Radio Series Scripts, 1930-2001 ,2015-01-28 Who were the 35 actors that performed with stars Bud Abbott and Lou Costello in radio's The Abbott and Costello Show? Do scripts survive for the old Burns and Allen shows or the children's crime fighter series The Green Hornet? Serious researchers and curious browsers interested in Golden Age radio will find a wealth of information in this reference collection. Most are from the 1930s, 1940s and 1950s, though subsequent decades are included for long-running shows. Crime series, whodunits, romances, situation comedies, variety shows, soap operas, quiz show series and others are included. Casual browsers will find tidbits on the radio careers of notables from other media (Humphrey Bogart, Ginger Rogers), mention of adaptations by famous authors (Jack London, Ray Bradbury), curious episode titles (The Gorilla That Always Said Yeh-ah) and series titles (Whispering Streets), and interesting sponsors (Insect-O-Blitz). The first section is an alphabetical list of T.O. Library's significant radio script collections, with notes on their content and format. The second section is the guide to series scripts by program title. Entries include title and basic information, including collection(s) in which they are found; producers, directors, writers, musicians and regular cast; sponsors; and holdings by date, episode number and title. Increasing the book's usefulness for researchers are indexes by name, program and sponsor.

**Stage Play** James Russell,2001-09 Theatrical play. Two women must get married at all cost and they pick two goofy actors using every trick in the book. A fast paced low-budget full-length comedy play focusing on the courtship ritual.

*Television Series and Specials Scripts, 1946-1992* ,2009-10-21 In the early days of television, many of its actors, writers, producers and directors came from radio. This crossover endowed the American Radio Archives with a treasure trove of television documents. The collected scripts span more than 40 years of American television history, from live broadcasts of the 1940s to the late 1980s. They also cover the entire spectrum of television entertainment programming, including comedies, soap operas, dramas, westerns, and crime series. The archives cover nearly 1,200 programs represented by more than 6,000 individual scripts. Includes an index of personal names, program and episode titles and production companies, as well as a glossary of industry terms.

Creating Conversations Robert Keith Sawyer,2001 Conversation is one of those everyday, commonsense abilities that we can all do without thinking. But paradoxically, understanding how conversation works is a problem for scientists. This text

explores this paradox: how can conversation be so difficult, and at the same time come to us so naturally?

Consumption and the Literary Cookbook Roxanne Harde, Janet Wesselius, 2020-11-18 Consumption and the Literary Cookbook offers readers the first book-length study of literary cookbooks. Imagining the genre more broadly to include narratives laden with recipes, cookbooks based on cultural productions including films, plays, and television series, and cookbooks that reflected and/or shaped cultural and historical narratives, the contributors draw on the tools of literary and cultural studies to closely read a diverse corpus of cookbooks. By focusing on themes of consumption—gastronomical and rhetorical—the sixteen chapters utilize the recipes and the narratives surrounding them as lenses to study identity, society, history, and culture. The chapters in this book reflect the current popularity of foodie culture as they offer entertaining analyses of cookbooks, the stories they tell, and the stories told about them.

**The Intent to Live** Larry Moss, 2004-12-28 “I call this book The Intent to Live because great actors don’t seem to be acting, they seem to be actually living.” –Larry Moss, from the Introduction When Oscar-winning actors Helen Hunt and Hilary Swank accepted their Academy Awards, each credited Larry Moss’s guidance as key to their career-making performances. There is a two-year waiting list for his advanced acting classes. But now everyone—professionals and amateurs alike—can discover Moss’s passionate, in-depth teaching. Inviting you to join him in the classroom and onstage, Moss shares the techniques he has developed over thirty years to help actors set their emotions, imagination, and behavior on fire, showing how the hard work of preparation pays off in performances that are spontaneous, fresh, and authentic. From the foundations of script analysis to the nuances of physicalization and sensory work, here are the case studies, exercises, and insights that enable you to connect personally with a script, develop your character from the inside out, overcome fear and inhibition, and master the technical skills required for success in the theater, television, and movies. Far more than a handbook, The Intent to Live is the personal credo of a master teacher. Moss’s respect for actors and love of the actor’s craft enliven every page, together with examples from a wealth of plays and films, both current and classic, and vivid appreciations of great performances. Whether you act for a living or simply want a deeper understanding of acting greatness, The Intent to Live will move, instruct, and inspire you.

Oz and Beyond Michael O'Neal Riley, 1997 Long before Judy Garland sang Over the Rainbow, the denizens of Oz had already captivated the American reading public. The quintessential American fairy tale, L. Frank Baum's The Wonderful Wizard of Oz has had a singular influence on our culture since it first appeared in 1900. Yet, as Michael Riley shows, Baum's achievement went far beyond this one book, or even the 13 others he wrote about that magic kingdom.
