**Donald M. Hassler, Clyde Wilcox**

**The Gap Into Vision** Stephen R. Donaldson, 1991 With an enormous corporation in control of all explored space, Morn Hyland must use her feminine wiles to win the affections of Succorso and defeat her new enemy--an alien force intent on mutating human bodies into alien forms.

**A Dark and Hungry God Arises** Stephen Donaldson, 2011-05-26 The third instalment in the GAP sequence: Stephen Donaldson's fascinating universe peopled with characters of a passion and intensity only he could create. After a terrifying encounter with the Amnion aliens, Nick Succorso made for the safety of Thanatos Minor, the infamous bootleg shipyard where illegals from all over the galaxy come to repair their ships (and indulge their exotic tastes in entertainment). But the Amnion are waiting, and for Nick, Morn Hyland and her force-grown son Davies, the safe haven has turned into a vision of hell. Now Angus Thermopyle heads for Thanatos Minor, programmed to carry out a secret mission that could have nightmarish consequences for them all ...

**Forbidden Knowledge** Stephen R. Donaldson, 2010-07-21 Author of The Chronicles Of Thomas Covenant, one of the most acclaimed fantasy series of all time, master storyteller Stephen R. Donaldson returns with the second book in his long-awaited new science fiction series--a story about dark passions, perilous alliances, and dubious heroism set in a stunningly imagined future. Beautiful, brilliant, and dangerous, Morn Hyland is an ex-police officer for the United Mining Companies--and the target of two ruthless, powerful men. One is the charismatic ore-pirate Nick Succorso, who sees Morn as booty wrested from his vicious rival, Angus Thermopyle. thermopyle once made the mistake of underestimating Morn and now he's about to pay the ultimate price. Both men think they can possess her, but Morn is no one's trophy--and no one's pawn. Meanwhile, within the borders of Forbidden Space, wait the Amnion, an alien race capable of horrific atrocities. The Amnion want something unspeakable from humanity--and they will go to unthinkable lengths to get it. In Forbidden Knowledge, Stephen R. Donaldson spins a galaxy-wide web of intrigue, deception, and betrayal that tightens with inexorable strength around characters and readers alike.

**The Real Story** Stephen R. Donaldson, 2009-10-21 Author of The Chronicles Of Thomas Covenant, one of the most acclaimed fantasy series of all time, master storyteller Stephen R. Donaldson returns with this exciting and long-awaited new series that takes us into a stunningly imagined future to tell a timeless story of adventure and the implacable conflict of good

and evil within each of us. Angus Thermopyle was an ore pirate and a murderer; even the most disreputable asteroid pilots of Delta Sector stayed locked out of his way. Those who didn't ended up in the lockup--or dead. But when Thermopyle arrived at Mallory's Bar & Sleep with a gorgeous woman by his side the regulars had to take notice. Her name was Morn Hyland, and she had been a police officer--until she met up with Thermopyle. But one person in Mallory's Bar wasn't intimidated. Nick Succorso had his own reputation as a bold pirate and he had a sleek frigate fitted for deep space. Everyone knew that Thermopyle and Succorso were on a collision course. What nobody expected was how quickly it would be over--or how devastating victory would be. It was common enough example of rivalry and revenge--or so everyone thought. The REAL story was something entirely different. In *The Real Story*, Stephen R. Donaldson takes us to a remarkably detailed world of faster-than-light travel, politics, betrayal, and a shadowy presence just outside our view to tell the fiercest, most profound story he has ever written.

*A Dark and Hungry God Arises* Stephen R. Donaldson, 2009-10-21 A master storyteller, Stephen R. Donaldson established a worldwide reputation with his unforgettable, critically acclaimed fantasy series *The Chronicles Of Thomas Covenant*. Then, with *The Real Story* and *Forbidden Knowledge*, he launched a thrilling new science fiction series. Now the galactic epic continues as humanity struggles against the forces of ultimate evil—and its own dark nature. The stage is set for confrontation at Billingsgate—illegal shipyard, haven for pirates and brigands, where every vice flourishes and every appetite can be sated. Gateway to the alien realm of the Amnion, the shipyard is a clearinghouse for all they require to fulfill their mutagenic plans against humanity. It is here that the fate of Morn Hyland is to be decided amid a kaleidoscopic whirl of plot and counter-plot, treachery and betrayal. As schemes unravel to reveal yet deeper designs, Morn, Nick, Angus' lives may all be forfeit as pawns in the titanic game played out between Warden Dios, dedicated director of the UMC Police, and the Dragon, greed-driven ruler of the UMC. Here, the future of humankind hangs on the uncertain fortune of Morn Hyland in a daring novel of epic power and suspense, relentlessly gripping from first page to last.

***The Real Story and Forbidden Knowledge*** Stephen R. Donaldson, 2019-03-07 A powerful and intense sf tale from a master storyteller In the far future, gap drives faster-than-light deep space travel, but sometimes this afflicts some with irreparable brain damage. A Zone Implant can turn such a person into a zombie, to protect his shipmates, but it's highly illegal. Ensign Morn Hyland works for the United Mining Company, which is in charge of law enforcement throughout known space. She lives aboard a police ship, together with most of her family; their job is to chase down pirates and other illegals who prey on the weak, or smuggle goods into forbidden space. Her life is nothing out of the ordinary - until she falls in with the pirate Captain Nick Succorso. All of a sudden, the young, strong, beautiful police officer appears to be falling in love - well, lust at least - with the murdering pirate, or so it appears to the folk at the space station's bar. But the real story was quite different ...

**The Gap Into Ruin** Stephen R. One of the most exhilarating space epics ever told comes to a shattering climax in a thrilling tale of high adventure, powerful emotion and labyrinthine intrigue. As the conflict between humankind and the Amnion aliens heads for crisis, Morn Hyland, cyborg Angus Thermopyle and the survivors on board the crippled starship Trumpet must return from deep space to Earth. Only they can prevent the titanic struggle between UMCP director Warden Dios and Holt Fasner, the corrupt head of the UMC, from precipitating all-out war with the Amnion -- and leaving humanity to pay a terrible price. As Dios in Earth's orbit and Morn in deep space both make far-reaching decisions, the Amnion act with swift fury, and suddenly Earth stands threatened with fiery destruction...

**Stephen R. Donaldson's Chronicles of Thomas Covenant** William A. Senior, 1995 Stephen R. Donaldson's *Chronicles of Thomas Covenant* examines Donaldson's first three novels in an attempt to define their place in the fantasy canon. The book begins with an extensive introduction to the fantasy genre in which W.A. Senior eloquently defends fantasy against charges of being mere escapism, or simply juvenile, and not warranting serious critical consideration.

**New Boundaries in Political Science Fiction** Donald M. Hassler, Clyde Wilcox, 2008 This book offers an interpretation of the evolution of a growing genre in literary, film, and television. As a follow-up to their 1997 collection *Political Science Fiction* Hassler and Wilcox have assembled twenty-four noted international scholars representing diverse fields of inquiry to assess the influential voices and trends from the past decade in *New Boundaries in Political Science Fiction*. The terrors and technologies that permeate our daily lives have changed radically in the past decade, further highlighting the underlying speculations on our contested future that remain the core of this genre. In surveying the vast expanse of politically charged science fiction of recent years, the editors posit that the defining dilemma for these tales rests in whether identity and meaning germinate from progressive linear changes or progress or from a continuous return to primitive realities of war, death, and the competition for survival. The discussion of political implications ranges among writers from H. G. Wells, Robert A. Heinlein, Ursula Le Guin, and Isaac Asimov to more radical recent voices such as Iain M. Banks, William Gibson, Joanna Russ, Philip K. Dick, and China Mieville. While emphasizing the literature, the collection also addresses political science fiction found on film and television from the original *Star Trek* through the newest incarnation of *Battlestar Galactica*.

*Chaos and Order* Stephen Donaldson, 2011-05-26 The fourth instalment in the GAP sequence: Stephen Donaldson's fascinating universe peopled with characters of a passion and intensity only he could create. As the planetoid Thanatos Minor

explodes into atoms, the Trumpet hurtles into space, just one step ahead of hostile pursues. On board the Trumpet are Nick Succorso, Morn Hyland, her force-grown son Davies and the cyborg Angus Thermopyle, old enemies now thrown together in a desperate bid for survival. The Gap Into Madness Stephen R. Donaldson, 1995 A new-cover reissue of the fourth book in the bestselling five-volume sf series created by the world-famous author of the Thomas Covenant chronicles -- and acclaimed as the 'best work of his career'. Events were not moving as the Amnion had intended. Once again humans had been false in their dealings with the aliens. As the planetoid Thanatos Minor exploded into atoms, the Trumpet hurtled into space only one step ahead of hostile pursuers. On board were Morn Hyland and her force-grown son Davies, cyborg Angus Thermopyle and Captain Nick Succorso -- old enemies thrown together in a desperate bid for survival. For both the Amnion and the UMCP, the immediate capture of the fleeing ship and the secrets it contained was imperative. But for Trumpet's exhausted crew the only hope lay in an illegal lab in the distant binary solar system of Valdor Industrial. It would be a journey of unpredictable danger -- from which not all would return...

**Gothic Science Fiction 1980-2010** Sara Wasson, Emily Alder, 2011-01-01 Gothic fiction's focus on the irrational and supernatural would seem to conflict with science fiction's rational foundations. However, as this novel collection demonstrates, the two categories often intersect in rich and revealing ways. Analyzing a range of works—including literature, film, graphic novels, and trading card games—from the past three decades through the lens of this hybrid genre, this volume examines their engagement with the era's dramatic changes in communication technology, medical science, and personal and global politics.

**Forbidden Knowledge** Stephen R. Donaldson, 1991 Morn Hyland uses the powers of her brain implant to defend against an alien race that turns human bodies into inhuman forms

**This Day All Gods Die** Stephen R. Donaldson, 2009-12-09 The Gap series comes to a shattering climax in a cataclysmic showdown that will mean either the survival of all humankind . . . or its absorption and annihilation. Drifting in space, sabotaged by a crewman tainted with an alien mutagen, the starship Trumpet broadcasts to any ship in range the formula of the mutagen's antidote—a drug the United Mining Companies has suppressed for its own sinister purposes. Aboard the crippled ship, the fugitives and survivors—Morn Hyland, an ex-UMCP cop, Angus Thermopyle, a newly freed cyborg, and unwilling saboteur Ciro Vasaczk—must make a desperate gamble. Pursued by the UMCP ship Punisher, threatened by the return of an Amnion combat vessel, they will hijack the police craft by any means necessary—and take it back to Earth.
