World Guide to Special Libraries Marlies Janson, Helmut Opitz, 2011-12-22 The World Guide to Special Libraries lists about 35,000 libraries world wide categorized by more than 800 key words - including libraries of departments, institutes, hospitals, schools, companies, administrative bodies, foundations, associations and religious communities. It provides complete details of the libraries and their holdings, and alphabetical indexes of subjects and institutions.

Cinema and Narrative Complexity Steffen Hven, 2025-10-01 Since the mid-1990s, a number of films from international filmmakers have experimented with increasingly complicated narrative strategies-including such hits as Run, Lola, Run, 21 Grams, and Memento. This book sets those films and others in context with earlier works that tried new narrative approaches, including Stage Fright and Hiroshima, Mon Amour, to show how they reveal the limitations of most of our usual tools for analysing film. In light of that, Steffen Hven argues for the deployment of an 'embodied' reconfiguration of the cinematic experience, one that allows us to rethink such core constituents of narrative understanding as cognition, emotion, and affect. [This book considers films that have experimented with new, increasingly complicated narrative approaches, including Stage Fright and Hiroshima, Mon Amour, to show how they reveal the limitations of most of our usual tools for analysing film.
