**Looking Good at Any Age** Amy E. Newburger,Pam Proctor,2000 The skin is not only the body's largest organ, it is also a living, self-regenerating, head-to-foot coat that is unlike any other piece of clothing you will ever put on. To be sure that this marvelous skin-suit remains fresh and vibrant, looking its best throughout your life, you must first know what you can expect

to look like at every stage; what to accept as the immutable result of your genetic makeup, life choices, and chronological age; and what you have the power to change. In *Looking Good at Any Age*, Dr. Amy Newburger not only explains to women what they can expect to see when they look in the mirror at every age, she also provides them with the tools to be certain that their reflections are as youthful, vibrant, and glowing with health as possible. From describing the basic skin care every woman should practice starting in her twenties, to identifying the best over-the-counter and prescription cleansers, cosmetics, and anti-aging products and how they work, to shedding light on various procedures -- as minor as a collagen injection or as major as a face-lift -- she answers every question any woman could ever ask about how her skin is nourished, how and why it changes throughout her life, and how to turn back the clock to the best of her ability.
