The Message of Acts in Codex Bezae (vol 4). Josep Rius-Camps,Jenny Read-Heimerdinger,2009-08-15 This final volume in the four-volume commentary, *The Message of Acts in Codex Bezae*, continues the comparison of the message of Acts transmitted by Codex Bezae with that of the more familiar Alexandrian text, represented by Codex Vaticanus. For each section of Acts, there is a side by side translation of the Bezan and Alexandrian manuscripts, followed by a critical apparatus and, finally, a commentary that explores the variations in the message of the two texts. Working from this strong methodological foundation Jenny Read-Heimerdinger and Josep Rius-Camps conclude that the Bezan text is the earlier of the two. In the process they provide an illuminating and comprehensive guide to the Acts of the Apostles. --Book Jacket.

The Message of Acts in Codex Bezae (vol 4) Jenny Read-Heimerdinger,Josep Rius-Camps,2009-06-15 This is the final volume in the justifiably lauded four-volume commentary on the Book of Acts, presenting a fresh look at the text of Codex Bezae and comparing its message with that of the more familiar Alexandrian text - of which the Codex Vaticanus is taken as a representative. Where Codex Bezae is lacunary (after 22.29), other manuscripts that often support Bezan readings elsewhere are employed. Although based on the Greek text, the commentary aims to be accessible to those who are not familiar with Greek. It is intended to publish the entire Greek text of Codex Bezae following the publication of this fourth volume. The fourth volume addresses Acts 18.24-28.31, the chapters that cover the trial of Paul and the last stage of the mission to the Gentiles, culminating in Paul's unhindered proclamation of the gospel in Rome. For each section, there is a side by side translation of the Vaticanus and Bezan manuscripts (or related alternatives after 22.29), followed by a full critical apparatus which deals with more technical matters, and finally, a commentary which explores in detail the differences in the message of the two texts. Of particular interest in this part of Acts is the evaluation made by the author of Paul's defence at his successive trials which, it is argued, is considerably less favourable than is commonly assumed.

Conservation Research in Libraries David Howell,Ludo Snijders,2020-06-08 Conservation research in libraries is a rapidly growing field. This book places analysis within its context in conservation and provides examples of how this expensive resource can be used. Through a series of case studies, it describes major analytical procedures, including visualization, molecular, elemental and separation techniques as well as chemical tests. It is thus a suitable reference work for library conservators and curators. Please note: Despite careful production of our books, sometimes mistakes happen. Unfortunately, the authorship for some chapters wasn't correct in the original publication. Chapter 5 was written by Andrew Beeby and David Howell as co-author, chapter 6 by Kelly Domoney and David Howell as co-author, and chapter 9 is authored by Anita Quye. This will be corrected. We apologize for the mistake.
