

Mia Sebastian's Theme Piano

Y Pai

La La Land Hannah Lewis, 2024 This book offers a new look at the development, style, and reception of the 2016 film musical *La La Land*. Drawing on extensive personal interviews with the film's creators, it explores *La La Land*'s aesthetic approach to the film musical genre, its simultaneous engagement with and subversion of the classic Hollywood musical's stylistic and narrative expectations, the film's depiction of jazz, and the reception of the film.

Cinematic Faith William D. Romanowski, 2019-05-21 This engaging book explores how Christians can most profitably and critically hear, read, and view popular culture through the lens of film. William Romanowski highlights the benefits of a faith-informed approach to cinema that centers on art and perspective and shows how Christian faith contributes to the moviegoing experience, leading to a deeper understanding of movies and life. The book draws examples from classic and contemporary American movies and includes illustrative film stills. Additional resources for professors and students are available through Baker Academic's Textbook eSources.

When Music Takes Over in Film Anna K. Windisch, Claus Tieber, Phil Powrie, 2023-05-02 This open access collection deals with musical moments in film as one of the most pivotal and compelling issues of current film music research. Musical moments as defined by Amy Herzog occur when a musical number inverts the normal relationship between the image track and the soundtrack in a film in such a way that what we see is determined by what we hear. As one potential approach, this definition provokes a variety of perspectives to investigate the disruptive potential of these moments and numbers as a creative device in the production of audiovisual narratives. In this sense, the book responds to a need for an anthology that introduces students as well as scholars of cinema, musicology, media studies and cultural studies more broadly, to recent discourses in film music scholarship. The volume includes contributions by early career researchers as well as by established experts in the fields of musicology, film studies, media studies, and cultural studies, promoting cross-disciplinary collaboration in film music research.
