ViolinMind Hans Jørgen Jensen, Minna Rose Chung, Grigory Kalinovsky, 2019-09-12 *ViolinMind* is a pedagogical method book that focuses on intonation. It is a transcription for the violin of *CelloMind* published in 2017 by Ovation Press, Ltd. The co-authors of *ViolinMind* are Hans Jørgen Jensen, Professor of Cello at the Bienen School of Music at Northwestern University and Grigory Kalinovsky, Professor of Music (Violin) at Indiana University Jacobs School of Music. The mystery of intonation is dissected by defining the scientific principles behind it, and providing easy, intuitive examples of the three main kinds of intonation systems used today: Equal Temperament, Just, and Pythagorean. Playing with exquisite intonation has mostly been reserved for those who possess a strong intuitive sense of pitch and harmonic color; however, *ViolinMind* breaks down this barrier using a highly detailed, systematic approach, making the process of acquiring a sophisticated sense of intonation similar to any other technical skill. Chapters in the book explore in great detail topics such as the harmonic overtone series, the scientific principles behind Cents, the syntonic comma, the just scales, the Pythagorean comma, the Pythagorean semitones, advanced sympathetic vibrations, Tartini tones, and double stops studies in tritones. All chapters in the book include numerous practical samples and listening exercises that bridge the gap between the theory and its application. The chapters on intonation conclude with practical examples from the following repertoire: intonation performance practice in the Bach Sonatas and Partitas for Violin Solo (BWV 1001-1006), and intonation performance practice with piano. The appendices in the book provide detailed explanations about the Helmholtz intonation chart, the harmonic series, just intonation, the Schisma, as well as an illustration of two violin fingerboards from two method books from the 18th century showing pitch distribution for just intonation and Pythagorean intonation respectively.

CelloMind Hans Jørgen Jensen, Minna Rose Chung, 2017-11-03 *CelloMind* is a two-part pedagogical method book that focuses on intonation and left-hand cello technique. The coauthors of the book are Hans Jørgen Jensen, Professor of cello at the Bienen School of Music at Northwestern University and Minna Rose Chung, Associate Professor of Cello at the Desautels Faculty of Music at the University of Manitoba. Part I: Intonation. The mystery of intonation is revealed by defining and explaining the scientific principles that govern it. To know and understand how to combine the three primary intonation systems has never before been expounded in a methodology publication--and for good reason. Playing with exquisite intonation has mostly been reserved for those who possess a strong intuitive sense; however, *CelloMind* breaks down this taboo using a systematic approach with a highly attuned manner. The three systems of intonation that string players most commonly use today--equal temperament, just intonation, and Pythagorean tuning--are each explored and explained in great detail. All chapters in the book include many practical samples and listening exercises that bridge the gap between the theory and its application. The chapters on intonation conclude with practical examples from the following repertoire: Intonation Performance Practice in the Bach Solo Cello Suites and Intonation Performance Practice with Piano. Part II: Left-Hand Technique. The left-hand technique chapters in this section complement the study of intonation by providing a solid foundation of skills for essential cello playing. The topics and exercises have been selected to cover a wide range of technical skills that include playing with a light left-hand touch, speed, coordination, balanced vibrato, agility, finger independence, and efficient shifting. Original exercises developed for students over many years have also been incorporated into these

chapters, as well as studies from Julius Klengel, Bernhard Cossmann, Louis R. Feuillard, Jean-Louis Duport, Yakov Rosenthal, and Fritz Albert Christian Rudinger.

Fit in 15 Minutes Benjamin Bergmann, 2019-04-10 *Fit in 15 Minutes* is intended for occasional players who are very short of time and want to maintain and improve their violin technique in a concentrated and effective quarter of an hour. They can also be used at the beginning of a longer practice or rehearsal session. As the technical precondition of beginners and professional violinists vary, each exercise is offered in three levels of progressive complexity: · Level 1: Exercises for beginners · Level 2: Exercises for advanced players · Level 3: Exercises for tertiary students and professionals The division in three levels provides didactic transparency. It is not meant to create boundaries, but serves as a stimulation to identify correlations, to polish basics or to conquer new technical challenges.

The Power of Practice Kristin Wendland, 2024-01-01 *The Power of Practice* showcases the pioneering achievements of renowned violinist Yehudi Menuhin (1916-99) and how both disciplines transformed his life and practice. Menuhin's contributions as a performer, teacher, and humanitarian are celebrated around the world. Less well known, however, is Menuhin's devotion to the practice of yoga and his close friendship with the renowned yogi B. K. S. Iyengar (1918-2014), whose guidance profoundly influenced Menuhin as both a musician and a philanthropist. Menuhin applied his understanding of Iyengar's teachings to his philosophy of musical practice, creating new ways to approach the teaching of violin technique. He also took broader lessons from yoga to inform his approach to interacting with the larger world as a cultural ambassador and influential artist. Through the lens of the life and work of the celebrated violinist and devoted yogi, this book uncovers deep connections between music and yoga. It shows how the practice of both disciplines can profoundly transform our world into a better place.

Instrumental Music Education Evan Feldman,Ari Contzius,2024-07-26 Instrumental Music Education: Teaching with the Theoretical and Practical in Harmony, Fourth Edition, is intended for college instrumental music education majors studying to be band and orchestra directors at the elementary, middle school, and high school levels. Its fundamental goal is to prepare music teachers for the real world, looking at the topics vital to running a successful instrumental music program, while balancing musical, theoretical, and practical approaches. Its accompanying Instructor and Student Resources include over 120 videos filmed with high school, college, and community concert, pedagogy videos for all wind and string instruments, presented by professional players and teachers. New to this edition: A section on social emotional learning (SEL) An introduction to culturally responsive teaching Additional discussion of teaching composition, improvisation, and creativity Expanded discussion of the advantages, challenges, and philosophies surrounding teaching ensembles other than band and orchestra Many updates and additions throughout the text Offering best practices rooted in experience and clear, balanced coverage of pedagogical, philosophical, and administrative issues, this textbook effectively prepares future band and orchestra instructors to teach at all levels.

Pictures of Music Education Estelle R. Jorgensen, 2011-05-23 Estelle R. Jorgensen's latest work is an exploratory look into the ways we practice and represent music education through the metaphors and models that appear in everyday life. These metaphors and models serve as entry points into a deeper understanding of music education that moves beyond literal ways of thinking and doing and allows for a more creative embodiment of musical thought. Seeing the reader as a partner in the creation of meaning, Jorgensen intends for this book to be experienced by, rather than dictated to, the reader. Jorgensen's hope is that the intersections of art and philosophy, and metaphor and model can provide a richer and more imaginative view of music education.

The *Everyday Writer*, Fifth Edition, is the first tabbed handbook to help the participants in this literacy revolution build on the smart decisions they make as social writers — and use their skills in their academic and professional work. With Andrea Lunsford's trademark attention to rhetorical choice and language, and with new chapters on public writing, critical reading, and understanding how and why to use documentation, *The Everyday Writer* gives today's students the information they need to be effective, ethical writers. New illustrations by graphic artist G.B. Tran make complicated concepts clear and inviting for students. And now LearningCurve, game-like adaptive quizzing, gives students a new way to see what they know.
