Enigma - □ Ignorance Liquidation - part №1 Oleg Viktorovich Maltsev, Recently I have encountered a certain state of affairs, quite an idiosyncratic one... try to imagine this, there is a social networks page of an Italian master, who lives somewhere in a Puria or Calabria, not very intelligent person ... So, he has been making a “summon” in Facebook for masters to unite against me. Well, I did not quite get for what reason ones would unite against me, anyways, there is such a happening. Probably, this is due to the fact that I am researching culture of Italy, the true history of Italy. So here is a person who pretends to be an owner of the Italy through his social networks account. He is quite a strange person, he has got on his avatar a picture of a strange guy with a helmet and a spear. This very individual, demonstrated outmost regret to the fact, that foreign people, as me, would teach someone of Italian culture. I was sincerely surprised as I had no intention of teaching someone the Italian culture. As first of all, I wanted to teach myself. However, this individual in his certain comments on Facebook was demonstrating real regret as in his opinion I was posing a real threat, somehow, to Italian history. Moreover, having some sort of idea that he is an owner of Italy – he was showing regret of Sicilian master that have same intention as I do, that is restoring and revealing genuine Italian culture and history of martial arts. Besides, he used to claim that my school appeared just in one day, which was a great surprise for me, as I believed that this school appeared thousands and thousands years ago. Certainly, it flatters me, him regarding me to be a founder of Venetian school ... I have always considered myself to be a follower of this school and not a founder, and definitely, not an owner of it. Well, since certain Calibrian – Purian masters awarded me with a title of the founder of the Venetian school, let's pretend me being an immortal one, aged 3000 years, and that I am great enough to teach all the rest of Italian martial arts culture. However, it should be pointed out that indeed, there are a lot of things to be taught. Even though I feel proud that it is claimed that I am a founder of Venetian school by representatives of Purian - Calabrian martial arts school, I have a lot of things to get presented and explained ... but on a different topic. Having read up to the end this wonderful post in internet, I came to a conclusion that it is the right time to start a journey. When you see my students, when you watch them training, some tend to think that they have been doing martial arts like for half a year. Obviously it is not the case.

Spirit under this definition is divided into two approaches that we seek to positively develop through martial arts training. The first is the attitude or intentions we bring to something that is used as motivation to drive us towards a goal. The second is the animating force within all living things that is the outward energy and enthusiasm we bring to an activity.
