*The Ancient Greek Hero in 24 Hours* Gregory Nagy, 2020-01-10 The ancient Greeks' concept of "the hero" was very different from what we understand by the term today. In 24 installments, based on the Harvard course Nagy has taught and refined since the 1970s, *The Ancient Greek Hero in 24 Hours* explores civilization's roots in Classical literature—a lineage that continues to challenge and inspire us.

*Fear of Diversity* Arlene W. Saxonhouse, 1995-05 This wide-ranging and provocative book locates the origin of political science in the everyday world of ancient Greek life, thought, and culture. Arlene Saxonhouse contends that the Greeks, confronted by the puzzling diversity of the physical world, sought an unseen and unifying force that would constrain and explain it. This drive toward unity did more than place the mind over the senses: it led the Greeks to play down the very real differences - in particular the female, the family, and sexuality - in both their political and personal lives. While the dramatists and Plato captured the tragic consequences of trying to do so, it was not until Aristotle and his *Politics* did the Greek world - and its heirs - have a true science of politics, one capable of embracing diversity and accommodating conflict. Much of the book's force derives from Saxonhouse's masterful interweaving of Greek philosophy and drama, her juxtaposition of the thought of the pre-Socratics, Plato, and other philosophers to the cultural life revealed by such dramatists as Aristophanes and Aeschylus. Her approach opens up fresh understandings of such issues as the Greeks' fear of the feminine and their attempts to ignore the demands that gender, reproduction, and the family inevitably make on the individual and the family.

The Fear of Diversity represents an important contribution to political philosophy, classics, and gender studies.

**Chariton of Aphrodisias and the Invention of the Greek Love Novel** Stefan Tilg,2010-05-06 The best known variety of the ancient novel - sometimes identified with the ancient novel tout court - is the Greek love novel. The question of its origins has intrigued scholars for centuries and has been the focus of a great deal of research. Stefan Tilg proposes a new solution to this ancient puzzle by arguing for a personal inventor of the genre, Chariton of Aphrodisias, who wrote the first Greek (and, with that, the first European) love novel, *Narratives about Callirhoe*, in the mid-first century AD. Tilg's conclusion is drawn on the basis of two converging lines of argument, one from literary history, another from Chariton's poetics, and will shed fresh light upon the reception of Latin literature in the Greek world.

**Dialogues of Love and Government** Alice Spencer,2007 *Dialogues of Love and Government* examines the use of the pseudo-Boethian didactic dialogue form in a wide range of Medieval texts on the theme of love by authors including Machaut, Froissart, Dante, Chaucer, Gower, Usk and Hoccleve. Although the broad, almost universal influence of Boethius in the Middle Ages has been much documented, the present study can be said to break new ground on several fronts. Firstly, whereas scholars have so far tended to focus on the visionary, Apocalyptic conventions deployed in the *Consolatio* and / or its stoical conclusions, this is the first study to examine the influence of the text qua philosophical dialogue. Secondly, *Dialogues of Love and Government* contains the first thorough exploration of the recurrent binding together of the dialogue form with the courtly love theme in the Middle Ages, proposing a theory that the origins of such a connection might be traced back to the ancient association between Socratic / Platonic elenchus and the spirit Eros. Finally, it analyses the political implications of this relationship, suggesting that the vertical trajectory of the *oerotic* dialogue, with its abstraction away from the many to the one, naturally lends itself to the elitism and absolutism of Platonic politics. The frequent ambiguity and irony of courtly love dialogues *à* the fact that dialogism, to borrow a term from Bakhtin, is rarely fully overcome - can thus be read as implying scepticism about, or even an outright rejection of notions of love and politics which are Platonic in origin.
