The Ultimate Anabolic Cookbook 2. 0 Greg Doucette, 2021-05 NEW & EXCLUSIVE Coach Greg Recipes! Mouth-Watering Sweet & Savory Varieties! HUGE Collection of EASY & FULFILLING Dishes EASY, BULLSHIT-FREE Cooking! Vegetarian & Vegan Friendly! The real book with 'apple poop' in it and recipes adjusted. Check comments under this thread, I'm tired of people posting non sense, if you don't believe it find another copy or buy the book. There are some common issues with this copy, which if you're wondering about I'll post below: Hyperlinks are not working. This is because the file is a copy of the original book. The original book could not be edited (as it was locked) so a copy had to be made, when the copy was made this broke some functionality such as the hyperlinks. There are white bars on some pages sometimes covering some macro/protein information. This is to cover the watermark email of the buyer of the book. This book is the FIRST RELEASE. Since then there were many more releases/updates to the real book that aimed to correct some mistakes and typos in the recipes. These typos/mistakes WERE in the real book, they just got fixed later after people noticed them so for this reason if you see a typo/mistake or something that doesn't make too much sense, it's not fake, this is how it was originally. This issue is not that big and it affects a handful of recipes like the blueberry loaf recipe which was missing an ingredient, 95%+ of the book is still exactly the same as even the up-to-date versions.
