Decoding Coca-Cola Robert Crawford, Linda Brennan, Susie Khamis, 2020-12-07 This collection of essays delves into the Coke brand to identify and decode its DNA. Unlike other accounts, these essays adopt a global approach to understand this global brand. Bringing together an international and interdisciplinary team of scholars, Decoding Coca-Cola critically interrogates the Coke brand as well its constituent parts. By examining those who have been responsible for creating the images of Coke as well as the audiences that have consumed them, these essays offer a unique and revealing insight into the Coke brand and asks whether Coca-Cola is always has the same meaning. Looking into the core meaning, values, and emotions underpinning the Coca-Cola brand, it provides a unique insight into how global brands are created and positioned. This critical examination of one of the world's most recognisable brands will be an essential resource for scholars researching and teaching in the fields of marketing, advertising, and communication. Its unique interdisciplinary approach also makes it accessible to scholars working in other humanities fields, including history, media studies, communication studies, and cultural studies.

The Language of Branding Dawn Lerman, Robert J. Morais, David Luna, 2017-12-14 The Language of Branding: Theory, Strategies and Tactics shows marketers how to use language successfully to improve brand value and influence consumer behavior. Luna and Lerman are among only a few researchers who take a multidisciplinary perspective on the ways language influences how consumers act. Together with Morais, an anthropologist engaged in market research, they show how understanding the power of language can impact the essence - and sales - of a brand. The book covers the fundamentals of brand language and applications for an array of marketing initiatives. Readers will learn why brand language matters, how language is used in marketing, and how to build a brand strategy that capitalizes on the richness and complexity of language. This book includes real-world case histories that demonstrate vividly how brand language is created and exercises that enable both students of marketing and marketing professionals to apply the book's concepts and stimulate class discussion. The Language of Branding: Theory, Strategies and Tactics can be used in a number of courses, including consumer behavior, branding, advertising, linguistics, and communications.

The 12 Laws of Legend Nate DuBois, The 12 Laws of Brand Resonance is a comprehensive book for entrepreneurs and

marketing professionals who want to create powerful and enduring brands. This book breaks down the essential principles and complex nuances of brand marketing that lead to a strong emotional connection between a brand and its audience. From understanding your audience's core values to crafting a compelling brand story, these twelve laws provide actionable insights and strategies to amplify your brand's presence in a crowded market and achieve success that last generations.

Encyclopedia of Junk Food and Fast Food Andrew F. Smith,2006-08-30 Eating junk food and fast food is a great all-American passion. American kids and grownups love their candy bars, Big Macs and supersized fries, Doritos, Twinkies, and Good Humor ice cream bars. The disastrous health effects from the enormous appetite for these processed fat- and sugar-loaded foods are well publicized now. This was particularly dramatically evidenced by Super Size Me (2004), filmmaker Morgan Spurlock's 30-day all-McDonald's diet in which his liver suffered the same poisoning as if he had been on an extended alcohol binge. Through increased globalization, American popular food culture is being increasingly emulated elsewhere in the world, such as China, with the potential for similar disastrous consequences. This A-to-Z reference is the first to focus on the junk food and fast food phenomena from a multitude of angles in addition to health and diet concerns. More than 250 essay entries objectively explore the scope of the topics to illuminate the American way through products, corporations and entrepreneurs, social history, popular culture, organizations, issues, politics, commercialism and consumerism, and much more. Interest in these topics is high. This informative and fascinating work, with entries on current controversies such as mad cow disease and factory farming, the food pyramid, movie tie-ins, and marketing to children, will be highly useful for reports, research, and browsing. It takes readers behind the scenes, examining the significance of such things as uniforms, training, packaging, and franchising. Readers of every age will also enjoy the nostalgia factor, learning about the background of iconic drive-ins, the story behind the mascots, facts about their favorite candy bar, and collectables. Each entry ends with suggested reading. Besides an introduction, a timeline, glossary, bibliography, resource guide, and photos enhance the text. Sample entries: A&W Root Beer; Advertising; Automobiles; Ben & Jerry's; Burger King; Carhops; Center for Science in the Public Interest; Christmas; Cola Wars; Employment; Fair Food; Fast Food Nation; Hershey, Milton; Hollywood; Injury; Krispy Kreme; Lobbying; Nabisco; Obesity; PepsiCo; Salt; Soda Fountain; Teen Hangouts; Vegetarianism; White Castle; Yum! Brands, Inc.

The Brutal Truth About Asian Branding Joseph Baladi,2011-02-16 This is one of the most thoughtful books on branding I've come across. Most such books are either quickly-crafted how-to books or academic tomes over-burdened with references. This book is thoughtful because it raises questions which deal with the 'why' rather than just 'how' of branding. The reference to brutal truth as the truth which will set us free—to examine ourselves without self-illusions—is liberating. The notion that Asia has many good, but no great brands, is also not a put-down but a clarion call for Asian CEOs to rise to

the challenge and create lasting, meaningful, committed brands. —Ho Kwon Ping, Chairman/CEO; Banyan Tree and Board of Trustees, SMU; 2010 recipient of the Lifetime Achievement Award by the American Creativity Association A cold shower to wake people up. Joe Baladi's Brand Blueprint is a great tool for anyone involved in Sovereign Relationship Marketing or brand building anywhere. —Timothy Love, Vice Chairman; Chief Executive Officer, Omnicom APIMA There are many books about branding but few address Asian companies directly. Joe Baladi has been one of the loudest voices to advocate strong branding practices to Asian companies determined to outperform their competitors. The Brutal Truth About Asian Branding is a timely book that all Asian CEOs with global aspirations should read. —Richard Eu, Group CEO, Eu Yan Sang International The Brutal Truth About Asian Branding is the first book that connects branding frameworks to the realities of operating in Asia. It offers a very straightforward perspective on the challenges Asian CEOs face as they build their businesses and their brands, and perhaps the most compelling part of the book is the passionate plea for how Asian CEOs should be thinking different about branding. In true Baladi style, it is straight from the heart. —Maarten Kelder, Managing Partner (Asia), Monitor Group A very interesting and valuable perspective on Asian branding... one that decision makers in the region should read and embrace. Well done Joe! —Ron Sim, Founder & CEO, OSIM International Brands mean Business, anywhere in the world! The focus on Asia, at this time, is natural since the developing nations of the region did so much to help the world recover from the global 2008 economic crisis. Baladi's text is timely; it is thoughtful and thought-provoking; putting people and brands center stage with practical insights borne of his breadth of personal experience at the frontline. —Chris D. Beaumont, Professor, Tokyo University, Global Centre of Excellence; Director, North Asia, Results International The brutal truth is that Joe Baladi is right. Asian CEOs must learn the brand skills used so successfully in the rest of the world. It will take a big change in mentality, but the rewards will be vast. This book is a great start to that revolution. —Michael Newman, Author, 22 Irrefutable Laws of Advertising

Fast Food and Junk Food Andrew F. Smith, 2011-12-02 This fascinating and revealing work examines the incredible power of junk food and fast food—how nostalgic we are about them, the influence of the companies that manufacture or sell them, and their alarming effect on our country's state of health. In the last half century, junk food and fast food have come to play an extremely important role in American economic, historical, cultural, and social life. Today, they have a major influence on what Americans eat—and how healthy we are (or aren't). Fast Food and Junk Food: An Encyclopedia of What We Love to Eat tells the intriguing, fun, and incredible stories behind the successes of these commercial food products and documents the numerous health-related, environmental, cultural, and politico-economic issues associated with them. With more than 700 alphabetically arranged entries, this two-volume encyclopedia contains enough listings to allow readers to research a wide range of fascinating topics. The author treats the massive amount of subject material within this reference title in a fair and balanced manner. A secondary focus of this encyclopedia is to chart the spread of some American fast food

chains and commercially produced junk foods internationally.

The Last Sweet Bite Michael Shaikh, 2025-08-07 War changes every part of human culture: art, education, music, politics. Why should food be any different? For nearly twenty years, Michael Shaikh's job was investigating human rights abuses in conflict zones. Early on, he noticed how war not only changed the lives of victims and their societies, it also unexpectedly changed the way they ate, forcing people to alter their recipes or even stop cooking altogether, threatening the very survival of ancient dishes. A groundbreaking combination of travel writing, memoir, and cookbook, *The Last Sweet Bite* uncovers how humanity's appetite for violence shapes what's on our plate. Animated by touching personal interviews, original reporting, and extraordinary recipes from modern-day conflict zones across the globe, Shaikh reveals the stories of how genocide, occupation, and civil war can disappear treasured recipes, but also introduces us to the extraordinary yet overlooked home cooks and human rights activists trying to save them. From a sprawling refugee camp in Bangladesh and a brutal civil war in Sri Lanka to the drug wars in the Andes and the enduring effects of America's westward expansion, Shaikh highlights resilient diasporic communities refusing to let their culinary heritage become another casualty of war. Much of what we eat today or buy in a market has been shaped by violence; in some form, someone's history and politics is on the dinner table. *The Last Sweet Bite* tells us how it got there. Weaving together histories of food, migration, human rights, and recipes, Shaikh shows us how reclaiming lost cuisines is not just a form of resistance and hope but also how cooking can be a strategy for survival during trying times.

The Brand Chartering Handbook Chris Macrae, 1996 A timely exposition of the brand chartering process within businesses, drawing examples from key industries worldwide.

Innovative Research Methodologies in Management Luiz Moutinho, Mladen Sokele, 2017-12-05 A seminal collection of research methodology themes, this two-volume work provides a set of key scholarly developments related to robustness, allowing scholars to advance their knowledge of research methods used outside of their own immediate fields. With a focus on emerging methodologies within management, key areas of importance are dissected with chapters covering statistical modelling, new measurements, digital research, biometrics and neuroscience, the philosophy of research, computer modelling approaches and new mathematical theories, among others. A genuinely pioneering contribution to the advancement of research methods in business studies, *Innovative Research Methodologies in Management* presents an analytical and engaging discussion on each topic. By introducing new research agendas it aims to pave the way for increased application of innovative techniques, allowing the exploration of future research perspectives. Volume II explores a range of research methodologies including the Spatial Delphi and Spatial Shang, Virtual Reality, the Futures Polygon and Neuroscience research.

The Wisdom of Many Wolfgang Mieder, Alan Dundes, 1994 *The Wisdom of Many* explores research on proverbs of many cultures. More than twenty essays written by scholars of such diverse disciplines as folklore, literature, psychology, linguistics, and anthropology illustrate the significance of traditional proverbs and trace variations of proverbs over time, drawing on African, Chinese, Spanish, Finnish, Irish, and Yiddish examples.

Bottom-up Marketing Al Ries, Jack Trout, 1989 Teachers are supposed to inspire the younger generation to follow their dreams and achieve great things. However, our hero, Nozomu is not that teacher. Nozomu's probably the most depressive man in Japan--so depressive, in fact, that every little setback in life inspires yet another suicide attempt! But then why is being in Nozomu's class such a blast? Is it his quirky and endearing students? The bizarre adventures he leads them on? Or is there something after all to the Power of Negative Thinking?

Living Ethics Michael J. Bugeja, 2008 In a seamlessly wired world of television, computers, and BlackBerrys, where does ethics fit in? To address that question, *Living Ethics* calls for a moral convergence to complement the technological one. Identifying principles that apply across media platforms, Michael Bugeja has created a thorough and well-researched work that avoids the prescriptive language used by many texts; instead, he encourages critical thinking through examples that build, challenge, and enhance readers' value systems. While many ethics texts focus almost exclusively on journalistic ethics, this award-winning text (recipient of the 2009 Clifford G. Christians Award for Research in Media Ethics) emphasizes unifying principles that collapse and transcend the boundaries of a wide variety of media sources--including newspapers, magazines, radio, television, public relations, photojournalism, advertising, and other forms of traditional and online mass communication. As readers will discover, the circumstances of ethical issues may vary, but the moral processes used to resolve them are basically the same. Resolutely practical, *Living Ethics* is written in a clear and cogent style that helps readers:

- * Understand unifying principles from historical, philosophical, and political perspectives
- * Grasp the utility of principles that engage audiences and clients while respecting the diverse cultures in an increasingly global media environment
- * Explore moral convergence through the eyes of more than 100 practitioners at major newsrooms, agencies, and organizations
- * Examine ethical issues visually through more than 20 photos and illustrations
- * Develop a set of principles to guide their careers across a multitude of platforms
