Jacob Hamblin, Linda M. Richards

Shooting the Messenger Andrew Fowler, 2018-04-17 If the Al-Qaeda terrorists who attacked the United States in 2001 wanted to weaken the West, they achieved their mission by striking a blow at the heart of democracy. Since 9/11 governments including those of the USA, the UK, France and Australia have introduced tough, intimidating legislation to discourage the legitimate activities of a probing press, so greatly needed after the Iraq War proved that executive government could not be trusted. Often hiding behind arguments about defending national security and fighting the war on terror, governments criminalised legitimate journalistic work, ramping up their attacks on journalists' sources, and the whistle-blowers who are so essential in keeping governments honest. Through detailed research and analysis, this book, which includes interviews with leading figures in the field, including Edward Snowden, explains how mass surveillance and anti-terror laws are of questionable value in defeating terrorism, but have had a 'chilling effect' on one of the foundations of democracy: revelatory journalism.

No Place to Hide Glenn Greenwald, 2014-05-13 Investigative reporter for The Guardian and bestselling author Glenn Greenwald, provides an in-depth look into the NSA scandal that has triggered a national debate over national security and information privacy. With further revelations from documents entrusted to Glenn Greenwald by Edward Snowden himself, this book explores the extraordinary cooperation between private industry and the NSA, and the far-reaching consequences of the government's surveillance program, both domestically and abroad -- \$c from publisher's Web site.

The Rhetorical Invention of America's National Security State Marouf Hasian Jr., Sean Lawson, Megan D. McFarlane, 2015-07-29 The Rhetorical Invention of America's National Security State examines the rhetoric and discourse produced by and constitutive of America's national security state. Hasian, Lawson, and McFarlane illustrate the importance of rhetoric to the expansion of the American national security state in the post-9/11 era through their examination of the global war on terrorism, enhanced interrogation techniques, drone crew stress, activities of Edward Snowden, rise of Special Forces, and popular representations of counterterrorism. The coauthors contend this expansion was not the result of lone, imperial executives or a nefarious state within a state, but was co-produced by elite and non-elite Americans alike who not only condoned, but also in many cases demanded, the expansion of the national security state. This work will be of interest to

scholars in communication studies and political science.

How America Lost Its Secrets Edward Jay Epstein, 2017 After details of American government surveillance were published in 2013, Edward Snowden, formerly a subcontracted IT analyst for the NSA, became the center of an international controversy: was he a hero, traitor, whistleblower, spy? Was his theft legitimized by the nature of the information he exposed? When is it necessary for governmental transparency to give way to subterfuge? Edward Jay Epstein [examines] these and other questions, delving into both how our secrets were taken and the man who took them--Amazon.com.

Connecting to the Living History of Radiation Exposure Jacob Hamblin, Linda M. Richards, 2022-11-14 This book highlights the multiple ways of telling stories of radiation exposure; they include stories about Japan, Australia, the United States, the Canadian Arctic, and more, and they probe the framing of major incidents such as Three Mile Island, Chernobyl, and Fukushima. All the chapters in this book are written by authors who participated in our work at Oregon State University and have benefited from hearing not only from scientists but also from those whose lives were directly affected by the history of radiation exposure. The question 'What is at stake when researching and narrating the histories of radiation exposure?' is discussed, but the book does not reinforce existing frameworks, such as legal decisions or government policies, but rather highlights what narrative framings accomplish and commit by scrutinizing them with rigorous research, varied approaches, and, above all, listening to those whose lives were most affected by exposure. Governing the Future Henning Glaser, Pindar Wong, 2025-02-28 We are living in times of deep and disruptive change. Perhaps the most powerful vector of this change can be described by three related catchphrases: digitalization, artificial intelligence, and dataism. Drawing on considerable expertise from a wide range of scholars and practitioners, this interdisciplinary collection addresses the challenges, impacts, opportunities and regulation of this civilizational transformation from a variety of angles, including technology, philosophy, cultural studies, international law, sociology and economics. This book will be of special interest to scholars, students, analysts, policy planners, and decision-makers in think tanks, international organizations, and state agencies studying and dealing with the development and governance of disruptive technologies.

No Place To Hide Madalyn Reese, 2025-02-11 It began with twisted words, then escalated to threatening photographs that revealed dangerous intentions. But Emma Toliver would sooner take her chances with some stalker than play safe house

with the man who'd tried to destroy her once...even as he'd seduced her. A man now prey to the same unseen evil--and her unwanted protector.... Anthony Bracco had traded Armani for Levi's and corporate raiding for redemption. Still, Emma couldn't be sure if the passion between them was pure...or plot. For she'd trusted Anthony before, only to suffer heartache. Could it be her greatest danger wasn't the enemy outside...but the enemy within?

A 30-Minute Summary of Glenn Greenwald's No Place to Hide Glenn Greenwald,Instaread Summaries,2014-06-11

PLEASE NOTE: This is a summary of the book and NOT the original book. No Place to Hide: A 30-minute Summary of Glenn Greenwald's book Inside this Instaread Summary: Overview of the entire book Introduction to the Important people in the book Summary and analysis of all the chapters in the book Key Takeaways of the book A Reader's Perspective Preview of this summary: Chapter 1 Edward Snowden first contacted Glenn Greenwald on December 1, 2012, using the alias name Cincinnatus. Snowden is a former Senior Advisor to the NSA, a former Field Officer with the CIA, and a former lecturer for the United States Defense Intelligence Agency. He had confidential information he wanted to share with Greenwald, but would only do it if he knew their connection was secure. Greenwald is a journalist known for his reporting on the wrongdoings of the National Security Agency (NSA). Snowden wanted Greenwald to use PGP (pretty good privacy) encryption on his computer so that he could safely send him some information that he had gathered. Although Greenwald considered adding these extra security measures to his computer, he was very busy with other things and did not want to take the time to put the complicated software in place. Snowden sent him a guide on how to add the encryption, but Greenwald still took no action. Snowden offered to find someone who could help Greenwald install the system. Without positive proof that the information Snowden had was really newsworthy, Greenwald did not feel motivated to take the steps necessary to install the PGP encryption. However, without a secure form of communication in place, Snowden was unwilling to risk sharing the information he had with Greenwald. This communication between the two took place over several weeks and then came to a standstill. On April 18, Laura Poitras contacted Greenwald. Laura Poitras is a documentary filmmaker who is known for fearlessly taking risks in making her films. She made three films about the conduct of the United States during the war on terror, which made her a target of government officials whenever she entered or left the country. Poitras wanted to talk to Greenwald about something but would only do it in person and in private in a secure location...
