**Robert R. Redfield**

**Misery and Company** Candace Clark,2007-12-01 In a kind of social tour of sympathy, Candace Clark reveals that the emotional experience we call sympathy has a history, logic, and life of its own. Although sympathy may seem to be a natural, reflexive reaction, people are not born knowing when, for whom, and in what circumstances sympathy is appropriate. Rather, they learn elaborate, highly specific rules—different rules for men than for women—that guide when to feel or display sympathy, when to claim it, and how to accept it. Using extensive interviews, cultural artifacts, and intensive eavesdropping in public places, such as hospitals and funeral parlors, as well as analyzing charity appeals, blues lyrics, greeting cards, novels, and media reports, Clark shows that we learn culturally prescribed rules that govern our expression of sympathy. Clark's . . . research methods [are] inventive and her glimpses of U.S. life revealing. . . . And you have to love a social scientist so respectful of Miss Manners.—Clifford Orwin, Toronto Globe and Mail Clark offers a thought-provoking and quite interesting etiquette of sympathy according to which we ought to act in order to preserve the sympathy credits we can call on in time of need.—Virginia Quarterly Review

*Radical Sympathy* Brandon LaBelle,2023-02-28 Questions of interdependency and care have gained broader urgency within today's planetary environment. From the pressing need to work at post-carbon futures to the challenges surrounding our covid-19 realities, understandings of care-work and co-existence require ever-greater imagination and creative engagement. As cultural communities reorient their practices and educational institutions test out other methods in the context of the pandemic, a new sense for solidarity and critical hope are gaining traction. This includes ways of attending to the politics of care, the systems of neoliberal extraction and their toxic projects, and the uneven power relations through which solidarity must work.0The publication, 'Radical Sympathy', gathers a diversity of voices and perspectives with the aim of capturing methods and expressions of care and communal effort, as well as theoretical reflections on sympathy as a position of caring-for. While sympathy may carry connotations of charity, as that which acts from a distance, the publication underscores sympathy as what also enables forms of action and imagination. As Stephen Darwall argues, sympathy is a feeling or emotion that responds to an apparent threat or obstacle to another's well-being. In contrast to empathy, as feeling what others feel, sympathy is responsive and the basis for action.
