Behind the Mask of Hypocrisy: The Hidden Faces of Deception Joseph Ngoma ,2025-01-01 Behind the Mask of Hypocrisy: The Hidden Faces of Deception by Joseph Habimana Ngoma We live in an age where appearance is worshiped more than truth. People smile in public but bleed in secret. Churches perform holiness while hiding sin. Nations speak of justice yet practice corruption. This is the masked generation — a world where hypocrisy wears the robes of religion, the language of love, and the face of light. In this powerful and prophetic book, Joseph Habimana Ngoma tears through the illusions that have deceived families, churches, and societies. With piercing biblical insight, he exposes how hypocrisy — once a mere behavior — has become a ruling spirit shaping politics, religion, business, and personal life. Each chapter unmasks a new layer of deceit, from spiritual pretense to moral compromise, revealing how pride, falsehood, and hidden sin destroy the human soul. Yet this book is not a message of condemnation, but of redemption. It calls every reader to remove the mask, return to truth, and walk in the light of Christ. Behind the Mask of Hypocrisy is both a warning and a wake-up call — a trumpet for a sleeping generation to repent, be purified by the fire of the Holy Spirit, and live with one face before God and man. “For nothing is hidden that will not be revealed, nor anything secret that will not be made known.” — Luke 8:17

Old Stories Retold G. Andrew Stuckey,2010-01-01 Old Stories Retold delves into intertextual resonances cultivated with traditional literature in modern Chinese fiction from both the mainland and Taiwan. These resonances develop alternative historical sensibilities which reveal the effects of modernization on Chinese culture.

Swami Vivekananda and Non-Hindu Traditions Stephen E. Gregg,2019-03-15 The Hindu thinker Swami Vivekananda (1863-1902) was and remains an important figure both within India, and in the West, where he was notable for preaching Vedanta. Scholarship surrounding Vivekananda is dominated by hagiography and his (mis)appropriation by the political Hindu Right. This work demonstrates that Vivekananda was no simplistic pluralist, as portrayed in hagiographical texts, nor narrow exclusivist, as portrayed by some modern Hindu nationalists, but a thoughtful, complex inclusivist. The book shows that Vivekananda formulated a hierarchical and inclusivistic framework of Hinduism, based upon his interpretations of a four-fold system of Yoga. It goes on to argue that Vivekananda understood his formulation of Vedanta to be universal, and applied it freely to non-Hindu traditions, and in so doing, demonstrates that Vivekananda was consistently critical of ‘low level’ spirituality, not only in non-Hindu traditions, but also within Hinduism. Demonstrating that Vivekananda is best

understood within the context of 'Advaitic primacy', rather than 'Hindu chauvinism', this book will be of interest to scholars of Hinduism and South Asian religion and of South Asian diaspora communities and religious studies more generally.

Mad Men Unzipped Karen E. Dill-Shackleford, Cynthia Vinney, Jerri Lynn Hogg, Kristin Hopper-Losenicky, 2015-12-01

This is the story of the Mad Men fan phenomenon: how the show and its fans distinguished themselves in a market where it's hard to make an impression, not unlike the driven ad execs at the center of the show. In this book, four media psychologists who also just happen to be dedicated Mad Men fans explore how the show's viewers make meaning from fictional drama. The authors also interviewed several contemporary advertising industry professionals, getting their inside view of the business in its modern guise and what they make of the show's vision of their past. The result is cutting-edge psychological research that crunches and codes online fan commentary to understand the ways that people use the show to debate complex social issues, from sex and alcohol to gender roles, parenting, and advertising itself. What do the 1960s mean to us today, and how well does the twenty-first century measure up against that famously turbulent decade? Which characters do fans identify with—and which ones do they love to hate? How would fans unfurl the Mad Men storylines if they were in charge? What makes a good man, and has it changed over time? How should husbands and wives treat each other, and how should parents treat their children? In answering these questions, the authors explore not just the online commentary but also Mad Men fans' fan fiction, cosplay, cocktail making, and vintage furniture collecting. Whether tweeting as one of the main characters (or just a lowly mail clerk), setting Peggy up with the man who'll treat her right, or figuring out just which "Mad Man" they are at heart, fans integrate the show into their lives and use it to make sense of their own choices in work, leisure, and love.

Five Seconds to Air Bob Losure, 1998 In Five Seconds to Air, Losure shares his life story with great fun and panache as

he chronicles his roots in Tulsa, Oklahoma, and his journey to Atlanta to anchor at CNN Headline News, a position he held for eleven years. He brings us face-to-face with some of the stories and events that have shaped our lives, including the Persian Gulf War and the 1989 San Francisco earthquake, as he recounts these events from the inside perspective of the CNN anchor who kept Americans informed while the news broke and unfolded. On a more serious note, Losure shares a very personal battle with cancer and his subsequent chemotherapy.

A Translator's Guide to Paul's First Letter to the Corinthians Robert G. Bratcher, 1982 The books in this Handbooks

series are full-range commentaries that deal with problems of the original text, interpretation, vocabulary analysis and

discourse structure. They also include analysis of translation problems that may occur, and they provide suggestions for dealing with such problems. Some translators, however, prefer material in a more condensed form and from which they can easily retrieve information. These guides do not take away from translators the responsibility to make their own decisions, but they do attempt to give them practical information and to alert them to pitfalls they may otherwise overlook. It is hoped that such information will enable a translator to prepare a translation that is faithful to the meaning of the original and that is presented in a style which is appropriate and effective in communicating the message to the reader.

Literary Theories in Praxis Shirley F. Staton, 1987 *Literary Theories in Praxis* analyzes the ways in which critical theories are transformed into literary criticism and methodology. To demonstrate the application of this analysis, critical writings of Roland Barthes, Harold Bloom, Cleanth Brooks, Jacques Derrida, Northrop Frye, Norman Holland, Barbara Johnson, Jacques Lacan, Adrienne Rich, and Robert Scholes are examined in terms of the primary critical stance each author employs—New Critical, phenomenological, archetypal, structuralist/semiotic, sociological, psychoanalytic, reader-response, deconstructionist, or humanist. The book is divided into nine sections, each with a prefatory essay explaining the critical stance taken in the selections that follow and describing how theory becomes literary criticism. In a headnote to each selection, Staton analyzes how the critic applies his or her critical methodology to the subject literary work. Shirley F. Staton's introduction sketches the overall philosophical positions and relationships among the various critical modes.
