DreamWorks Animation Sam Summers,2020-06-30 DreamWorks is one of the biggest names in modern computer-animation: a studio whose commercial success and impact on the medium rivals that of Pixar, and yet has received far less critical attention.The book will historicise DreamWorks' contribution to feature animation, while presenting a critical history of the form in the new millennium. It will look beyond the films' visual aesthetics to assess DreamWorks' influence on the narrative and tonal qualities which have come to define contemporary animated features, including their use of comedy, genre, music, stars, and intertextuality. It makes original interventions in the fields of film and animation studies by discussing each of these techniques in a uniquely animated context, with case studies from Shrek, Antz, Kung Fu Panda, Madagascar, Shark Tale, Bee Movie, Trolls and many others. It also looks at the unusual online afterlife of these films, and the ways in which they have been reappropriated and remixed by subversive online communities.

DIR 8.5 STUDIO, ROBBINS, 2001-08-20 There are things that Flash does badly or not at all—namely, sound and 3D. These two also happen to be the hottest areas for web development, as more and more segments of the entertainment industry realise that for sound and 3D, and a heavyweight project, Director is the tool of choice. Director has long been established as the premier multimedia authoring tool. Version 8 brought closer web focus. But Director 8.0 did not include

Flash asset management, nor was it capable of working in 3D. With the upgrade to 8.5, Director has become an important Flash-compatible 3D development tool. This integration of two of Macromedia's most exciting graphics tools, as well as the inclusion of a sophisticated 3D modelling environment, mean that Director 8.5 is not a half-version so much as a rapid response to a burgeoning and demanding market. Following the multi-author single-voice Studio format, this book brings together experts in the many different facets of Director lore and technique, programming and modelling. What you'll learnWho this book is for Multimedia designers interested in working with the net and/or multimedia computer graphics Flash 5 users who need to deepen and perfect their Director skills, required for working with 3D and more sophisticated interactivity than they can achieve with Flash
