Paul Booth

Fashion and Film Peter Bug, 2019-09-17 This book aims to explore various aspects of the use of moving images in fashion retail and fashion apparel companies in-store or online. The use of moving images is growing in numbers and in relevance for consumers. Films can be used in various forms by fashion businesses in traditional media like cinema or TV and in modern forms like in social media or moving images in high street stores. The book provides a data-oriented analysis of the state-of-the-art with certain future outlooks. Additional areas of covering fashion in moving images, such as 'fashion company identity films' or 'fashion and music videos' are covered in order to get a more complete analysis from a consumer influenced perspective.

The Rise of Transtexts Benjamin W.L. Derhy Kurtz, Mélanie Bourdaa, 2016-08-25 This volume builds on previous notions of transmedia practices to develop the concept of transtexts, in order to account for both the industrial and user-generated contributions to the cross-media expansion of a story universe. On the one hand exists industrial transmedia texts, produced by supposedly authoritative authors or entities and directed to active audiences in the aim of fostering engagement. On the other hand are fan-produced transmedia texts, primarily intended for fellow members of the fan communities, with the Internet allowing for connections and collaboration between fans. Through both case studies and more general analyses of audience participation and reception, employing the artistic, marketing, textual, industrial, cultural, social, geographical, technological, historical, financial and legal perspectives, this multidisciplinary collection aims to expand our understanding of both transmedia storytelling and fan-produced transmedia texts.

A Companion to Media Fandom and Fan Studies Paul Booth, 2018-02-26 A Companion to Media Fandom and Fan Studies offers scholars and fans an accessible and engaging resource for understanding the rapidly expanding field of fan studies. International in scope and written by a team that includes many major scholars, this volume features over thirty especially-commissioned essays on a variety of topics, which together provide an unparalleled overview of this fast-growing field. Separated into five sections—Histories, Genealogies, Methodologies; Fan Practices; Fandom and Cultural Studies; Digital Fandom; and The Future of Fan Studies—the book synthesizes literature surrounding important theories, debates, and issues within the field of fan studies. It also traces and explains the social, historical, political, commercial, ethical, and creative dimensions of fandom and fan studies. Exploring both the historical and the contemporary fan situation, the volume

presents fandom and fan studies as models of 21st century production and consumption, and identifies the emergent trends in this unique field of study.

Environmental Crisis in Young Adult Fiction A. Curry, 2013-02-18 This pioneering study is the first full-length treatment of feminism and the environment in children's literature. Drawing on the history, philosophy and ethics of ecofeminism, it examines the ways in which post-apocalyptic landscapes in young adult fiction reflect contemporary attitudes towards environmental crisis and human responsibility.

Exploring Seriality on Screen Ariane Hudelet, Anne Crémieux, 2020-10-25 This collective book analyzes seriality as a major phenomenon increasingly connecting audiovisual narratives (cinematic films and television series) in the 20th and 21st centuries. The book historicizes and contextualizes the notion of seriality, combining narratological, aesthetic, industrial, philosophical, and political perspectives, showing how seriality as a paradigm informs media convergence and resides at the core of cinema and television history. By associating theoretical considerations and close readings of specific works, as well as diachronic and synchronic approaches, this volume offers a complex panorama of issues related to seriality including audience engagement, intertextuality and transmediality, cultural legitimacy, authorship, and medium specificity in remakes, adaptations, sequels, and reboots. Written by a team of international scholars, this book highlights a diversity of methodologies that will be of interest to scholars and doctoral students across disciplinary areas such as media studies, film studies, literature, aesthetics, and cultural studies. It will also interest students attending classes on serial audiovisual narratives and will appeal to fans of the series it addresses, such as *Fargo*, *Twin Peaks*, *The Hunger Games*, *Bates Motel*, and *Sherlock*.

Digital Presences of Organizations Nathalie Pinède, Luc Massou, Patrick Mpondo-Dicka, 2024-08-13 Organizations communicate in complex and various ways, and the context is mainly characterized by the pervasiveness of the digital ecosystem, including the Web, social networks and the Internet of data. However, its information delivery cannot overlook the requirements of multicultural communications at a variety of levels. *Digital Presences of Organizations* highlights the communication roadblocks faced by organizations as they emerge, arising not only from issues encountered on their own websites, but also as they construct online narratives. This multi-faceted and multi-strategy digital presence of organizations is addressed via three main thematic axes. The first focuses on differentiated strategies (content, services, interaction) that can be observed depending on the types of organizations and their users. The second examines the cultural dimension of websites, ranging from the local to the global. Finally, the third focuses on the role of narration in organizations' online communication strategies.

Reagan as President Paul S. Boyer,1990 Ronald Reagan brought a new ideology and a new spirit to the American presidency, qualities which made him the most controversial President since FDR and which surely will stamp his administration as the Reagan era. This collection of almost a hundred articles and essays, edited with commentary by Paul Boyer, explores Reagan's domestic programs and foreign policies, focusing on the major public issues and controversies of the period. The President himself--his personality, his foibles, his presidential style--is also debated. The contributors range from Garry Wills and Donald Regan to James J. Kilpatrick and William F. Buckley, Jr. The result is an incomparable perspective on the Reagan presidency and a harvest of reading that is richly evocative of a lively and seminal era in American history.
