Deliberately Simple Life Quotes Dr. Stephen Zemanek, 2013-06-19 Life can become complex and challenging for all of us. If we are not consciously working towards expanding our thinking we will slide into a tiny life with few options. One of the best ways we can expand our view on life is by considering the thoughts of others. At times the thoughts of others will be proven wrong. At times the thoughts of others will prove themselves to be exceedingly insightful. Regardless of the conclusion we reach about another's view our lives become bigger simply by the act of considering them. Thoughts, ideas, concepts, and humor develop us into the person we are becoming. A world without keen or witty thoughts is drab and empty. This book is designed to take you through each day of the year with a new thought to consider. Some of these thoughts you will love and others you will disagree with. However, as you read through this book you will discover new ideas to consider each day.

The Global and American Spirit Evan Lanning, 2019-09-16 From the great thinkers of Ancient Greece to the illustrious forebears of America's founding to the fearless leaders of free peoples who inspired the twentieth-century world through the disturbing turmoil and despair of two global wars—wars that resulted in genocide, mass destruction, and cultural decay—all of history seems to direct us, respectively, toward the light of truth, the sound of liberty, and the resolve of democracy. Encapsulating this and more with a sweeping series of essays, the exciting new author Evan Lanning takes us up to today's

disturbing world of critical un-thinking, historical illiteracy, unrelenting group-think, and agenda-driven “truth-telling.” In this world of unconstructive, ineffective, and ultimately destructive passions of party spirit, Lanning asks us to consider the limits of our knowledge and to surrender our respective feelings in exchange for the nobler pursuit of truth rooted in fact. Only when we recognize how much we do not know will we be able to find our way through this darkened world. Only when we realize how much humanity cannot know will we understand our need for a deeper source of meaning. In *The Global and American Spirit*, Lanning attempts to pierce through the darkness of political acquiescence by asserting that we must lift our eyes to the light of Truth and stand upon the shoulders of the greats in order to see the American spirit reborn. Lanning appeals to the American people to take heart once again that “the energy, the faith, [and] the devotion which we bring to this endeavor will light our country and all who serve it.” In short, he asks Americans to rekindle Faith, in order that “the glow from that fire can truly light the world!”

To My Dear Child Apollonia Blumauer, Veronica Blumauer, 2024-01-27 *To My Dear Child In Loving Memory* is a collection of quotes born from the minds of some brilliant characters in the history of our world, both men and women who were able to convey through their words the true essence of what is really important in life. These quotes have been assembled in this

volume by a mother with a simple purpose in mind: to pass and share the “basic things” she wishes her child to know about life. It’s a wish of happiness as well as a reminder to never take for granted what we are and forget where we wish to go. Apollonia Blumauer (January 29, 1965) In 1988, she obtained the title of engineer of mathematics at the University of Ljubljana. For all her life, she has been captivated by Microsoft products and everything they’ve allowed people to do. Her work experience is primarily in the production and introduction of new technologies, although she is also interested in technologies that should not be introduced. She occasionally engages in political activity with her daughter, Veronica. Veronica Blumauer was born on September 15th, 2006, in Ljubljana. She achieved great success in her elementary school education, where teachers of English, music, engineering, and technology, as well as home economics, were particularly encouraged. She is currently in middle school and hopes to become a computer engineer. She is also passionate about space and cultivates the ambition to become an astronaut. Furthermore, she enjoys reading popular science books.
