Italian Comics in the New Millennium. Vol. 1. Continuity and Innovation Alessio Aletta,2025-10-14 The first issue of a two-volume collection, this book explores the transformation of Italian comics in the new millennium, offering a comprehensive analysis of the evolving landscape of “fumetti” through both historical and contemporary lenses. The book examines iconic serials from Disney Italia and Sergio Bonelli Editore, alongside innovative auteur-driven works, providing readers with an in-depth look at how Italy’s most influential comics publishers have adapted to shifting cultural and industrial contexts. Contributions focus on the challenges of maintaining the essence of beloved series while integrating modern sensibilities, exploring shifts in audience, narrative strategies, and thematic explorations. The volumes also delve into the works of influential Italian comic artists, from the groundbreaking legacy of Andrea Pazienza to the contemporary innovations of Gipi and Zerocalcare, offering fresh insights into narrative styles, intermedial experimentation, and socio-political commentary. With contributions from leading scholars in the field, this collection highlights the vibrant, dynamic nature of Italian comics and their growing international recognition. This work provides a vital resource for anyone interested in the intersection of popular culture, artistic innovation, and the evolving nature of graphic storytelling. Drawing on a rich variety of methodological approaches, the book serves as both a reference tool and a thought-provoking exploration of the role of comics in contemporary society in the Italian context.

Awakening Spaces Brenda F. Berrian, 2000-06-15 The fast-paced zouk of Kassav', the romantic biguine of Malavoi, the jazz of Fal Frett, the ballads of Mona, and reggae of Kali and Pôglo are all part of the burgeoning popular music scene in the French Caribbean. In this lively book, Brenda F. Berrian chronicles the rise of this music, which has captivated the minds and bodies of the Francophone world and elsewhere. Based on personal interviews and discussions of song texts, Berrian shows how these musicians express their feelings about current and past events, about themselves, their islands, and the French. Through their lyrical themes, these songs create metaphorical spaces that evoke narratives of desire, exile, subversion, and Creole identity and experiences. Berrian opens up these spaces to reveal how the artists not only engage their listeners and effect social change, but also empower and identify themselves. She also explores the music as it relates to the art of drumming, and to genres such as African American and Latin jazz and reggae. With *Awakening Spaces*, Berrian adds fresh insight into the historical struggles and arts of the French Caribbean.

Dante's Griffin and the History of the World Peter Armour, 1989 From classical and other sources medieval Europeans had inherited belief in the existence of griffins. In the Garden of Eden, on the summit of the mountain of Purgatory, Dante sees one of these creatures drawing a chariot, which it later joins to the tree of the Fall, making the tree bear leaves and flowers again. This griffin has long been thought to represent Christ, but an examination of medieval griffin lore and of Dante's own poem shows that this explanation is untenable. This study explores both the intellectual and political concerns and the imaginative world of early fourteenth-century Italy: theology, philosophy, and jurisprudence; folklore and romance; prophecy and millenarianism. It provides a new interpretation of Dante's griffin as a powerful symbol central to his presentation of the earthly Paradise, mankind's lost ideal of collective happiness on earth.
