Write More, Publish More, Stress Less! Dannelle D. Stevens, 2023-07-03 2021 Textbook Excellence Award Winner (College: Humanities, Education, and Social Sciences) In this book Dr. Dannelle D. Stevens offers five key principles that will bolster your knowledge of academic writing, enable you to develop a manageable, sustainable, and even enjoyable writing practice, and, in the process, effectively increase your publication output and promote your academic career. A successful and productive book and journal article author, writing coach, creator of a nationally-recognized, cross-disciplinary faculty writing program, and with a long career as a faculty member and experience as a department chair, Dr. Stevens offers a unique combination of motivation, reflective practices, analytical tools, templates, and advice to set you on the path to being a productive and creative writer. Drawing on her experience as a writer and on her extensive research into the psychology of writing and the craft of scholarly writing, Dr. Stevens starts from the premise that most faculty have never been taught to write and that writers, both experienced and novice, frequently experience anxiety and self-doubt that erode confidence. She begins by guiding readers to understand themselves as writers and discover what has impeded or stimulated them in the past to establish positive new attitudes and sustainable habits. Dr. Stevens provides strategies for setting doable goals, organizing a more productive writing life, and demonstrates the benefits of writing groups, including offering a variety of ways in which

you can experiment with collaborative practice. In addition, she offers a series of reflections, exercises, and activities to spark your writing fluency and creativity. Whether developing journal articles, book chapters, book proposals, book reviews, or conference proposals, this book will help you demystify the hidden structures and common patterns in academic writing and help you match your manuscript to the language, structures, and conventions of your discipline--be it in the sciences, social sciences, or humanities. Most importantly, believing that connecting your passions with your work is essential to stimulating your ideas and enthusiasm, this essential guide offers you the knowledge and skills to write more.

The Manchester School T. M. S. (Terry) Evens,Don Handelman,2006-09-01 Pioneered by Max Gluckman to demonstrate the way in which social practice and structure together constitute and are themselves constituted by the situational flow of social life, the extended case method became diagnostic of the Manchester School of Social Anthropology. Anticipating practice theory, and implicitly politically charged, it was developed as a tool to bring into account what orthodox structural functionalism was ill-equipped to address, namely, problems such as change, conflict, deviance, and individual choice. Edited by two students of Gluckman, the volume comprises reprinted pieces by Gluckman and his colleague Clyde Mitchell, a Coda by Mitchell's student, Bruce Kapferer, contributions by Gluckman's students and/or friends and colleagues, including Ronnie Frankenberg, Kapferer, Evens, Handelman, and Sally Falk Moore, as well as a number of contributions from other practitioners of the extended case. Apart from the reprinted pieces by Gluckman and Mitchell, all the contributions have been written for this volume. These essays, historical, theoretical, and ethnographical, serve to highlight and critically examine the fundamental features of the extended-case method, in order to advance its substantial, continuing merits.
