Guía para construir vínculos libres de bullying y cyberbullying María Zysman, Mónica Coronado, 2024-08-17 Guía para construir vínculos libres de bullying y cyberbullying de María Zysman y Mónica Coronado ofrece estrategias y recursos esenciales para familias y educadores. Este libro brinda un enfoque integral para prevenir y abordar el bullying y el cyberbullying, con herramientas prácticas y propuestas educativas para crear entornos seguros y solidarios. Ideal para quienes buscan combatir el maltrato y fomentar relaciones saludables en la escuela y en casa. Pocas heridas en la infancia y adolescencia son más dolorosas y perdurables que las que produce el bullying o el cyberbullying. Algo que hoy sabemos que pudo prevenirse, abordarse y sanarse oportunamente. Lo que suele causar aún más dolor en quienes lo padecieron es la indefensión vivida ante ese maltrato sistemático, propiciada por la indiferencia, tibieza, silencio o ausencia de intervenciones comprometidas de los adultos significativos y de acciones específicas y efectivas por parte de las instituciones. En esta línea, las autoras buscan ofrecer un andamiaje para la construcción de un programa integral de abordaje, ya que consideran las escuelas como espacios privilegiados para desarrollar acciones en pos de aprender a convivir en paz, resistir toda forma de crueldad y desarrollar lazos solidarios. El punto de partida es un enfoque sistémico e integral del contexto en donde emergen el bullying y el cyberbullying. A partir de él, se ofrecen múltiples recursos y estrategias, interrogantes y actividades que operan a modo de guía para profundizar y enriquecer una propuesta educativa que no llegue tarde, descuide o deje a niños, niñas y adolescentes solos y heridos.

Placing Critical Geography Lawrence D. Berg, Ulrich Best, Mary Gilmartin, Henrik Gutzon Larsen, 2021-11-29 This book explores the multiple histories of critical geography as it developed in 14 different locations around the globe, whilst bringing together a range of approaches in critical geography. It is the first attempt to provide a comprehensive account of a wide variety of historical geographies of critical geography from around the world. Accordingly, the chapters provide accounts of the development of critical approaches in geography from beyond the hegemonic Anglo-American metropolises. Bringing together geographers from a wide range of regional and intellectual milieus, this volume provides a critical overview that is international and illustrates the interactions (or lack thereof) between different critical geographers, working across a range

of spaces. The chapters provide a more nuanced history of critical geography, suggesting that while there were sometimes strong connections with Anglo-American critical geography, there were also deeply independent developments that were part of the construction of very different kinds of critical geography in different parts of the world. *Placing Critical Geographies* provides an excellent companion to existing histories of critical geography and will be important reading for researchers as well as undergraduate and graduate students of the history and philosophy of geography.

Global Media Giants Benjamin Birkinbine, Rodrigo Gomez, Janet Wasko, 2016-07-01 *Global Media Giants* takes an in-depth look at how media corporate power works globally, regionally, and nationally, investigating the ways in which the largest and most powerful media corporations in the world wield power. Case studies examine not only some of the largest media corporations (News Corp., The Microsoft Corporation) in terms of revenues, but also media corporations that hold considerable power within national, regional, or geolinguistic contexts (Televisa, The Bertelsmann Group, Sony Corporation). Each chapter approaches a different corporation through the lens of economy, politics, and culture, giving students and scholars a thoughtful and data-driven guide with which to interrogate contemporary media industry power.

La lección de August (Wonder) R. J. Palacio, 2014 Su cara lo hace distinto y él solo quiere ser uno más. Camina siempre mirando al suelo, la cabeza gacha y el flequillo tratando en vano de esconder su rostro, pero, aun así, es objeto de miradas furtivas, susurros ahogados y codazos de asombro. August sale poco. Su vida transcurre entre las acogedoras paredes de su casa, entre la compañía de su familia, su perra Daisy y las increíbles historias de La guerra de las galaxias. Este año todo va a cambiar, porque este año va a ir, por primera vez, a la escuela. Allí aprenderá la lección más importante de su vida, la que no se enseña en las aulas ni en los libros de texto: crecer en la adversidad, aceptarse tal como es, sonreír a los días grises y saber que, al final, siempre encontrará una mano amiga.--Back cover.

International Handbook of Mathematics Teacher Education: Volume 2, 2019-12-16 This second edition of the *International Handbook of Mathematics Teacher Education* builds on and extends the topics/ideas in the first edition while maintaining the themes for each of the volumes. Collectively, the authors look back beyond and within the last 10 years to establish the state-of-the-art and continuing and new trends in mathematics teacher and mathematics teacher educator education, and look forward regarding possible avenues for teachers, teacher educators, researchers, and policy makers to consider to enhance and/or further investigate mathematics teacher and teacher educator learning and practice, in particular. The volume editors provide introductions to each volume that highlight the subthemes used to group related

chapters, which offer meaningful lenses to see important connections within and across chapters. Readers can also use these subthemes to make connections across the four volumes, which, although presented separately, include topics that have relevance across them since they are all situated in the common focus regarding mathematics teachers. Volume 2, Tools and Processes in Mathematics Teacher Education, describes and analyze various promising tools and processes, from different perspectives, aimed at facilitating the mathematics teacher learning and development. It provides insights of how mathematics teacher educators think about and approach their work with teachers. Thus, as the second volume in the series, it broadens our understanding of the mathematics teacher and their learning and teaching.

Poetry and Loss Nicholas Roberts,2009 In a study which covers the entirety of Montejó's career as poet and essayist, this book examines how the work of this seminal Venezuelan writer explores and deals with the experiences of loss in the twentieth century. This represents the first book-length study in English of Montejó's work and the first monograph in any language to offer a sustained thematic analysis of his entire output. In the process, it serves to bring out from the academic shadows one of the most important and commanding poetic voices to emerge from Latin America to the last fifty years. -- Book Jacket.

Wonder - El capítol del Julian R.J. Palacio,2014-10-02 Més d'un milió de persones han llegit Wonder i s'han enamorat de l'Auggie Pullman, un nen normal i corrent amb una cara que no ho és tant. Ara els lectors tindran l'oportunitat de conèixer una mica més el personatge més controvertit del llibre: el Julian. Des del primer dia que es veuen, a les pàgines de Wonder, queda clar que l'Auggie i el Julian no seran mai amics, amb el Julian tractant l'Auggie com si tingués la pesta. Però, tot i que Wonder explicava la història de l'Auggie des de la perspectiva de sis personatges diferents, el punt de vista del Julian no el vam saber mai. El lector només podia especular sobre el que li devia passar pel cap. Fins ara. El capítol del Julian ens revela per fi com viu la història el culpable del bullying. ¿Per què és tan desagradable amb l'Auggie? ¿Té alguna possibilitat de redimir-se? En un món on el bullying entre els joves s'està convertint en una vertadera epidèmia, els llibres de la sèrie «Wonder» ofereixen una nova visió refrescant, necessària i esperançadora.
