The Language of Mass Shooter Manifestos Emily Powell, 2025-05-30 Bringing together scholarship from corpus linguistics, forensic linguistics, and criminology, this book offers a nuanced exploration of moral agency in the pre-crime narratives of offenders. The volume seeks to complement existing literature in forensic linguistics, which often explore criminal narratives elicited after the crime with the benefit of hindsight, by examining texts written in the midst of events. Analyses draw on a corpus of over 200,000 words of manifestos and diaries written by four 'lone attackers' who perpetrated mass shootings, and put together accounts of their lives and the preparation for their crimes. Incorporating stylistic approaches to non-fiction texts with those from corpus linguistics, Powell explores the ways in which these texts influence perpetrators and future offenders and, more broadly, the role of narrative as it relates to harmful actions. A closing section includes a taxonomy of moral agency which may serve as the foundation for future research on understanding agency, responsibility, and offending from a linguistic perspective. This book will be of interest to scholars in forensic linguistics, corpus linguistics, stylistics, and criminology.

My Twisted World Logan K. Young, 2014-05-26 American poet Logan K. Young adds 137 annotations to Elliot Rodger's infamous manifesto.

Masculinity and Violent Extremism Joshua M. Roose, Michael Flood, Alan Greig, Mark Alfano, Simon Copland, 2022-08-30 This book explores men's attraction to violent extremist movements and terrorism. Drawing on multi-method, interdisciplinary research, this book explores the centrality of masculinity to violent extremist recruitment narratives across the religious and political spectrum. Chapters examine the intersection of masculinity and violent extremism across a spectrum of movements including: the far right, Islamist organizations, male supremacist groups, and the far left. The book identifies key sites and points at which the construction of masculinity intersects with, stands in contrast to and challenges extremist representations of masculinity. It offers an insight into where the potential appeal of extremist narratives can be challenged most effectively and identifies areas for both policy making and future research.

The Metaphor of the Monster Keith Moser, Karina Zelaya, 2020-10-15 The Metaphor of the Monster offers fresh perspectives and a variety of disciplinary approaches to the ever-broadening field of monster studies. The eclectic group of contributors to this volume represents areas of study not generally considered under the purview of monster studies,

including world literature, classical studies, philosophy, ecocriticism, animal ethics, and gender studies. Combining historical overviews with contemporary and global outlooks, this volume recontextualizes the monstrous entities that have always haunted the human imagination in the age of the Anthropocene. It also invites reflection on new forms of monstrosity in an era epitomized by an unprecedented deluge of (mis)information. Uniting researchers from varied academic backgrounds in a common effort to challenge the monstrous labels that have historically been imposed upon the Other, this book endeavors above all to bring the monster out of the shadows and into the light of moral consideration.

My Twisted World the Story of Elliot Rodger Elliot Rodger, 2014-05-25 A manifesto that lays out grievances in painstaking detail, titled: “My Twisted World,” describes stories from a childhood onward that seemed to have laid the foundation for anger towards women, “alpha males,” and society in general. Describing plans for a “Day of Retribution,” on which: “All of those beautiful girls I’ve desired so much in my life, but can never have because they despise and loathe me, I will destroy.” Rodger, 22, left six people dead in a knife and gun rampage in the Californian University of Isla Vista in May 2014, before apparently shooting himself in the head after a firefight with police. His killing spree began after he posted a chilling video on YouTube titled “Elliot Rodgers Retribution,” in which he threatened to slaughter women who had rebuffed him.

Advances in Experimental Political Philosophy Matthew Lindauer, 2023-09-21 Political philosophy asks questions of great importance to our lives, both as individuals and members of political communities: What is justice? What does the state owe to its citizens? Under which conditions are different forms of government likely to be stable? The relevance of empirical research to such questions, however, has been largely underexplored. Introducing experimental political philosophy as a burgeoning field of inquiry, this volume brings together leading scholars using empirical methods to shed light on questions of justice and politics, and encourages them to reflect on the relationship of their methodologies to less empirically-focused approaches. Chapters cover traditional topics including distributive justice, egalitarianism, property rights, and healthcare justice, as well as outlining new directions and applications, such as the problem of misogynistic extremist movements, the public justification of immigration enforcement, and the relationship between gender norms and support for care labor organizing. The result is a unique collection that paves the way for further debates in the field and meaningful reflection on what it means for political philosophy to be empirically informed.

Gender, Crime, and Justice Erin Katherine Krafft, Jo-Ann Della Giustina, Susan T. Krumholz, 2021-12-09 Gender, Crime, and Justice is a unique core textbook that introduces key concepts through case studies. Each chapter opens with a compelling case study that illustrates key concepts, followed by a narrative chapter that builds on the case study to introduce essential elements. Each chapter features pedagogical elements—learning objectives, key terms, review and study questions, and suggestions for further learning and exploration. In addition to the unique case study approach, this book is distinctive in its inclusion of LGBTQ experiences in crime, victimization, processing, and punishment. Gender, Crime, and Justice also

addresses masculinity and the role it plays in defining offenders and victims, as well as challenges posed by the gender gap in offending.
