Costumes of Sri Lanka K. D. G. Wimalaratne,Dian Gomes,2001 The scope of this book is the evolution of Sri Lankan costumes spanning from around 6th century B.C. with the first available records of the island's dress form, to the post-independence era. This broad time span begins with hints of a pre-Vijayan culture of costumes and textiles and ends in the post independence politics and its relationship to dress both in prescription and practice. Sculptures, graffiti, paintings, literature and photographs in the book provide an engrossing glimpse of the traditions of clothing in this multi-cultural island.

Fashioning the Self: Identity and Style in British Culture Emily Priscott,2023-06-06 'Fashioning the Self: Identity and Style in British Culture' offers an eclectic approach to contemporary fashion studies. Taking a broad definition of British culture, this collection of essays explores the significance of style to issues such as colonialism, race, gender and class, embracing topics as diverse as eighteenth-century portraiture, literary dress culture and Edwardian working-class glamour. Examining the emblematic power of garments themselves and the context in which they are styled, this work interrogates the ways that personal style can itself decontextualize garments to radically reframe their meanings. Using an intentionally eclectic range of subjects from an interdisciplinary perspective, this collection builds on the work of theorists such as Aileen Ribeiro, Vika Martina Plock, Cheryl Buckley and Hilary Fawcett, to examine the social significance of personal style, while also highlighting the diversity of British culture itself.

Women's Lives around the World Susan M. Shaw,Nancy Staton Barbour,Patti Duncan Ph.D.,Kryn Freehling-Burton Ph.D.,Jane Nichols,2018-01-04 Providing an in-depth look at the lives of women and girls in approximately 150 countries, this multivolume reference set offers readers transnational and postcolonial analysis of the many issues that are critical to the success of women and girls. For millennia, women around the world have shouldered the responsibility of caring for their families. But in recent decades, women have emerged as a major part of the global workforce, balancing careers and family life. How did this change happen? And how are societies in developing countries responding and adapting to women's newer roles in society? This four-volume encyclopedia examines the lives of women around the world, with coverage that includes the education of girls and teens; the key roles women play in their families, careers, religions, and cultures; how issues for women intersect with colonialism, transnationalism, feminism, and established norms of power and control. Organized geographically, each volume presents detailed entries about the lives of women in particular countries. Additionally, each volume offers sidebars that spotlight topics related to women and girls in specific regions or focus on individual women's lives and contributions. Primary source documents include sections of countries' constitutions that are relevant to women and girls, United Nations resolutions and national resolutions regarding women and girls, and religious statements and proclamations about women and girls. The organization of the set enables readers to take an in-depth look at individual countries as well as to make comparisons across countries.

The series is divided into two strands: listening/speaking and reading/writing. There are four books in each strand, taking students from Basic to Advanced. The two books at each level explore different aspects of the same contemporary themes such as the effect of food on mood, experimental punishments for juvenile offenders, the role of cars in modern life, privacy in the workplace, and alternative medicine. The parallel books in each strand are linked by grammar and vocabulary as well, providing the opportunity to recycle and reinforce the language while the content remains fresh and exciting.

Encyclopedia of Asian American Folklore and Folklife Jonathan H. X. Lee,Kathleen Nadeau,2010-12-21 This

comprehensive compilation of entries documents the origins, transmissions, and transformations of Asian American folklore and folklife. Equally instructive and intriguing, the Encyclopedia of Asian American Folklore and Folklife provides an illuminating overview of Asian American folklore as a way of life. Surveying the histories, peoples, and cultures of numerous Asian American ethnic and cultural groups, the work covers everything from ancient Asian folklore, folktales, and folk practices that have been transmitted and transformed in America to new expressions of Asian American folklore and folktales unique to the Asian American historical and contemporary experiences. The encyclopedia's three comprehensive volumes cover an extraordinarily wide range of Asian American cultural and ethnic groups, as well as mixed-race and mixed-heritage Asian Americans. Each group section is introduced by a historical overview essay followed by short entries on topics such as ghosts and spirits, clothes and jewelry, arts and crafts, home decorations, family and community, religious practices, rituals, holidays, music, foodways, literature, traditional healing and medicine, and much, much more. Topics and theories are examined from crosscultural and interdisciplinary perspectives to add to the value of the work.

Clothing in Sri Lanka Lasni Buddhibhashika Jayasooriya, 2020 Attitudes towards clothing in Sri Lanka differ from other countries. Clothing and half nakedness are inseparable ideas, as exposing body in clothing is rather common. In my study I have tried to find whether the half nakedness is a problem of people's attitudes or a problem of half nakedness itself. Here the main focus was Sri Lankan cultural/traditional dress osari (or saree) that has a high social acceptance and recognition in which a considerable part of the body is exposed while Sri Lankans reject any other dresses which expose even a small part of the body. For my study I employed an experimental method. A questionnaire based on both osari and other apparels was used for both pre and post tests. A documentary which built up an argument challenging the contradictory nature of the Sri Lankans' perception on half nakedness was introduced to the study group as the stimulus. This randomized experimental study was carried out by a self-administrated questionnaire among 20 subjects from the University of Peradeniya. The results demonstrated a significant attitudinal change in the study group ($t = .04$, p
