Organizations without clearly defined and agreed-to mission and vision statements frequently find themselves adrift at sea, in real financial trouble, and unable to make an ongoing, positive impact on the community. But an effective mission and vision statement can help an organization unify services and create a consistent approach to new program development. *Crafting Effective Mission and Vision Statements* will help your organization develop (or revise) mission and vision statements that bring focus and direction to your work. With orderly, easy-to-follow steps, this engaging guide helps you: Build ownership for the mission and vision statements among board and staff Create a common understanding of your organization's goals Understand how mission and vision statements differ and how to use both for greatest benefit Develop a mission statement that captures exactly what your organization does Create a vision statement based on stakeholders' ideas and the organization's history, capacity for growth, and fundraising potential Use this guide to create mission and vision statements that help your organization stay focused and keep it moving toward a positive future.

Africa for Kids Harvey Croze, 2007-04-01 Africa is brought to life in this imaginative look at the plants, animals, and people that make it such a fascinating continent. Studies of both traditional tribes and modern African cities showcase Africa's diversity, and authentic activities allow kids to dive into the rich culture by making a Maasai bivouac shelter, writing a fable in the African style, working as a field biologist, making a ritual elephant mask, and learning to tie an African Kanga dress. This cross-cultural study also shows kids what challenges Africa faces today while giving them a look at what it is like to live on this interesting continent.

Cambridge Economics in the Post-Keynesian Era Ashwani Saith, 2022-11-11 This book chronicles the rise and especially

the demise of diverse revolutionary heterodox traditions in Cambridge theoretical and applied economics, investigating both the impact of internal pressures within the faculty as also the power of external ideological and political forces unleashed by the global dominance of neoliberalism. Using fresh archival materials, personal interviews and recollections, this meticulously researched narrative constructs the untold story of the eclipse of these heterodox and post-Keynesian intellectual traditions rooted and nurtured in Cambridge since the 1920s, and the rise to power of orthodox, mainstream economics. Also expunged in this neoclassical counter-revolution were the structural and radical policy-oriented macro-economic modelling teams of the iconic Department of Applied Economics, along with the atrophy of sociology, development and economic history from teaching and research in the self-purifying faculty. This book will be of particular interest to researchers in the history of economic thought, sociology of knowledge, political economy, especially those engaged in heterodox and post-Keynesian economics, and to everyone wishing to make economics fit for purpose again for negotiating the multiple economic, social and environmental crises rampant at national and global levels.

The Practice of International Commercial Arbitration Anselmo Reyes, 2025-12-22 Focusing on practical principles and guidelines, this book covers everything a prospective international commercial arbitrator or lawyer wishing to start an arbitration practice should know about conducting an arbitration in Asia. Previously, the book concentrated solely on arbitration in Hong Kong, but this second edition is significantly expanded to cover Mainland China, Japan, and Singapore as well. In addition to this expansion, the content has been updated to cover new conventions, the latest statutory amendments, revised arbitral institution rules, and new or updated soft law instruments. The second edition also reflects major changes since the first edition, including the greater use of online hearings for the conduct of arbitrations since COVID-19, the prevalence of sanctions and countersanctions constraining what cases arbitrators can or cannot accept, and the consequences of an increased awareness of climate change considerations. Along the way, the book considers the impacts of generative AI, third-party funding, enhanced data protection and privacy regimes, and developments in other modes of alternative dispute resolution (ADR) (including mediation) on international commercial arbitration. Specifically geared to those interested in or starting work as an arbitrator or as counsel in international arbitration cases, this compact book takes readers step by step through the problems likely to arise in the conduct of cross-border arbitration and in the development of a career in that field in Asia.
