Juan Luis Martínez's Philosophical Poetics Scott Weintraub, 2014-12-11 Juan Luis Martínez's *Philosophical Poetics* is the first English-language monograph on this Chilean visual artist and poet (1942–1993). It has two principal aims: first, to introduce Martínez's poetry and radical aesthetics to English-speaking audiences, and second, to carefully analyze key aspects of his literary production. The readings undertaken in this book explore Martínez's intricate textual formalisms, the self-effacement that characterizes his poetry, and the tension between his local (Latin American, Chilean) aspect and the cosmopolitanism or transnationalism that insists on the global relevance of his work. Through his artistic engagement with a number of esoteric concepts—for example, his recuperation of pataphysical "logic" and Oulipian combinatorics, mathematical reasoning, Eastern thought, and the historical avant-gardes—Martínez creates a rigorous quasi-system of citation and erasure that is a philosophical poetics as well as a poetic philosophy. *Juan Luis Martínez's Philosophical Poetics* thus addresses all major publications by this groundbreaking Chilean artist and poet in order to read his difficult, experimental texts by focusing on the tension he creates between philosophical, political, literary, and scientific discourses.

The Poems of Octavio Paz Octavio Paz, 2018-02-27 Now in paperback, the definitive, life-spanning, bilingual edition of the poems by the Nobel Prize laureate *The Poems of Octavio Paz* is the first retrospective collection of Paz's poetry to span his entire writing career from his first published poem, at age seventeen, to his magnificent last poem. This landmark bilingual edition contains many poems that have never been translated into English before, plus new translations based on Paz's final revisions. Assiduously edited by Eliot Weinberger—who has been translating Paz for over forty years—*The Poems of Octavio Paz* also includes translations by the poet-luminaries Elizabeth Bishop, Paul Blackburn, Denise Levertov, Muriel Rukeyser, and Charles Tomlinson. Readers will also find Weinberger's capsule biography of Paz, as well as notes on many poems in Paz's own words, taken from various interviews he gave throughout his long and singular life.

Configurations Octavio Paz,1971 Octavio Paz, the 1990 Nobel Laureate, has won distinction as an anthropologist, philosopher and critic of art and literature. But it is as a poet that he is most celebrated. Configurations was his first major collection to be published in this country, and includes in their entirety Sun Stone (1957) and Blanco (1967). Paz himself translated many of the poems from the Spanish. Some distinguished contributors to this bilingual edition include, among others, Paul Blackburn, Lysander Kemp, Denise Levertov, and Muriel Rukeyser.

Networked Art Craig J. Saper,2001 The experimental art and poetry of the last half of the twentieth century offers a glimpse of the emerging networked culture that electronic devices will make omnipresent. Craig J. Saper demarcates this new genre of networked art, which uses the trappings of bureaucratic systems - money, logos, corporate names, stamps - to create intimate situations among the participants. Saper explains how this genre developed from post-World War II conceptual art, including periodicals as artworks in themselves; lettrist, concrete, and process poetry; Bauhaus versus COBRA; Fluxus publications, kits, and machines; mail art and on-sendings. The encyclopedic scope of the book includes discussions of artists from J. Beuys to J. S. G. Boggs, and Bauhaus's Max Bill to Anna Freud Banana. -- Publisher.
