Short Stories and Political Philosophy Erin A. Dolgoy, Kimberly Hurd Hale, Bruce Peabody, 2018-11-01 Short Stories and Political Philosophy: Power, Prose, and Persuasion explores the relationship between fictional short stories and the classic works of political philosophy. This edited volume addresses the innovative ways that short stories grapple with the same complex political and moral questions, concerns, and problems studied in the fields of political philosophy and ethics. The volume is designed to highlight the ways in which short stories may be used as an access point for the challenging works of political philosophy encountered in higher education. Each chapter analyzes a single story through the lens of thinkers ranging from Plato and Aristotle to Max Weber and Hannah Arendt. The contributors to this volume do not adhere to a single theme or intellectual tradition. Rather, this volume is a celebration of the intellectual and literary diversity available to students and teachers of political philosophy. It is a resource for scholars as well as educators who seek to incorporate short stories into their teaching practice.

Speculative Orientalism: Asian Religions in New Wave Science Fiction Sang-Keun Yoo, 2025-08-21 Examining the works

of prominent New Wave science fiction authors from the 1950-1960s, Sang-Keun Yoo highlights the underexplored connection between American science fiction and Asian religions, such as Taoism, Buddhism, and Hinduism. The book considers how the major world wars of the 20th century—Second World War, the Cold War, and the Vietnam War—repositioned Asian culture in relation to the science fiction genre in the period. Underpinning this study, Sang-Keun Yoo argues that “Speculative Orientalism” emerged in American science fiction during the 1950s and 60s. This concept adopted various aspects of Asian religions to envision alternative worlds, unburdened by the constraints of colonialism, totalitarianism, racism, and sexism present in contemporary American society. Bringing fresh perspectives to the works of William S. Burroughs, Philip K. Dick, Ursula K. Le Guin and Samuel R. Delany, this book offers an insightful examination of the role of Asian religions in American science fiction and their impact on the genre's history.
