Dictionary of the English/Creole of Trinidad & Tobago Lise Winer, 2009-01-16 Using the historical principles of the Oxford English Dictionary, Lise Winer presents the first scholarly dictionary of this unique language. The dictionary comprises over 12,200 entries, including over 4500 for flora and fauna alone, with numerous cross-references. Entries include definitions, alternative spellings, pronunciations, etymologies, grammatical information, and illustrative citations of usage. Winer draws from a wide range of sources - newspapers, literature, scientific reports, sound recordings of songs and interviews, spoken language - to provide a wealth and depth of language, clearly situated within a historical, cultural, and social context.

Navigating Foreign Language Learner Autonomy Christian Ludwig, Maria Giovanna Tassinari, Jo Mynard, 2020-05-10 Navigating Foreign Language Learner Autonomy provides novel insights into both the theory and practice of learner autonomy in the context of foreign language education, and does so in multiple languages and through multiple voices. The contributing authors showcase effective practices and new directions in research, but also report on the status quo of learner autonomy at institutions around the world. Most of the authors write about their experiences with implementing foreign language learner autonomy in their home or dominant language(s). The volume contains full chapters or extracts in 15 languages: Czech, Danish, English, Finnish, German, Hungarian, Italian, Japanese, Korean, Mandarin Chinese, Māori, Portuguese, Spanish, Thai, and Turkish. Each chapter is accompanied by a chapter or summary in English, along with a glossary and some reflective questions. As a starting point, a theoretical introduction is provided by David Little, and to conclude, the editors analyse the narratives of the contributors and comment on the process of navigating autonomy through different languages.

Handbook of Anti-Discriminatory Education Ardavan Eizadirad, Peter Pericles Trifonas, 2025-05-29 This comprehensive handbook addresses issues related to anti-discriminatory education as it relates to children, youth, young adults, families, and practitioners across a series of age groups, sectors, communities, and countries. It seeks to map a holistic interdisciplinary overview of the field examining how policies, practices, and initiatives within unique social, political, and cultural contexts have been enacted to advance anti-discriminatory education for improved equity, diversity, and inclusion

outcomes leading to thriving school-community ecosystems. The work draws on a range of theoretical frameworks, hybrid perspectives, and research projects to provide multiple examples about the challenges, complexities, and nuances involved in theorizing and doing the work of anti-discriminatory education in local communities and on a macro institutional level. With intentionality, authors from various backgrounds, identities, fields, and positionalities describe and discuss various social justice and equity issues and how they strategize, mobilize, and navigate unique micro and macro dynamics affiliated with power and privilege for the purpose of advancing the field of anti-discriminatory education. Overall, the chapters cover a range of topics and issues from various practitioners and community perspectives around the intersectionality and divergence of navigating micro lived experiences and macro institutional policies and practices to bridge the gap between theory and action with respect to anti-discriminatory education. The book is divided into 4 sub-sections: Early Childhood Education (Early years up to approx. 10 years old), Elementary and Middle School Years (approx. 11 to 14 years old), Secondary Schools (approx. 15 to 19 years old), and Higher Education (Post-Secondary).

Early Childhood Learning Guidelines in Latin America and the Caribbean Christine Harris- Van Keuren, Diana Rodríguez Gómez, 2013-01-15 This report details a comparative analysis of early learning guidelines (ELGs) for infants and toddlers less than 3 years of age in Latin America and the Caribbean. The 19 ELGs evaluated are utilized by 12 national and 7 regional programs located in 13 countries in the region. Three types of programs are included in this report: parenting programs (n=3), community centers (n=4) and child development centers (n=12). Two of the twelve child development center programs fall beyond the age range of this research (0-3 years) and are included as case studies. While parenting programs are included in this analysis, caution should be given to directly comparing their results to the results from community center or child development center programs. As described in the paper, parenting programs represent a distinct type of intervention.

The Encyclopedia of Caribbean Religions Patrick Taylor, Frederick I. Case, 2013-04-30 The Encyclopedia of Caribbean Religions is the definitive reference for Caribbean religious phenomena from a Caribbean perspective. Generously illustrated, this landmark project combines the breadth of a comparative approach to religion with the depth of understanding of Caribbean spirituality as an ever-changing and varied historical phenomenon. Organized alphabetically, entries examine how Caribbean religious experiences have been shaped by and have responded to the processes of colonialism and the challenges

of the postcolonial world. Systematically organized by theme and area, the encyclopedia considers religious traditions such as Vodou, Rastafari, Sunni Islam, Sanatan Dharma, Judaism, and the Roman Catholic and Seventh-day Adventist churches. Detailed subentries present topics such as religious rituals, beliefs, practices, specific historical developments, geographical differences, and gender roles within major traditions. Also included are entries that address the religious dimensions of geographical territories that make up the Caribbean. Representing the culmination of more than a decade of work by the associates of the Caribbean Religions Project, The Encyclopedia of Caribbean Religions will foster a greater understanding of the role of religion in Caribbean life and society, in the Caribbean diaspora, and in wider national and transnational spaces.
