Starchy Crops Waste Valorization Marney Pascoli Cereda,Olivier Francois Vilpoux,2025-11-17 Starchy Crops Waste Valorization: Recovery and Treatment, the fifth volume in the Underground Starchy Crops of South American Origin series, provides information on the applied level of producing and using starch from a range of plants grown in tropical and subtropical areas with South American origin. The book presents collecting information about products that are generally considered as waste and can therefore cause serious pollution problems in starch-processing industries. Edited by experts with a solid background in starch extraction research, the books in this series are aimed at anyone involved in research and development, new technology processes, quality control, and legislation. The Underground Starchy Crops of South American Origin book series brings information on the applied level of producing and using starch from a range of plants grown in tropical and subtropical areas that have South American origin. As the final volume in the series, Starchy Crops Waste Valorization: Recovery and Treatment enables stakeholders to valorize waste by transforming it into by-products that can reach the market and reduce processing costs. It also explains how to reduce or eliminate problems of environmental contamination. Residues covered are of two types: crop residues and industrial residues. - Thoroughly explores how to reduce waste and avoid environmental pollution - Presents the industrial wastes generated by raw material transformations - Includes the best use of co-products from lesser known crops as a way of valuing and protecting the environment

Public Health Jay Maddock,2012-05-16 Human behavior accounts for the majority of morbidity and premature mortality throughout the world. This book explores several areas of human behavior including physical activity, nutrition and food, addictive substances, gun violence, sexual transmitted diseases and more. Several cutting edge methods are also examined including empowering nurses, community based participatory research and nature therapy. Less well known public health topics including human trafficking, tuberculosis control in prisons and public health issues in the deaf community are also covered. The authors come from around the world to describe issues that are both of local and worldwide importance to protect and preserve the health of populations. This book demonstrates the scope and some of the solutions to addressing today's most pressing public health issues.

Combate à Exploração do Trabalho Infantil no Estado Brasileiro BRENNO AUGUSTO FREIRE MENEZES,2025-08-13 A obra retrata de forma demasiadamente analítica o atual cenário do trabalho infantil no Estado brasileiro, traçando

importante recorte a respeito do principal autor nacional no combate a essa problemática, o Ministério Público do Trabalho. Antes, serão retratadas importantes considerações sobre as principais formas de trabalho infantil com imersões interdisciplinares em importantes lições da sociologia, psicologia e serviço social. Ao final, será abordada importante e aprofundada análise da atuação do Parquet Trabalhista Brasileiro no combate à exploração do labor infantil, nos eixos: promocional, preventivo e repressivo por meio da atuação estratégica da Coordenadoria Nacional de Combate ao Trabalho Infantil e de Promoção e Defesa dos Direitos de Crianças e Adolescentes.

Los malogrados Lucas Petersen, 2024-04-26 A través de cinco atrapantes historias de escritores que murieron en plena juventud, Lucas Petersen compone una suerte de historia descentrada de la literatura argentina, en la que nombres y escenarios hoy olvidados iluminan algunas claves de distintas épocas que rara vez fueron puestas en primer plano. Horacio Mendizábal, un desconocido poeta negro que pudo haber inspirado el argumento inicial del Martín Fierro y murió clamando contra el racismo. Goycoechea Menéndez, rocambolesco figurón de la bohemia del 900, protagonista tanto de aventuras increíbles como de otras inventadas, quien se las arregló para fundar la ficción nacionalista en el Paraguay. Héctor Ripa Alberdi, el olvidado líder de la Reforma Universitaria que, con su inteligencia y contracción al trabajo y con su oratoria encendida e idealista dejó una marca profunda en cada persona que vivió con él esas jornadas históricas. José Luis Ríos Patrón, un joven crítico taciturno que terminó protagonizando uno de los episodios más viles que recuerda la chismografía literaria: su suicidio delante de su ex novia, María Esther Vázquez. Por último, Pepe Romeu, el multifacético autor de un libro imposible, A bailar esta ranchera, actor del Di Tella, embaucador, manager de rock, dealer de drogas, provocador, espiritualista y ¿suicida? Con el rigor investigativo y el afán narrativo que ha mostrado ya en otras investigaciones como El traductor del Ulises y Santiago Rueda: Edición, vanguardia e intuición, Petersen abre en estos cinco relatos biográficos un abanico de temas y trayectorias de vida que ofrecen atractivos tanto para el placer lector como para el conocimiento histórico.
