years of action research with the Improving Social Awareness-Social Problem- Solving project (ISA-SPS), the Elias-Clabby model provides school-based practitioners and practitioners-in-training with a framework for designing, implementing, and evaluating social competency programs. Skill-building procedures include instruction designed to help students decide on their goals, understand their own and others' feeling, and think in terms of long- and short-term consequences for themselves and others. An eight-step problem-solving and decision-making strategy allows professionals from a variety of backgrounds to easily grasp points and generate applications relevant to their own settings and circumstances. Includes guidelines for selecting a school site, as well as detailed procedures for training staff and parents.
