H. A. Gober

The World's Oldest Church Michael Peppard,2016-01-01 Michael Peppard provides a historical and theological reassessment of the oldest Christian building ever discovered, the third-century house-church at Dura-Europos. Contrary to commonly held assumptions about Christian initiation, Peppard contends that rituals here did not primarily embody notions of death and resurrection. Rather, he portrays the motifs of the church's wall paintings as those of empowerment, healing, marriage, and incarnation, while boldly reidentifying the figure of a woman formerly believed to be a repentant sinner as the Virgin Mary. This richly illustrated volume is a breakthrough work that enhances our understanding of early Christianity at the nexus of Bible, art, and ritual.

Historic Churches of the World.... Robert Borneman Ludy,1926

Around the World of Orthodox Christianity - Five Hundred Million Strong Joan Markessini,2012-06 The Orthodox Church endured many wars and political conflicts and shifts that affected its role in the states where its faithful resides, apart from its estrangement from the Roman Catholic Church in the eleventh century. Surviving with it as a faith in many Eastern European countries, Greece, and some parts of the Middle East and Africa are many of its religious churches or edifices, preserved with all its glory and splendor. Dr. Joan Markessini inspired by Jules Verne's classic tale *Around the World in Eighty Days* compiled photographs of majestic churches of the Eastern Orthodox in *Around the World of Christian Orthodoxy* Five Hundred Million Strong: The Unifying Aesthetic Beauty. Along with the discussion of architectural style, materials, and uniqueness of each of those buildings from antiquity, she added a brief history that will forever be etched in every element of the houses of worship where the belief never withers.

The Oldest Church in the World H. A. Gober,19??

Ritual, Emotion, and Materiality in the Early Christian World Soham Al-Suadi,Richard S. Ascough,Richard E.

DeMaris,2021-12-30 This volume advances our understanding of early Christianity as a lived religion by approaching it through its rites, the emotions and affects surrounding those rites, and the material setting for the practice of them. The connections between emotions and ritual, between rites and their materiality, and between emotions and their physical manifestation in ancient Mediterranean culture have been inadequately explored as yet, especially with regard to early Christianity and its water and dining rites. Readers will find all three areas—ritual, emotion, and materiality—engaged in this exemplary interdisciplinary study, which provides fresh insights into early Christianity and its world. *Ritual, Emotion, and Materiality in the Early Christian World* will be of special interest to interdisciplinary-minded researchers, seminarians, and students who are attentive to theory and method, and those with an interest in the New Testament and earliest Christianity. It will also appeal to those working on ancient Jewish and Greco-Roman religion, emotion, and ritual from a comparative standpoint.

The Protevangelium of James Lily C. Vuong,2019-06-25 The Protevangelium of James tells stories about the life of the Virgin Mary that are absent from the New Testament Gospels: her miraculous birth to Anna and Joachim, her upbringing in the temple, and her marriage at the age of twelve to the aged widower Joseph. The text also adds significant details to the well-known stories of Jesus' conception, birth, and escape from the slaughter of innocents perpetrated by Herod the Great. Despite its noncanonical status, the Protevangelium of James was extremely influential in churches of the East, and since its publication in the West in the sixteenth-century has captured the imagination of readers all over the world. This study edition presents a fresh, new translation of the text with cross-references, notes, and commentary. The extensive introduction makes accessible the most recent scholarship in studies on Mary in Christian apocrypha, offers new insights into the text's provenance and relationship to Judaism, and discusses the text's contributions to art and literature.

The Power of Resurrection Patrick G. Stefan,2019-12-16 How did the early Christian movement grow so quickly, and did the idea of resurrection have anything to do with its growth? Patrick G. Stefan offers an answer to both of these questions by searching at the intersection of the investigation of Christian origins and Continental philosophy. He documents the rise of

the disciplined subject with the emergence of Christianity and argues that the early success of the Christian movement was due, in part, to the activation and deployment of what Michel Foucault calls disciplinary mechanisms of power. This activation took place through the instantiation of the idea of resurrection in early Christian material and textual existence. The activation of these mechanisms created a sub-class of disciplined individuals with the ability to envision life outside of the sovereign power of Caesar. By building on Foucault's methodology of examining how material conditions shape and create individual subjects, this book takes as its point of departure Foucault's unexplored observation that "[Christianity] proposed and spread new power relations throughout the ancient world." From this departure point, Stefan seeks to demonstrate that these new power relations were connected to an idea (resurrection) and formed the early history of disciplinary power.
