David L. Cook

Second Wind Bill Russell, Taylor Branch, 1980

New York Magazine, 1979-10-08 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

Race and Resistance in Boston Robert Cvornyek, Douglas Stark, 2025 *Race and Resistance in Boston* reconstructs the history of Black sport in Boston, from amateur to professional, reimagining the crucial role it played in shaping the city's racial identity.

The Black Athlete as Hero Joseph Dorinson, 2022-11-09 Part history, part biography, this study examines the Black athlete's search to unify what W.E.B. DuBois called the two unreconciled strivings of African Americans--the struggle to survive in black society while adapting to white society. Black athletes have served as vanguards of change, challenging the dominant culture, crossing social boundaries and raising political awareness. Champions like Joe Louis, Jackie Robinson, Muhammad Ali, Jim Brown, Wilma Rudolph, Roberto Clemente, Althea Gibson, Arthur Ashe, Serena Williams, Kareem Abdul-Jabbar and LeBron James make a difference, even as many in the Black community question the idea of athletes as role models. The author argues the importance of sports heroes in a panic-plagued era beset with class division and racial privilege.

Out of the Shadows David K. Wiggins, 2008-02-01 The original essays in this comprehensive collection examine the lives and sports of famous and not-so-famous African American male and female athletes from the nineteenth century to today. Here are twenty insightful biographies that furnish perspectives on the changing status of these athletes and how these changes mirrored the transformation of sports, American society, and civil rights legislation. Some of the athletes discussed include Marshall Taylor (bicycling), William Henry Lewis (football), Jack Johnson, Satchel Paige, Jesse Owens, Joe Lewis, Alice Coachman (track and field), Althea Gibson (tennis), Wilma Rudolph, Bill Russell, Jim Brown, Arthur Ashe, Michael Jordan, Tiger Woods, and Venus and Serena Williams.

American Hoops Carson Cunningham, 2009 Those who avidly followed the on-court acrobatics and off-court celebrity of the OC Dream Team OCO in Barcelona in 1992 would hardly recognize what passed as basketball fifty-six years earlier, when the United States first played the game in the 1936 Olympics. In those early days of men OCOs Olympic basketball, many teams lacked basic skills, games were played in the pouring rain, only seven players could suit up, and the rules allowed only two substitutions and no time-outs. How this slow, low-scoring sport became the breakneck game that enraptures millions worldwide is the story of American Hoops. In this fascinating history of Olympic basketball on the world stage and behind the scenes, Carson Cunningham presents a kaleidoscopic picture of the evolution into the twenty-first century of one of America OCOs most popular sports. From clashes between celebrated egos and thrilling action on the court to the intense rivalries of the Cold War and technological advances in everything from television to sports equipment off the court, American Hoops follows the fortunes of Olympic basketball, in the United States and internationally, as it developed and emerged as one of the most challenging and entertaining sports in the world. Cunningham traces how the modifications made by the International Olympic Committee and the International Basketball Federation have transformed the game of basketball over the years, from the Berlin to the Beijing Olympics. His book offers a remarkable view of the changing world through the prism of Olympic sport.
