**Principles of European Contract Law and Italian Law** Luisa Antonioli, Anna Veneziano, 2005-01-01 To provide valuable legal service to persons in today's Europe, practitioners must be conversant in both national and transnational law. At the European level, the Principles of European Contract Law (PECL) are an increasingly important element of contract law, together with national contract law, as contained in Civil Codes and various national statute. Accordingly, Kluwer Law International has initiated a series of volumes, under the direction of prof. Hondius of the University of Utrecht, comparing PECL with the most important European legal systems. This volume on Italian law is the second in the series. Using a straightforward comparative method, the editors' analysis not only reveals a significant area of convergence between the PECL and Italian contract law, but also highlights the main differences between the two bodies of rules. The reasons for these differences, both legal and non-legal (such as historical, social, economic), are clearly set forth. The book provides complete texts, with annotations, of the PECL and the corresponding Italian rules. The presentation proceeds as follows: general provisions (scope of application, general duties, terminology) formation of contracts (general provisions, offer and acceptance, liability for negotiations) authority of agents (general provisions, direct and indirect representation) validity interpretation contents and effects performance non-performance and remedies in general particular remedies for non-performance (right to performance, withholding performance, termination of the contract, price reduction, damages and interest) The editors' commentary includes extensive reference to case law and legal doctrine at all essential points. In this way they provide a comprehensive description of the law in action as well as its evolving trends. In addition, incisive essays by two leading experts in the field of comparative law, prof. Rodolfo Sacco and prof. Michael Joachim Bonell, analyse the relationship of the PECL and Italian law and its wider framework in the harmonisation of private law at the European and international levels. The book is a valuable handbook and guide for both foreign and Italian lawyers. For non-Italian lawyers, be they practitioners or academics, it provides a concise but complete and up-to-date outline of current Italian contract law, organized on the basis of a system (PECL) with which many European lawyers are familiar. For Italian lawyers, it offers a clearer insight into a wider European legal contract system whose importance in the evolution of a common European private law is growing rapidly. **The Transformation of Private Law - Principles of Contract and Tort as European and International Law** Maren

Heidemann,2024-04-20 Eminent lawyers from academia, international judiciary and legal practice join up to honour Professor Mads Andenas KC (Hon). Contributions form a cutting edge volume across legal disciplines led by an advisory editorial committee including Prof. Guido Alpa, Prof. Carl Baudenbacher, Prof. Eirik Bjorge, Prof. Giuseppe Conte and Prof. Duncan Fairgrieve. The general private law of tort and delict is subject to a transformation where the traditional national framework is becoming gradually less relevant. Much of the modernisation of private law takes place not at the domestic level but at a European or international level such as in international commercial conventions or EU consumer protection legislation. Remedies in regulatory law are becoming ever more important. The role of the European Court of Justice in developing general principles of contract and tort is ever increasing. Tort liability is an important subject of international conventions with the caselaw of the International Court of Justice developing general principles of tort liability in public international law.

Liability and Compensation for Offshore Oil Pollution Damage in the Arctic Kristoffer Svendsen,2024-01-15 This book is an essential contribution to understanding Russian law for English speakers. In a time when the energy markets in Europe are changing away from Russian dependence on oil and gas, Dr Svendsen explains what the legal consequences will be if we would experience cross-border harm as a result of an oil spill from offshore installations on the Norwegian and the Russian side of the sea border in the Barents Sea. This book examines Russian and Norwegian rules governing liability, choice-of-law, recognition and enforcement, damage, third-party losses, environmental harm, and valuation of environmental harm.

*Commentaries on European Contract Laws* Nils Jansen,Reinhard Zimmermann,2018-07-13 The book provides rule-by-rule commentaries on European contract law (general contract law, consumer contract law, the law of sale and related services), dealing with its modern manifestations as well as its historical and comparative foundations. After the collapse of the European Commission's plans to codify European contract law it is timely to reflect on what has been achieved over the past three to four decades, and for an assessment of the current situation. In particular, the production of a bewildering number of reference texts has contributed to a complex picture of European contract laws rather than a European contract law. The present book adopts a broad perspective and an integrative approach. All relevant reference texts (from the CISG to the Draft Common European Sales Law) are critically examined and compared with each other. As far as the *acquis commun* (ie the traditional private law as laid down in the national codifications) is concerned, the Principles of European Contract Law have been chosen as a point of departure. The rules contained in that document have, however, been complemented with some chapters, sections, and individual provisions drawn from other sources, primarily in order to account for the quickly growing *acquis communautaire* in the field of consumer contract law. In addition, the book ties the discussion concerning the reference texts back to the pertinent historical and comparative background; and it thus investigates whether, and to what

extent, these texts can be taken to be genuinely European in nature, ie to constitute a manifestation of a common core of European contract law. Where this is not the case, the question is asked whether, and for what reasons, they should be seen as points of departure for the further development of European contract law.

**Compensatio lucri cum damno** Paul Oertmann,

Tort Law in Chile Alfredo Ferrante, 2022-04-21 Derived from the renowned multi-volume International Encyclopaedia of Laws, this book provides ready access to how the legal dimension of prevention against harm and loss allocation is treated in the Chile. This traditional branch of law not only tackles questions which concern every lawyer, whatever his legal expertise, but also concerns each person's most fundamental rights on a worldwide scale. Following a general introduction that probes the distinction between tort and crime and the relationship between tort and contract, the monograph describes how the concepts of fault and unlawfulness, and of duty of care and negligence, are dealt with in both the legislature and the courts. The book then proceeds to cover specific cases of liability, such as professional liability, liability of public bodies, abuse of rights, injury to reputation and privacy, vicarious liability, liability of parents and teachers, liability for handicapped persons, product liability, environmental liability, and liability connected with road and traffic accidents. Principles of causation, grounds of justification, limitations on recovery, assessment of damages and compensation, and the role of private insurance and social security are all closely considered. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable resource for lawyers in Chile. Academics and researchers will also welcome this very useful guide, and will appreciate its value not only as a contribution to comparative law but also as a stimulus to harmonization of the rules on tort.

**Justiça, igualdade e socialidade: estudos em homenagem aos 30 anos de docência do prof. Guilherme Calmon Nogueira da Gama - 1ED - 2026.** LUIZA AZAMBUJA RODRIGUES, THIAGO FERREIRA CARDOSO NEVES, 2025-10-14 O Brasil é um país privilegiado, dizem muitos. E isso é verdade. Em nosso hino é exaltada a abundância natural e a capacidade de produção de nossos solos. Pero Vaz de Caminha, mensageiro português encarregado de relatar ao Rei Dom Manuel, de Portugal, o que viu ao aqui chegar, em 1500, não hesitou em afirmar que Nesta terra, em se plantando, tudo dá. Mas o que isso tem a ver com o livro que ora apresentamos? Muita coisa. A grande e maravilhosa produção de nosso país é exaltada por todos, mas não se limita aos frutos da terra. O Brasil também é reconhecido por produzir grandiosos professores e juristas. E dentre eles está, sem sombra de dúvidas, aquele que é, aqui, homenageado. O Professor Guilherme Calmon Nogueira da Gama é um prodígio, tendo iniciado sua trajetória acadêmica e profissional tão logo se formou na prestigiosa faculdade de Direito da UERJ. Aprovado em diversos concursos para carreiras públicas, demonstrando sua imensa capacidade e, sobretudo, dedicação para lograr êxito nos certames, não deixou de trilhar, com a mesma maestria e brilhantismo, sua carreira acadêmica, em que obteve os títulos de mestre e doutor em Direito pela mesma UERJ que o formou, assim como de

Professor, hoje Titular da cadeira de Direito Civil, caminhada essa do magistério que, em 2024, chegou aos 30 (trinta) anos, sendo este o motivo desta obra de celebração. Mas esta homenagem não deve se limitar a esse marco temporal de sua atividade como docente. Isso porque, para além de toda essa jornada, o Professor Guilherme também se notabilizou por outros feitos em sua carreira jurídica. Hoje Desembargador Federal do Tribunal Regional Federal da 2ª Região, Corte em que exerceu a Presidência no último biênio de 2023-2025, ele também possui uma vasta e fecunda produção acadêmica, já tendo ultrapassado 300 (trezentas) publicações, dentre livros, capítulos de livros e artigos científicos publicados em periódicos e revistas especializadas. O assombro de sua atuação profissional e acadêmica faz desta homenagem, então, quase um eufemismo, de modo que se deve festejar não apenas sua carreira no magistério, a qual é enaltecida por todos os seus alunos e amigos, mas especialmente o conjunto de sua obra, que faz do Professor Guilherme uma das figuras mais destacadas do meio jurídico brasileiro. Por isso, e para cumprir este propósito, foram reunidos diversos textos de alunos e orientandos do mestre Guilherme, o que não poderia deixar de ser, mas também trabalhos de professores e amigos que igualmente se notabilizaram no ambiente jurídico nacional, e que mantêm com ele vínculos afetivos e profissionais, a fim de homenagear e celebrareste marco, tornando esta obra não apenas uma homenagem, mas especialmente um marco no mercado editorial de nosso país. Parabéns, Professor Guilherme Calmon Nogueira da Gama! Que venham mais 30 (trinta) anos de magistério! Seus alunos, professores e amigos agradecem.

Unification of Tort Law: Damages Francesco Donato Busnelli, 2001-01-17 The foundations of tort law in various European legal systems differ considerably. Until now, there has not been an attempt to harmonise the entire field of tort law in a consistent manner. To rectify this, a group of tort lawyers has proposed to address the fundamental questions underlying every tort law system. The result is this important series of books, which searches for a common law of Europe without the necessity yet to lay these principles down in formal legal texts, such as a European civil code. Identifying the most relevant factors in establishing liability as wrongfulness, causation, damage, fault, and the area of strict liability, the authors concentrate on the tort liability factor under discussion in each volume, combining theoretical abstract analysis with the discussion of concrete cases. Each author gives an overview of the particular tort liability factor under his or her national legal system--primarily by working out the concept and its importance in establishing liability--and then applies the analysis to actual cases. The subsequent conclusions aim at the coordination of the results and other important factors. In summary, each volume tries to make clear what common ground pertaining to each tort liability factor underlies all the legal systems

concerned with respect to the law of tort. Each volume also provides the academic and practitioner with the fundamental issues relating to that factor underlying the law of tort in the countries covered.
