Didier Musso

Seasons in Hell Mike Shropshire, 2014-03-25 “A funny, revealing, Ball Four-like romp through mid-seventies baseball” from the longtime sports columnist and author of *The Last Real Season* (Booklist). You think your team is bad? In this “disastrously hilarious” work on one of the most tortured franchises in baseball, one reporter discovers that nine innings can feel like an eternity (USA Today). In early 1973, gonzo sportswriter Mike Shropshire agreed to cover the Texas Rangers for the Fort Worth Star-Telegram, not realizing that the Rangers were arguably the worst team in baseball history. *Seasons in Hell* is a riotous, candid, irreverent behind-the-scenes account in the tradition of *The Bronx Zoo* and *Ball Four*, following the Texas Rangers from Whitey Herzog’s reign in 1973 through Billy Martin’s tumultuous tenure. Offering wonderful perspectives on dozens of unique (and likely never-to-be-seen-again) baseball personalities, *Seasons in Hell* recounts some of the most extreme characters ever to play the game and brings to life the no-holds-barred culture of major league baseball in the mid-seventies. “The single funniest sports book I have ever read.”—Don Imus “The locker-room shenanigans of a lousy team of the 1970s.”—Publishers Weekly

Shakespeare Sarah Curtius, 2022-09-30 The 16th century writer Ben Johnson said that his friend William Shakespeare was not for an age but for all time. People still love his stories and go to see traditional and modern performances of his plays. In this book you will find stories based on Shakespeare's plays and his characters, including the popular character of Bottom from *A Midsummer Night's Dream* and the young lovers from *The Merchant of Venice*. The final story looks at the twins separated after a shipwreck from *Twelfth Night*. The book is written for English learners at level CEFR B1/B2

NFS Illustrated Brent Callaghan, 2000 One of the original developers of the NFS and WebNFS offers unique insight into these key technologies, for both programmers creating and debugging NFS-based applications and network engineers creating new implementations. Readers can gain a deeper understanding of how network file protocols are designed and learn how NFS is implemented on UNIX, Windows NT, Java and web browsers.

The Art of Distributed Applications John R. Corbin, 2012-12-06 Powerful networked workstations are adding a new dimension to the world of computing. Programmers are challenged to write applications that exploit the speed and

parallelism of such distributed systems, programs that take advantage of the networking and communication features of high-speed workstations. John Corbin, a senior engineer in Sun's networking group, bases his approach on RPC (Remote Procedure Call), a technique for programming communication processes in UNIX environments. A professional reference book as well as a textbook on RPC programming techniques, *The Art of Distributed Applications: Programming Techniques for Remote Procedure Call*, is for the working programmer who needs to explore the possibilities of designing distributed networked applications under UNIX. The book can also be recommended as a supplemental text in a distributed systems course, providing the basis for lab assignments.

Plum Shadows and Plank Bridge Mao Xiang,Yu Huai,2020-01-21 Amid the turmoil of the Ming-Qing dynastic transition in seventeenth-century China, some intellectuals sought refuge in romantic memories from what they perceived as cataclysmic events. This volume presents two memoirs by famous men of letters, *Reminiscences of the Plum Shadows Convent* by Mao Xiang (1611-93) and *Miscellaneous Records of Plank Bridge* by Yu Huai (1616-96), that recall times spent with courtesans. They evoke the courtesan world in the final decades of the Ming dynasty and the aftermath of its collapse. Mao Xiang chronicles his relationship with the courtesan Dong Bai, who became his concubine two years before the Ming dynasty fell. His mournful remembrance of their life together, written shortly after her early death, includes harrowing descriptions of their wartime sufferings as well as idyllic depictions of romantic bliss. Yu Huai offers a group portrait of Nanjing courtesans, mixing personal memories with reported anecdotes. Writing fifty years after the fall of the Ming, he expresses a deep nostalgia for courtesan culture that bears the toll of individual loss and national calamity. Together, they shed light on the sensibilities of late Ming intellectuals: their recollections of refined pleasures and ruminations on the vagaries of memory coexist with political engagement and a belief in bearing witness. With an introduction and extensive annotations, *Plum Shadows and Plank Bridge* is a valuable source for the literature of remembrance, the representation of

women, and the social role of intellectuals during a tumultuous period in Chinese history.
