Jekka's Herb Cookbook Jekka McVicar, 2012-03-31 Jekka McVicar's passion for herbs has evolved over 40 years. In this, her first cookery book, 'queen of herbs' Jekka offers over 250 original recipes using simple garden herbs, along with tips for growing and maintaining them. Herbs have long been a part of British culinary history, yet few people utilise them to their full potential. Incredibly versatile, not only do herbs impart flavour, aroma and texture to dishes, they are extremely beneficial to our health. Much more than a cookbook, Jekka's Herb Kitchen features 50 herbs with a chapter and recipes devoted to each - Jekka's huge knowledge of each herb's history, cultivation and medicinal and culinary uses is unsurpassed. Her recipes are simple and economical - she shows how herbs can transform a cheap cut of meat, enliven a pasta sauce, and even add delight to desserts. She also offers suggestions for how best to combine herbs and what parts to use, gives ideas for using up a glut of a specific herb, and advises on how to preserve your herbs for the winter months. Moreover, this volume is a family affair - many of Jekka's recipes are inspired by her grandmother and mother, and the stunning illustrations are by Jekka's daughter, Hannah McVicar. With colour photographs throughout, this is a unique and beautiful volume from the UK's foremost authority on herbs.

Star Fish Daisy Jones, 2014-10-01 Go ahead. Feel smug. With *Star Fish* in your hands, there will no longer be anything fishy about the seafood meals you produce. In fact, the lip-smackingly good recipes in this book use only the top ten most sustainable fish off the SASSI (SA Sustainable Seafood Initiative) green list. In this surprisingly funny, surprisingly fascinating read, author Daisy Jones takes you on an epic road trip to meet the farmers, conservationists, fishermen and scientists who will protect the top ten in the years to come. You'll visit a vloeking oyster farmer in a wasteland on the West Coast and a high-heeled SASSI scientist. You'll meet an abundantly bearded kabeljou farmer in Paternoster, a third-generation treknetter in Fish Hoek and an Irish-accented aquaculturist in East London. Daisy has conducted hours of interviews on boats, rafts and on farms to find out why her top ten are not in danger of overfishing and why catching them does no damage to the environment. The chapters on each fish, and the paintings and illustrations that accompany them, will secure the top ten in your memory - a phenomenon sure to come in handy when you shop or dine out sans SASSI checklist. The recipes at the end of each chapter, gorgeously photographed by Craig Fraser, tempt those of us in the habit of opting for white linefish and prawns to try something meatier (yellowtail), oilier (sardines) or slurpier (mussels). A chart at the end of the book provides green alternatives to orange- and red-listed fish - both local and overseas varieties. There's a word on SASSI, a word on the MSC (Marine Stewardship Council) and a word on the state of our oceans. It's an adventure, switching to green fish. And it's the right thing to do.
