Eclipse (Saga Crepúsculo 3) Stephenie Meyer,2010-12-10 «¿Te gustaría oír mi historia, Bella? No tiene un final feliz, pero ¿cuál de nuestras existencias lo tiene? Estaríamos debajo de una lápida si hubiéramos tenido un desenlace afortunado.» Bella se encuentra de nuevo en peligro: una serie de misteriosos asesinatos está sembrando el pánico en la localidad y hay un ser maligno tras ella, sediento de venganza. Además, tendrá que elegir entre su amor por Edward y su amistad con Jacob, consciente de que su decisión podrá desencadenar definitivamente la guerra entre vampiros y hombres lobo. Mientras se va acercando su graduación se le presenta un nuevo dilema mucho más complejo: vida o muerte. Pero ¿cuál es cuál? La «Saga Crepúsculo», en la que se incluyen los títulos Crepúsculo, Luna nueva, Eclipse, Amanecer, La segunda vida de Bree Tanner y la Guía ilustrada oficial, ha vendido ya cerca de 155 millones de copias en todo el mundo y más de 3 millones de ejemplares solo en España.

El deseo femenino en el cine español (1939-1975) Nuria Bou,Xavier Pérez,2022-01-20 Este libro explora la presencia del deseo femenino que contienen las imágenes fílmicas del cine español producido durante el franquismo. El deseo aparece, en el marco filmográfico estudiado, como una fuente de resistencia simbólica y figurativa a las consignas represivas de la ideología censora. En la primera parte del libro se plantea una clasificación de los principales modelos de mujer que traspasaron los imaginarios cinematográficos durante las cuatro décadas del franquismo. El cuerpo-hogar, la mujer-patria, el cuerpo místico, la virgen casadera, el cuerpo-espectáculo, la mujer moderna y la mujer-monstruo constituyen arquetipos cuyo examen pormenorizado permite descubrir las diferentes formas del deseo que la figuración femenina podía convocar, más allá de que la mujer se conformara con una vida doméstica, subordinada al marido o al orden patriarcal. En la segunda parte del libro se hace un recorrido por la filmografía de algunas de las principales actrices que encarnaron, matizaron e hicieron evolucionar dichos arquetipos: Aurora Bautista, Analía Gadé, Emma Penella, Josita Hernán, Lola Flores, Sara Montiel, Carmen Sevilla, Marisol, Concha Velasco, Geraldine Chaplin, Teresa Gimpera y Helga Liné. Todas ellas adoptaron, en su forma de actuar, una sugestiva poética de afirmación de los deseos femeninos. Siguiendo el mismo modelo de análisis de su anterior libro *El cuerpo erótico de la actriz durante los fascismos: España, Italia, Alemania (1939-1945)*, Núria Bou y Xavier Pérez han convocado a un nutrido grupo de especialistas en cine español y estrellato fílmico para analizar

la gestualidad, la fuerza expresiva de los cuerpos y las miradas de unas intérpretes que desbordaron, a veces de forma más visible, a veces de manera más sutil, las pautas de contención que el Régimen había exigido a las mujeres de la época.

La Guerra Civil española, una visión bibliográfica VV. AA.,2017-03-14 La bibliografía sobre la Guerra Civil no ha cesado de aumentar, ni dentro ni fuera de España. Esta tendencia se observa desde hace varios años y nada hace pensar que vaya a disminuir en los próximos. En 2016 el número de publicaciones se habrá incrementado, pues no en vano se cumple el octogésimo aniversario del comienzo del conflicto. Los años entre 2016 y 2019 se perfilan como un período en el que los interesados en lo que parece ser un tema inagotable centrarán una parte sustancial de sus investigaciones. Y esto con independencia de que el mercado no siempre se muestre tan acogedor como antes de la larga crisis económica que sufre, entre otros países, España. Este libro no trata de hacer un inventario más o menos completo de todo lo editado sobre la Guerra Civil, eso hubiera sido una tarea quimérica. Es imposible que transcurra una semana sin que se publique algún libro y no es infrecuente que aparezcan varios. Se trata de ofrecer a los lectores una orientación valorativa. Los autores han tenido total libertad para seleccionar aquellos títulos que han querido comentar y para descartar los que no les han parecido tan interesantes o que, por cualesquiera otras razones, no han deseado incluir. Hay títulos que, siendo susceptibles de enfoques varios, aparecen no en uno sino en varios artículos. No lo hemos impedido, y sí alentado, porque implícitamente con ello ofrecemos al lector dos o más formas de enfocar un mismo libro.

Crepusculo Stephenie Meyer,2007-09-30 Bella debe elegir entre su amistad con el hombre lobo Jacob y su relación con el vampiro Edward, pero al ser Seattle devastada por una serie misteriosa de matanzas, los tres tienen que decidir si sus vidas personales son más importantes que el bienestar de una ciudad entera.

The Life of the Soul in Early Modern Spanish Literature and Culture Esther Fernández,2025-04-07 Understanding the soul's essence is an elusive pursuit, rendering any attempt to write about it akin to grasping at a mirage. As a sublime subject, the soul has captivated human thought for centuries. How do we approach it? How can we define its boundaries? This exploration offers an experimental investigation into the soul's complexities during one of Spain's most turbulent periods—the dawn of modernity. Set against the spiritual backdrop of the 17th century, these reflections examine how materiality ensnared individuals in artifice, often neglecting expansionism's social and political consequences. The Twelve Years' Truce (1609) and the Thirty Years' War (1618-1648) marked critical moments of instability, further compounded by economic depression and social turmoil. In this landscape of despair, the Spanish soul sought refuge inwardly and through indulgence in worldly pleasures. Through metaphysical inquiry, emotional depth, and the role of animated matter in art and theater, this book reflects on existence amid the illusions of early modern Spain.

Violence Toby Miller,2020-10-22 Using discourses from across the conceptual and geographical board, Toby Miller argues for a different way of understanding violence, one that goes beyond supposedly universal human traits to focus

instead on the specificities of history, place, and population as explanations for it. Violence engages these issues in a wide-ranging interdisciplinary form, examining definitions and data, psychology and ideology, gender, nation-states, and the media by covering several foundational questions: how has violence been defined, historically and geographically? has it decreased or increased over time? which regions of the world are the most violent? does violence correlate with economies, political systems, and religions? what is the relationship of gender and violence? what role do the media play? This book is a powerful introduction to the study of violence, ideal for students and researchers across the human sciences, most notably sociology, American and area studies, history, media and communication studies, politics, literature, and cultural studies.

Repensar la sostenibilidad ENRÍQUEZ SÁNCHEZ José María ,DUCE DÍAZ Carmen ,MIGUEL GONZÁLEZ Luis Javier ,2021-01-11 La sostenibilidad, cualidad de lo sostenible, hace referencia a un proceso que puede alargarse en el tiempo. Cuando este proceso lo referimos a cuestiones socio-ecológicas, comprobamos cómo, desde hace ya largo tiempo, no son pocas las voces acreditadas que han puesto sobre aviso del progresivo deterioro ecológico y sus consecuencias perjudiciales para la vida humana. Nuestra obra parte de estas negatividades para repensar la idea de sostenibilidad en sus justos términos, y así dar cabida a una variedad de aportaciones que ayuden a restituimos dentro de los límites ecosistémicos.

La educación política de las masas Jorge Costa Delgado,2019-09-09 En España el tránsito del siglo xix al xx fue convulso. La humillante derrota de 1898 y las desastrosas campañas marroquíes vinieron a coincidir con la gradual eclosión de una masa obrera creciente. Con la inestabilidad de fondo y el deseo de la clase popular de participación política, un grupo de jóvenes burgueses, llamados a constituir la elite intelectual del país, comenzó a cuestionar un régimen corrupto y obsoleto. Esta prometedora generación se propuso como objetivo formar políticamente a la sociedad española, pero ¿era posible que la elite cuidara de los intereses de los desfavorecidos? ¿Qué relación cabía esperar entre esta y las masas? ¿No podían las clases populares participar en la política sin supervisión? En *La educación política de las masas*. Capital cultural y clases sociales en la Generación del 14, Jorge Costa Delgado analiza la relación entre la elite intelectual y las clases populares. Este debate, cerrado en falso a lo largo de la historia, resurge cada vez que se reabre la batalla por la educación política de las masas, sin ellas, a pesar de ellas.

Russian as a Heritage Language Olesya Kisselev,Oksana Laleko,Irina Dubinina,2024-04-16 *Russian as a Heritage Language: From Research to Classroom Applications* brings together linguistically and pedagogically oriented research traditions in a comprehensive review of current Russian heritage language (HL) studies. Divided into three parts, the collection offers a variety of frameworks and approaches spanning research on HL speakers' linguistic and pragmatic

competence, literacy development, and sociocultural characteristics of Russian in diaspora. Presenting a wide range of new empirical findings, the volume explores topics at the forefront of HL studies, from assessment of HL learners' linguistic competence and language attitudes to research on communities and institutional affordances impacting HL acquisition and maintenance. Each chapter connects current research with specific classroom applications, presenting Russian as a global language in various sociopolitical and majority-language contexts. Combining methodological rigor with theoretical insights across diverse areas of language study, Russian as a Heritage Language advances the field of HL pedagogy and serves as essential reading for HL educators and researchers as well as for linguists studying bilingualism.

Defamiliarizing Japan's Asia-Pacific War W. Puck Brecher, Michael W. Myers, 2019-10-31 This wide-ranging collection seeks to reassess conventional understanding of Japan's Asia-Pacific War by defamiliarizing and expanding the rhetorical narrative. Its nine chapters, diverse in theme and method, are united in their goal to recover a measured historicity about the conflict by either introducing new areas of knowledge or reinterpreting existing ones. Collectively, they cast doubt on the war as familiar and recognizable, compelling readers to view it with fresh eyes. Following an introduction that problematizes timeworn narratives about a "unified Japan" and its "illegal war" or "race war," early chapters on the destruction of Japan's diplomatic records and government interest in an egalitarian health care policy before, during, and after the war oblige us to question selective histories and moral judgments about wartime Japan. The discussion then turns to artistic/cultural production and self-determination, specifically to Osaka rakugo performers who used comedy to contend with state oppression and to the role of women in creating care packages for soldiers abroad. Other chapters cast doubt on well-trod stereotypes (Japan's lack of pragmatism in its diplomatic relations with neutral nations and its irrational and fatalistic military leadership) and examine resistance to the war by a prominent Japanese Christian intellectual. The volume concludes with two nuanced responses to race in wartime Japan, one maintaining the importance of racial categories while recognizing the "performance of Japaneseness," the other observing that communities often reflected official government policies through nationality rather than race. Contrasting findings like these underscore the need to ask new questions and fill old gaps in our understanding of a historical event that, after more than seventy years, remains as provocative and divisive as ever. *Defamiliarizing Japan's Asia-Pacific War* will find a ready audience among World War II historians as well as specialists in war and society, social history, and the growing fields of material culture and civic history.

Latin America and the Caribbean (LAC) Report International Assessment of Agricultural Knowledge, Science, and Technology for Development (Project), 2009 The International Assessment of Agricultural Knowledge, Science, and Technology for Development (IAASTD) looks realistically at how we could effectively use agriculture/AKST to help us meet development and sustainability goals. An unprecedented three-year collaborative effort, the IAASTD involved more than 400

authors in 110 countries and cost more than \$11 million. It reports on the advances and setbacks of the past fifty years and offers options for the next fifty years. The results of the project are contained in seven reports: a Global Report, five regional Sub-Global Assessments, and a Synthesis Report. The Global Report gives the key findings of the Assessment, and the five Sub-Global Assessments address regional challenges. The volumes present options for action. All of the reports have been extensively peer-reviewed by governments and experts and all have been approved by a panel of participating governments. The Sub-Global Assessments all utilize a similar and consistent framework: examining and reporting on the impacts of AKST on hunger, poverty, nutrition, human health, and environmental/social sustainability. The five Sub-Global Assessments cover the following regions: Central and West Asia and North Africa (CWANA) East and South Asia and the Pacific (ESAP) Latin America and the Caribbean (LAC) North America and Europe (NAE) Sub-Saharan Africa (SSA)

Eclipses José Maza, 2019-04-15 Los fenómenos astronómicos nos han obsesionado desde tiempos inmemoriales, en especial los que se vinculan con el Sol, fuente principal de energía de nuestra Tierra. Por eso los eclipses tienen un lugar especial en la historia de la humanidad, y el hecho de que ocurran dos durante los próximos años ha motivado al profesor José Maza a introducirnos en el tema. Cómo comprendían los antiguos los eclipses de Sol y Luna, una breve historia del Sol y de los movimientos de la Tierra, además de las diversas posibilidades y nombres que reciben los eclipses según cómo se ven desde ciertas partes de la superficie terrestre, son solo algunas de las materias que son explicadas aquí de manera simple y llana.
