*Signs* Laura Lynne Jackson, 2020-06-02 NEW YORK TIMES BESTSELLER • A renowned psychic medium teaches us how to recognize and interpret the life-changing messages from loved ones and spirit guides on the Other Side. “A collection of incredible stories . . . that speak to the universe’s endless capacity for magical moments.”—goop Laura Lynne Jackson is a psychic medium and the author of the New York Times bestseller *The Light Between Us*. She possesses an incredible gift: the ability to communicate with loved ones who have passed, convey messages of love and healing, and impart a greater understanding of our interconnectedness. Though her abilities are exceptional, they are not unique, and that is the message at the core of this book. Understanding “the secret language of the universe” is a gift available to all. As we learn to ask for and recognize signs from the other side, we will start to find meaning where before there was only confusion, and see light in the darkness. We may decide to change paths, push toward love, pursue joy, and engage with life in a whole new way. In *Signs*, Jackson is able to bring the mystical into the everyday. She relates stories of people who have experienced uncanny revelations and instances of unexplained synchronicity, as well as others drawn from her own experience. There’s the lost child who appears to his mother as a deer that approaches her unhesitatingly at a highway rest stop; the name written on a dollar bill that lets a terrified wife know that her husband will be okay; the Elvis Presley song that arrives at the exact moment of Jackson’s own father’s passing; and many others. This is a book that is inspiring and practical, deeply comforting and wonderfully motivational, in asking us to see beyond ourselves to a more magnificent universal design.

**Storytelling Organizational Practices** David M. Boje, 2014-06-20 Once upon a time the practice of storytelling was about collecting interesting stories about the past, and converting them into soundbite pitches. Now it is more about foretelling the ways the future is approaching the present, prompting a re-storying of the past. Storytelling has progressed and is about a diversity of voices, not just one teller of one past; it is how a group or organization of people negotiates the telling of history and the telling of what future is arriving in the present. With the changes in storytelling practices and theory there is a growing need to look at new and different methodologies. Within this exciting new book, David M. Boje

develops new ways to ask questions in interviews and make observations of practice that are about storytelling the future. This, after all, is where management practice concentrates its storytelling, while much of the theory and method work is all about how the past might recur in the future. Storytelling Organizational Practices takes the reader on a journey: from looking at narratives of past experience through looking at living stories of emergence in the present to looking at how the future is arriving in ways that prompts a re-storying of the past.

**The Secret Language of Signs** Denise Linn,2009-02-04 In every moment the universe is whispering to you. Even ordinary events in your life carry communications from the realm of the Spirit. . . . Whether we are conscious of it or not, the universe is communicating to us through signs. In this mind-opening book, renowned healer and author Denise Linn shows that coincidence, synchronicity, and those premonitions we've all experienced are never accidents but a kindly world's way of trying to nudge us in the right direction. Drawing on firsthand true stories and native wisdom from around the world, Linn helps us regain our innate capacity to listen to the universe, to use the signs that speak to us every day of our lives. Step by step, she shows us how to call for a sign, how to create the best conditions for receiving it, and how to interpret the signs we receive, with the most comprehensive dictionary of signs ever compiled. Designed to help you develop your own ability to interpret signs as they call to you, the dictionary entries give you a starting point for understanding what your signs are communicating. For instance . . . \* An abyss might symbolize a chasm in your life. Is there something that seems impassable to you? \* A storm can indicate internal conflict. It can also indicate that the air is clearing in regard to a situation in your life. \* A crossroads signifies that a time of decision is ahead. Take time and tune in to your intuition before choosing your future path. \* Smoke can be a warning of danger. Is there a situation in your life that's about to go up in flames? Smoke can also indicate a lack of clarity. With this powerful, easy-to-use guide, Denise Linn helps us to reconnect with the magic of our inner selves to make the right decisions and choices in our lives.

**The Leviathan Factor** Lawrence E. Burkholder,2017-01-12 The Leviathan Factor tells the incredible story of how Satan, created as Lucifer the morning star, self-transformed into Leviathan, God's serpentine arch foe. When he tried to achieve immortality by tweaking creation's lowest-level laws (a sophisticated computer/automaton) he created death instead. As the

serpent he reappeared in the Genesis tree of good and evil, where he seduced humans to attempt immortality apart from covenant with God. Leviathan is responsible for the false belief that we each have an inner divine spark which, when reconnected to our ego, awakens our true inherent divinity. Unfortunately he and his demonic spirits also impact our minds, bodies, and environment as psi. A few of the many markers of these demonic psi are levitation, telepathy, telekinesis, déjà vu, emotional oppressions, poltergeist activities, past lives' memories, voices and visions, near death and out-of-body experiences, and trance channeling. Many of these psi phenomena are co-factors in mind disorders such as schizophrenia or epilepsy. Manifestations in Christian circles include false tongues and holy laughter. The Leviathan Factor is not a healing how-to. It is the first book to place demonic evil into the context of creation's basic structures and laws.

**Xenolinguistics** Diana Slattery, 2015-01-06 Are language and consciousness co-evolving? Can psychedelic experience cast light on this topic? In the Western world, we stand at the dawn of the psychedelic age with advances in neuroscience; a proliferation of new psychoactive substances, both legal and illegal; the anthropology of ayahuasca use; and new discoveries in ethnobotany. From scientific papers to the individual trip reports on the Vaults of Erowid and the life work of Terence McKenna, Alexander and Ann Shulgin, and Stanislav Grof, we are converging on new knowledge of the mind and how to shift its functioning for therapeutic, spiritual, problem-solving, artistic and/or recreational purposes. In our culture, psychonautics, the practices of individuals and small groups using techniques such as meditation, shamanic ritual, ecstatic dance and substances such as LSD and psilocybin for personal exploration, is a field of action and thought in its infancy. The use of psychonautic practice as a site of research and a method of knowledge production is central to this work, the first in-depth book focusing on psychedelics, consciousness, and language. *Xenolinguistics* documents the author's eleven-year adventure of psychonautic exploration and scholarly research; her original intent was to understand a symbolic language system, *Glide*, she acquired in an altered state of consciousness. What began as a deeply personal search, led to the discovery of others, dubbed xenolinguists, with their own unique linguistic objects and ideas about language from the psychedelic sphere. The search expanded, sifting through fields of knowledge such as anthropology and neurophenomenology to build maps and models to contextualize these experiences. The book presents a collection of these linguistic artifacts, from glossolalia to alien scripts, washed ashore like messages in bottles, signals from *Psyche* and the alien Others who populate her hyperdimensional landscapes. With an entire chapter dedicated to Terence and Dennis McKenna and sections dedicated to numerous other xenolinguists, this book will appeal to those interested in language/linguistics and the benefits of psychedelic self-exploration, and to readers of science fiction.

[exactphilosophy.net](http://exactphilosophy.net) 2019 Alain Stalder, 2019-05-21 This book presents the website [exactphilosophy.net](http://exactphilosophy.net) in 2019. Written by a Swiss physicist, it contains lots of beautiful novel ideas, inspired by nature and physics, ancient and modern philosophy, as well as by astrology, the I Ching and more... For the first time, this book compiles all web pages and articles in a single

printed volume. A real treasure trove for anyone with a mind free enough to ?think outside the tesseract?, about philosophy, science, history, art, and a lot more. Most contributions are related to a new approach to ?elements?, tentatively defined from first principles related to space and time in immediate perception, inspired by Kant, but often going way beyond ancient Greek elements or the trigrams of the Chinese I Ching, considering also how astrology or telepathy could work in ways that would be astonishingly simple everyday physics, even though they would still be ?illusions? in a way. And there is more.
