**Kristie Oates**

**Scaffolding Language, Scaffolding Learning** Pauline Gibbons, 2002 Gibbons begins with a strong theoretical underpinning for her practice, drawing on a functional model of language, sociocultural theories of learning, and current research on second-language development. After supporting her view that the regular curriculum offers the best language-learning environment for young ESL students, Gibbons demonstrates the ways in which content areas provide a context for the teaching of English skills, from speaking and listening to reading and writing. These skills can be integrated in the learning of diverse subjects as Gibbons illustrates with a wide range of teaching and learning activities across the curriculum, supplemented with programming and assessment formats and checklists.--BOOK JACKET.

**Taking the PYP Forward** Simon Davidson, Steven Carber, 2009 The International Baccalaureate Primary Years Programme stands in a proud tradition of reflective educators incorporating best practice into international schools. For the PYP to maintain relevance in education today, inquiry has to be rethought, refreshed and reapplied. Taking the PYP Forward does exactly that. Raising many questions and recognising the new challenges facing educators, this collaborative work brings together voices from both within and outside of the PYP. Intending to broaden our view of inquiry and circulate fresh thinking about the relevance of the PYP for all areas of learning, this is an essential contribution.

**The language dimension in all subjects** Jean-Claude Beacco, Mike Fleming, Francis Goullier, Eike Thürmann, Helmut Vollmer, Joseph Sheils, 2016-10-24 Mastering the language of schooling is essential for learners to develop the skills necessary for school success and for critical thinking. It is fundamental for participation in democratic societies, and for social inclusion and cohesion. This handbook is a policy and working document which promotes convergence and coherence between the linguistic dimensions of various school subjects. It proposes measures to make explicit - in curricula, pedagogic material and teacher training - the specific linguistic norms and competences which learners must master in each school subject. It also presents the learning modalities that should allow all learners, and in particular the most vulnerable among them, to benefit from diversified language-learning situations in order to develop their cognitive and linguistic capacities.

*Language Learning in New English Contexts* Rita Elaine Silver, Lubna Alsagoff, Christine C M Goh, 2011-10-27 This edited volume is dedicated to the exploration of English language acquisition and development outside of the largely monolingual environments of North America, the United Kingdom and Australia. Specifically, the studies investigate different facets of

English language learning in Singapore, and uses this experience to forge connections with other New English contexts. Using empirical data drawn from a range of language classrooms, the contributors emphasise the place of education within a global framework of English language learning. In so doing they examine economic, social and political factors influencing language education, and present a refreshingly global perspective on English language acquisition. This comprehensive examination of language learning in New English contexts will be of interest to researchers in applied linguistics and world Englishes.

**The Routledge Handbook of Content and Language Integrated Learning** Dario Luis Banegas, Sandra Zappa-Hollman, 2023-07-03 Content and language integrated learning (CLIL) is an increasingly popular educational approach given its dual focus on enabling learners to acquire subject-matter through an additional language, while learning this second language in tandem with content. This Handbook provides a comprehensive overview of recent CLIL developments, illustrating how CLIL has been uniquely conceptualised and practised across educational and geographical contexts. Divided into six sections, covering language and language teaching, core topics and issues, contexts and learners, CLIL in practice, CLIL around the world, and a final section looking forward to future research directions, every chapter provides a balanced discussion of the benefits, challenges and implications of this approach. Representing the same diversity and intercultural understanding that CLIL features, the chapters are authored by established as well as early-career academics based around the world. The Routledge Handbook of Content and Language Integrated Learning is the essential guide to CLIL for advanced students and researchers of applied linguistics, education and TESOL.

Asset-Based Language and Literacy Tonya Ward Singer, 2025-06-11 Ensure multilingual learners thrive in every classroom, every day. **Academic Language In Second Language Learning** Christian J. Faltis, M. Beatriz Arias, 2013-03-01 Language in academic settings, also referred to as academic language, has gained attention in the field of second language learning owing to new understandings of the complexities of language inherent in learning academic content, and new efforts to assess English learners' language proficiency in the context of school learning. The concept of academic language as distinct from social language has been in the academic literature since the mid-1950s, and surfaced as a major construct in the field of bilingual education in the 1980s. Many readers will be familiar with the ideas of BICS and CALP, first introduced by Jim Cummins in the 1980s. This book presents a critique of academic language as a separable construct from social language, and introduces current research efforts to understand how English learners interact, interpret, and show understanding of language in academic contexts in ways that re-think and go beyond the distinction between social and academic language. The book is organized into three main sections, each with a range of chapters that consider how academic language plays into how children and youth learn academic content as emergent bilingual students in school settings. A Foreword and Afterword offer commentary on the book and its contents. The intended audience for this book is graduate students, teacher educators, and researchers interested in issues of language and content learning for English learners, the new mainstream of schools across the nation. There is something for a wide range of readers and students of second language acquisition in this volume.

Language & Learning Marie Emmitt, Linda R. Komesaroff, John Pollock, 2006 The fourth edition of *Language and Learning* continues to provide an explanation of language acquisition and use, for Australian teacher-education students and teachers. The aspects of language explored include: the purposes and uses of language; the linguistic basis of language; language learning; the influence of new technologies on language and learning; and the implications of language knowledge for teaching. [Back cover, ed].

**Teaching Learners of English in Mainstream Classrooms (K-8)** Linda New Levine, Mary Lou McCloskey, 2009 *Teaching Learners of English in Mainstream Classrooms* is a unique resource designed to help K-8 classroom teachers integrate language learning into the content curriculum. This book helps teachers teach their grade level curriculum even though they may have English language learners in their classrooms. By using the strategies provided, teachers can promote content achievement for all of their students. Specifically written for content teachers, Linda New Levine and Mary Lou McCloskey's clear and friendly writing style emphasizes practical application of known second language learning principles. The authors offer classroom teachers practical strategies and tools to integrate content and language learning, accelerating the academic achievement of their students. Techniques for developing reading writing and speaking skills in the content areas are also emphasized.

*Teaching Writing in a Title I School, K-3* Nancy L. Akhavan, 2009 You know the challenges. In your Title I school you have students who are already at risk. Imagine what could happen if you could catch them up, forestall learning issues before they are entrenched, put them on equal footing with their peers. Nancy Akhavan has done it--in school after school. In *Teaching Writing in a Title I School* she shows you how to craft a rich literacy world where all your students thrive. The first step you can take is to teach them to write. Really. Teaching children to write well is the key to helping them express themselves. It's also a scaffold to guide their thinking and understanding. It just might solve your teaching problems. You can ensure that all children learn, and you can close the achievement gap. Nancy's guidance is as practical as it is effective. Her carefully crafted planning tools, lessons, and graphic organizers make writing workshop fit seamlessly into your day. Her classroom workshop routines promote student engagement and provide focus. You'll learn how to organize units of study using the lessons from your existing writing program. State standards and meaningful assessment suddenly become manageable. You'll also find effective intervention activities for students who struggle and tips for teaching English learners to write. This book is a must-have resource for teaching to engage all your students, ensure learning, and effectively intervene when students need it. With its companion, *Teaching Reading in a Title I School*, individual teachers, teachers studying together in professional learning communities, and preservice teachers will find the tools they need to build literacy instruction that guides all their students to high achievement.
