**The Last Stand of Fox Company** Bob Drury, Tom Clavin, 2018-11-20 The authors of the bestselling *Halsey's Typhoon* do a fine job recounting one brutal, small-unit action during the Korean War's darkest moment. — Publishers Weekly November 1950, the Korean Peninsula. After General MacArthur ignores Mao's warnings and pushes his UN forces deeper into North Korea, his 10,000 First Division Marines find themselves surrounded and hopelessly outnumbered by 100,000 Chinese soldiers near the Chosin Reservoir. Their only chance for survival is to fight their way south through the Toktong Pass, a narrow gorge that will need to be held open at all costs. The mission is handed to Captain William Barber and the 234 Marines of Fox Company, a courageous but undermanned unit of the First Marines. Barber and his men climb seven miles of frozen terrain to a rocky promontory overlooking the pass, where they will endure four days and five nights of nearly continuous Chinese attempts to take Fox Hill. Amid the relentless violence, three-quarters of Fox's Marines are killed, wounded, or captured. Just when it looks like they will be overrun, Lt. Colonel Raymond Davis, a fearless Marine officer who is fighting south from Chosin, volunteers to lead a daring mission that will seek to cut a hole in the Chinese lines and relieve the men of Fox. This is a fast-paced and gripping account of heroism in the face of impossible odds.

*The Farthest Valley* Joseph Wheelan, 2024-10-10 A history of the legendary extraction of the Fifth and Seventh Marines from a Chinese trap, told for the first time using Chinese sources. Knee-deep in snow, and under a leaden sky, American Marines thousands of miles from home watched more snow settle onto the frozen ground, glittering in the fading light. Suddenly, the still Korean night roared to life with the sound of Chinese mortar fire. The Fifth and Seventh Marine Regiments were besieged and surrounded by the Chinese 9th Army Group in a surprise attack at Chosin Reservoir in what is now North Korea. Vastly outnumbered and outgunned, defeat and death seemed guaranteed. Their improbable escape after a week of brutal combat required all the Marines' fighting skills and supreme combat leadership. It has become the stuff of legend and is brilliantly brought to life in this book through first-hand accounts by Joseph Wheelan, himself the son of a Chosin veteran. However, *The Farthest Valley* also uses Chinese military documents to give a unique perspective on Chinese strategic and tactical failings which allowed the Marines to escape. Without the Marines the entire United Nations core strength was at risk of collapse which would have changed the outcome of the Korean War. This is a compelling history of the Marines' incredible tenacity and of woeful combat leadership as the Chinese gambled away their men's lives and ultimately victory.

**On Desperate Ground** Hampton Sides, 2019-10-29 From the New York Times bestselling author of *Blood and Thunder* and *Ghost Soldiers*, a chronicle of the extraordinary feats of heroism by Marines called on to do the impossible during the greatest battle of the Korean War. Superb ... A masterpiece of thorough research, deft pacing and arresting detail... This war story—the fight to break out of a frozen hell near the Chosin Reservoir—has been told many times before. But Sides tells it exceedingly well, with fresh research, gritty scenes and cinematic sweep. —The Washington Post On October 15, 1950, General Douglas MacArthur, Supreme Commander of UN troops in Korea, convinced President Harry Truman that the Communist forces of Kim Il-sung would be utterly defeated by Thanksgiving. The Chinese, he said with near certainty, would not intervene in the war. As he was speaking, 300,000 Red Chinese soldiers began secretly crossing the Manchurian border. Led by some 20,000 men of the First Marine Division, the Americans moved deep into the snowy mountains of North Korea, toward the trap Mao had set for the vainglorious MacArthur along the frozen shores of the Chosin Reservoir. What followed was one of the most heroic--and harrowing--operations in American military history, and one of the classic battles of all time. Faced with probable annihilation, and temperatures plunging to 20 degrees below zero, the surrounded, and hugely outnumbered, Marines fought through the enemy forces with ferocity, ingenuity, and nearly unimaginable courage as they marched their way to the sea. Hampton Sides' superb account of this epic clash relies on years of archival research, unpublished letters, declassified documents, and interviews with scores of Marines and Koreans who survived the siege. While expertly detailing the follies of the American leaders, *On Desperate Ground* is an immediate, grunt's-eye view of history, enthralling in its narrative pace and powerful in its portrayal of what ordinary men are capable of in the most extreme circumstances. Hampton Sides has been hailed by critics as one of the best nonfiction writers of his generation. As the Miami Herald wrote, Sides has a novelist's eye for the propulsive elements that lend momentum and dramatic pace to the best nonfiction narratives.

*The Marines' Fight for Survival* Rod Andrew Jr., 2025-10-20 Only five years after Marines raised the American flag on Iwo Jima, the United States Marine Corps was close to becoming a hollow force. A parsimonious Truman administration and a hostile defense secretary, Louis Johnson, had reduced the Corps to a handful of understrength infantry battalions, assorted supporting artillery and tank units, and twelve aircraft squadrons. Its future hung in the balance. In *The Marines' Fight for Survival*, historian and retired Marine Corps Colonel Rod Andrew Jr. guides readers through the dramatic twists and turns of the campaign waged by a handful of senior Marines, citizens, legislators, and journalists to defend the Corps and prevent its elimination or forced irrelevance. Through politicking, intrigue, deception, and extreme moral courage, the Corps' defenders waged a bitter battle of policy and publicity in the halls of power and the national media. But while this campaign of persuasion moved the needle in some important ways, the final victory for the Marines' future was ultimately won on the battlefields of Korea. Andrew argues that it was the gritty performance of the frontline Marines and their supporting airmen

in Korea that ultimately saved the Corps. The elite reputation that they created for themselves, and the affection they had garnered from the public throughout the twentieth century, would not have been possible without the valor and the victories of frontline Marines. The Corps' place in the national defense structure was sealed with the Douglas-Mansfield Act of 1952, in which Congress granted a legal voice to the USMC Commandant on the Joint Chiefs of Staff and made the Corps the only service branch to have a permanent minimal strength protected by law.
