The Scrolls of Hayah Claudio Nocelli, What are we willing to sacrifice to uncover the truth about who we are and the purpose of our existence? In a world where humanity lives under a sky of illusions and the truth has been carefully buried, a former soldier uncovers documents that lead to the texts of Hayah, a man who exposes the colonizers of humanity and guides the way to the true path. These writings challenge imposed beliefs, questioning the nature of existence and the control exerted over humanity. Through maps pointing to lands beyond the ice walls and experiments conducted on hidden islands, the story unveils fragments of an unknown past and a present shaped by forces determined to maintain their power at all costs. A reflection on deception, freedom, and the awakening of human consciousness.

My Journey to Antarctica Claudio Nocelli, A unique journey of no return through the frozen waters of Antarctica and beyond that will provide us with answers that may change the perspective of how we see the world today. The first contact with the ancestral humans and the Anakim giants that live on the other side of the ice barriers and the first invisible dome, the learning of the past that was ripped from us about human history, its cycles, the many resets and a war that seems to have no end against the colonizing parasites.

Can We Escape this Simulation? Claudio Nocelli, 2025-07-22 What if your reality were nothing more than a carefully crafted projection? What if the thoughts that inhabit your mind were distorted? This book is an intimate dialogue with Helen Morris, an ancestral human from beyond the Dome. Through her revelations, the foundations of our perception begin to crumble: the implant that blocks the pineal gland, the artificial channel that interferes with your thoughts, the false universe projected across the skies, and the emotional control radiating from invisible structures. It is a guide to help you recognize the true voice of your soul amidst the mental noise seeded after the reset of 1728. And while humanity sleeps, forgotten giants beneath the earth promise to return to our lands. Because not everything appears to be lost.

The Navigator Who Crossed the Ice Walls 2 Claudio Nocelli, 2025-03-04 How did life truly begin? Were we created by a higher will? And if so, Who —or what— lies behind the entirety of creation? After crossing the towering ice walls of Antarctica, Captain Tyler plunges into a forbidden ocean where the known laws of time and nature seem to unravel. In this second chapter, a new epic journey begins. The navigator faces forgotten lands, ancestral civilizations, and ancient truths long buried beneath layers of manipulation woven by the Custodians of power. Guided by the enigmatic Magyri of Laurentia

—heirs to forbidden knowledge and guardians of a pure lineage— Tyler soon discovers that the greatest journey does not lead to new lands, but into the hidden abysses of the human soul. Along his path, he will encounter the wise Ancestrals and the mighty Anakim Giants, whose role in history was deliberately erased from human memory. Through revelations about the Invisible Projector Dome, the Upper Waters, and the existence of worlds beyond the imposed barriers, Tyler will face an inevitable truth: the mental chains forged over countless generations to keep humanity away from its true path. This is not just a story of exploration, but of revelation. With each boundary crossed, Tyler unveils not only new lands but also long-lost answers hidden deep within the human spirit. The ancient texts of the Great Ancestral Library will whisper secrets no one was ever meant to know —secrets that will challenge everything we believe about life, existence, and our place within the grand design.

PLEIADES Claudio Nocelli, 2025-10-11 Amid the silences of the Great Dome dwell the Pleiadians, those who were once allies of humanity and now face their own decline as a consequence of past decisions. In this work, the preserved texts of a testimonial journey are revealed, along with the luminous ruins of a civilization that chose neutrality when the war of Asgard split history in two. Their world—now consumed by storms engineered by the Anunnaki and eroded by centuries of genetic and climatic manipulation—is forced to migrate. A group of ancestral explorers, led by Butler, crosses uncharted seas to reestablish contact with the Pleiadian descendants. Will a pact between worlds be sealed—one that could forever change humankind's relationship with its hidden origin? Is this voyage, perhaps, the prelude to the long-awaited liberation of humanity?

The Navigator Who Crossed the Ice Walls Claudio Nocelli, The story of navigator William Morris who, after the Independence War in the United States, decides to investigate with his new vessel the waters surrounding the Antarctic Circle, finding an unknown passage to an open sea. Other lands await him behind, along with another civilization, the story will begin to reveal to the entire group another reality based on the true past and future of the human being. It will finally lead him to the discovery of other worlds behind the Antarctica and most importantly to know himself, a unique journey from which nothing will ever be the same again.

Return of the Giants from the Hollow Earth Claudio Nocelli, 2025-08-08 Sometimes I wake with the certainty that someone has written my day. Beneath a projected sky and surrounded by Ice Walls, some of my memories seem to have been erased. When two men in black force me to leave, an unplanned journey begins. I descend through tunnels that appear on no official maps-down to Nushara: core cities, Tartarian routes, hidden races, and an Anakim Giant who gives me a map detailing the inner world, encoded to my frequency. While Custodians and Anunnaki track me-and creatures like the polonium worms rise from the lowest levels-I must return to the surface with a single charge: to bear witness. If enough humans remember, the Giants will return.

Catatan Petualangan Vantrala: Terra Limitada Yovie Kyu, 2023-11-25 Mengapa planet kita disebut Earth, Terra, Gaia atau Bumi? Vantrala mencoba untuk melihat sendiri bagaimana bentuk dari planet Bumi dan memeriksa apakah ada dunia lain di luar dinding es antarktika? Penelusurannya kali ini akan membawanya mengenal "The Custodians".

The Dome and Outer Space Projection Claudio Nocelli, In a world where reality is not what it seems, the true nature of the "Invisible Dome Projector" is revealed, an enigmatic structure covering the known continents of this Dome-World, with a simulation of the cosmos designed to shape our thinking. This book explores how, over the generations, the Custodians and the Anunnaki have used advanced technology to not only project a fictionalized version of the universe, but also to manipulate human perception and destiny away from our true purpose and surroundings.

Hidden Lands Beyond the Antarctica Claudio Nocelli, Helen Morris, the daughter of the navigator born in the lands behind Antarctica, gives us more details about the continuation of her father William's journey, the Giant-Humans and the hidden petrified trees, the importance of returning to our lands, the contact with other beings coming from other Planet-Domes and the stories and secret information kept in the Great Ancestral Library. Each chapter gives us more clarity about the worlds and civilizations that surround us, this story will immerse us in a unique journey into the human past and future and above all an inner journey into our true human essence.

The False Universe and the Beginning of Humanity Claudio Nocelli, 2025-10-22 After the year 1728, the texts were rewritten, sealing the doors of the past. New maps were drawn, and a more hostile climate rose along the edges of the world, thus enclosing humanity within walls, among impetuous winds, and untamed tides. Finally, as if that were not enough, false skies were projected to lead the new human being toward insignificance and inner emptiness. A new reality began to unfold. Beneath an Invisible Dome Projector, every thought, word, and formula began to be guided along a predetermined path. In *The False Universe and the Beginning of Humanity*, it is revealed how the Architects of the New Cycle reconfigured history, science, war, language, the mind, and even what we see in the skies. Each chapter opens a door to the hidden mechanisms of the system that governs our world. The Architects of History erased empires and rewrote the texts. Those of War fabricated just causes to justify sacrifice. Those of The Formula established the First Formula and gave way to the Messengers of the

Sphere. Those of Language distorted the creative word and confused human communication. Those of The Universe raised the Invisible Dome Projector and falsified the skies. And those of Thought implanted a mental frequency that disconnected humanity from the Source and the Celestial Lands. Amid the spiritual ruins left by the Custodian System that still feeds on fear and forgetfulness, the work leaves us before a transcendent reflection that becomes inevitable. Are we truly the result of chance, or a conscious manifestation, created with purpose and bound by a direct connection to the Source and the Celestial Lands?
